Little-Tree Farms

Framingham Centre, Massachusetts

Half-mile from the business center on Pleasant Street (Route 30)

A GLIMPSE OF LITTLE-TREE FARMS FROM THE AIR

Little-Tree Farms is situated in Framingham Centre, Massachusetts, almost midway between Boston and Worcester and about 20 miles from either city. It may be readily reached by train, bus or motor over fine state highways from any point in New England.

It lies in a countryside made beautiful by both nature and the hand of man and enriched by a heritage of tradition reaching back to Colonial days. The map inside the back cover shows plainly the major routes to Little-Tree Farms.

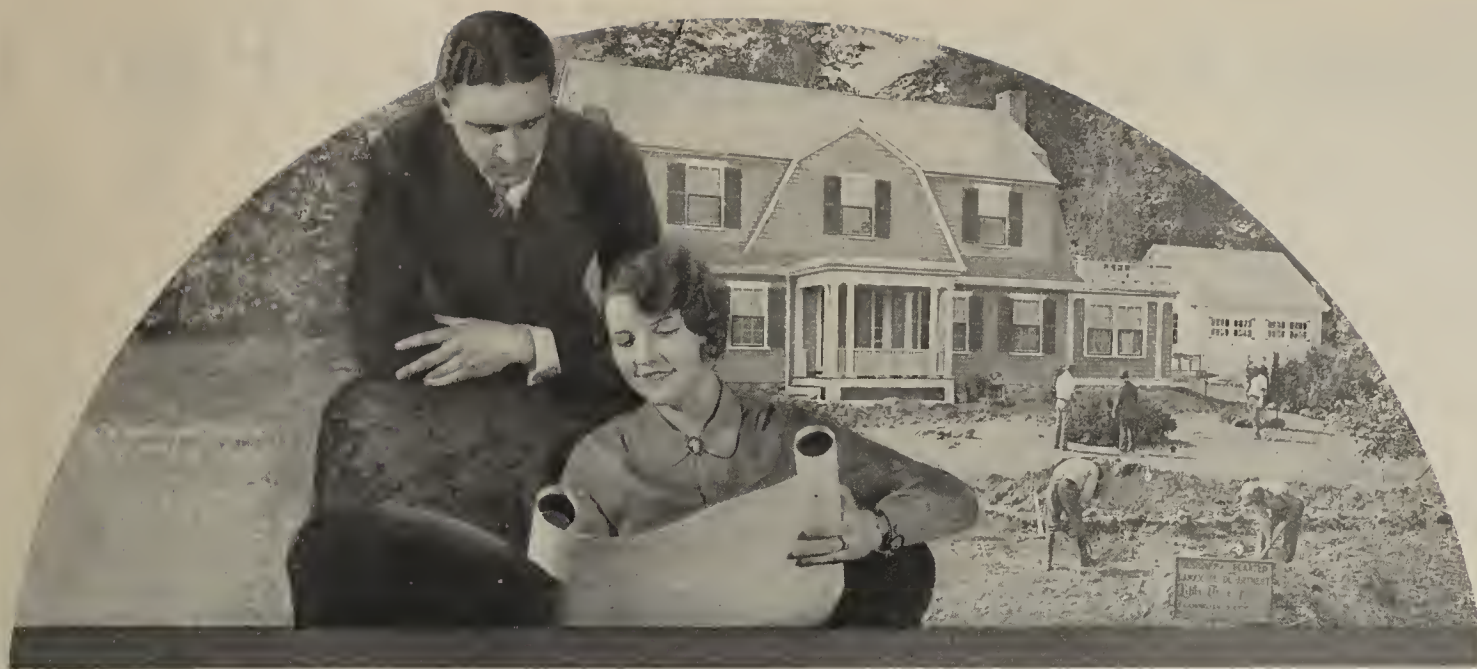

If you can't drop in for a visit right away take a peep at Little-Tree Farms as you pass over. Even in an airview photograph we can't show you all of it, but here is the heart — the group of administration buildings with the two-acre salesyard and Demonstration Gardens, and the growing fields that surround them.

The heavy line of tree tops running diagonally across the picture

marks Pleasant Street, going to Marlboro and Worcester on its way from Framingham Centre and Boston (Route 30). The large building at the extreme right with the cupolas houses the Shrub, Vine and Fruit Tree Departments as well as Storage and Packing Houses with the shipping platform. In front, concealed by the large trees in the foreground, is the large glass-enclosed Sales Building and Garden Store which contains a wide selection of articles to interest the garden lover, including garden furniture, pottery, glass, tools, books, and other items too numerous to list even in the catalogue.

Above these two buildings on a slight rise of land stands the Office Building with its busy staff.

However, no words or pictures can give an adequate idea either of its beauty or its activities, hence with our best bow and smile of welcome we very cordially invite you to come to Little-Tree Farms! Let us assure you, you will find your visit well worth while.

This is Your Year Book and Catalog

Beauty and order and inspiration! You want them in your home surroundings, whether your boundaries comprise a half-acre or a thousand acres — and you may have them in either case. It is the pleasant business of this Year Book to help you produce this environment of beauty and value around your home at moderate cost. For this two things are indispensable; first, plenty of good plants at reasonable prices; second, reliable and helpful information about the best uses of plant material.

The "plenty of good plants at reasonable prices" we have certainly secured for you at our two Farms. Little-Tree Farms is known throughout the country; Little-Tree Farms prices are such as only quantity production by most skillful and economical methods could have made possible.

For the "reliable information" we offer you this book. The art of using plants to produce environments of beauty and value has been our life work. We are putting this experience at your

service, as clearly and sincerely as we know how, hoping that you will find here what you need to make your planting a pleasure and success.

This Year Book is really two books in one

With Part I open before you, you can easily and pleasantly choose the right planting material for a hedge along the street, a group of evergreens at your front door, a mass of shrubbery on the lawn.

Turning to Part II — you may gain an intimate knowledge of each of the trees, shrubs or other plants you are considering, its looks, habits and size. There also are the complete prices.

We put the book in your hands with much good will. We hope it will help you make your property more beautiful and valuable, and that you will long and keenly enjoy the environment you create with the aid of Little-Tree Farms' Products.

Year Book & Catalogue » PART I

Planting Guide for Home Grounds

Each builder of a new home, each new dweller in an old home, wants to add his part to the beauty and distinction of his neighborhood; to make his little piece of the world better than he found it. To plant something beautiful and useful is the need of home-loving folk — a need we can help you meet.

We have tried to put our years of experience and special training truly at your service in this book. The pictures are photographs of actual plantings by different designers and planters. The advice is the work of technical experts of long experience. The prices are the result of growing in great quantities by special methods of utmost economy. The quality of our plants is known throughout the country.

Part I of this book was designed especially to help you to select the right plants to complete your home picture, to help you bring that atmosphere of peaceful beauty so important in the hurry and bustle of modern life. Undoubtedly we have omitted some of the planting problems puzzling many of you. If so, do not hesitate to bring your questions to us. Our experienced landscape men are here to consider your problems with you, and help you find a satisfactory solution. Bring a sketch, photograph, or plan with you, if you can. You will be sure of a sympathetic and sensible consideration of your problem. We hope to see you in Framingham Centre early in the season. If you can't come, write us.

A planting crew from Little Tree Farms at work on a customer's property. Can we do your planting for you?

*Tall stately spikes of
Larkspur.*

PERENNIAL ARISTOCRATS

For Distinguished Gardens

A Selection from the Best of the More Recent Introductions

Those who want the finest newer and better perennials will delight in choosing from this list. Our selection includes a wide range of marvelous colors and a variety of desirable types. All

are strong 2 year field-grown plants which even the first year should add much colorful beauty to your garden. For complete list of fine perennials see pages 50 to 57.

DELPHINIUM (Larkspur)

The lovely Hybrid Delphiniums are the dominant flowers in perennial borders and gardens. The taller types grow six feet tall or more and carry huge spikes of exquisite flowers. The Chinese types are smaller but equally lovely. We offer some of the choicest newer varieties.

TALL GROWING

Blackmore and Langdon Hybrids

A remarkably fine English strain. Enormous flowers in all the clear shades and tints of blue with opaline variations of pink and mauve. 4 to 6 feet tall. Unsurpassed for garden effect or culture.

Each \$.50 3 for \$1.40 10 for \$4.00

Vanderbilt Hybrids

An improved American strain approved by connoisseurs. Graceful, elegant stalks covered with lovely flowers of blue, mauve and pink shades. 4 to 6 ft. tall.

Each \$.40 3 for \$1.00 10 for \$3.00

LOW GROWING

Chinese Delphinium

Blue Butterfly — Charming and graceful flowers of deepest blue on plants about 16 inches tall.

Each \$.50 3 for \$1.40 10 for \$4.00

Cambridge Blue — A new color. Large flower spikes of rich vivid light blue on 2 foot stalks.

Each \$.50 3 for \$1.40 10 for \$4.00

PAINTED DAISY (Pyrethrum)

A showy and popular garden flower. Tufts of attractive, finely cut foliage. Showy single daisy-like flowers. June — July. Of inestimable value for cutting. The strains offered are exceptionally good. 2 to 3 ft.

Atrosanguinea

Large single flowers of deep blood red.

Each \$.30 3 for \$.75 10 for \$2.00

James Kelway

A fine English strain with large single crimson flowers.

Each \$.40 3 for \$1.00 10 for \$3.00

GAILLARDIA (Blanket Flower)

One of the few perennials to flower continuously from June to October. Easy to grow and perfectly hardy. Wonderful new strains have been developed recently. We offer these beauties to you.

Burgundy

Shining deep wine red flowers about 2½ in. in diameter on long stiff stems. Extra choice.

Each \$.40 3 for \$1.00 10 for \$3.00

Tangerine

This new variety is a compact grower with large flowers of rich tangerine orange color.

Each \$.40 3 for \$1.00 10 for \$3.00

The Dazzler

This fine Gaillardia is correctly named. It has large shapely golden yellow flowers with rich maroon centers.

Each \$.40 3 for \$1.00 10 for \$3.00

Torchlight

Compact habit. 2 to 2½ ft. Flowers often 5 in. in diameter are golden yellow with maroon centers.

Each \$.40 3 for \$1.00 10 for \$3.00

*Evergreens make a delightful background
for the perennial border.*

ICELAND POPPY (Papaver nudicaule)

Brightly colored flowers are borne on stems about a foot tall above a tuft of fern-like leaves. Blossoms all summer if faded flowers are picked. These are exceptional varieties.

Coonara Pinks

A very fine strain of exquisite texture and form, with flowers of pink, salmon and rose tints.

Each \$.40 3 for \$1.00 10 for \$3.00

El Monte

Deep, burnt orange blossom of giant size on long wiry stems. Fine for cutting.

Each \$.40 3 for \$1.00 10 for \$3.00

Gartref Art Shades

A very select range of loveliest art shades — pink, yellow, amber, apricot and other tints and dual tones. Deep contrasting border at tip of petals is very unusual.

Each \$.50 3 for \$1.40 10 for \$4.00

ORIENTAL POPPY (Papaver orientale)

For splendor of bloom and rich color these royal members of the garden family are unsurpassed. They form the high note of the border and garden during May and June. We have selected for your special attention several varieties noteworthy because of their exceptional beauty.

Mahony

Large deep maroon blossoms shaded crimson.

Each \$.25 3 for \$.60 10 for \$1.60

Mrs. Perry

An outstanding favorite of delicate salmon rose with shiny black blotches.

Each \$.40 3 for \$1.00 10 for \$3.00

Rembrandt

Very striking, large orange scarlet blossoms.

Each \$.50 3 for \$1.40 10 for \$4.00

Queen Alexandra

Extraordinarily lovely clear rose pink.

Each \$.25 3 for \$.60 10 for \$1.60

Masses of gay color delight the eye in these Perennial Gardens.

MORE PERENNIAL ARISTOCRATS

GLOBEFLOWER (Trollius)

Globular flowers of unique character in orange and yellow shades. Pretty dark green foliage, glossy and finely cut. The strains we offer are exceptionally fine.

Eleanor

Shining clear yellow. 18 inches. May — August.

Each \$.40 3 for \$1.00 10 for \$3.00

Golden Queen

Extra large globular flowers of golden yellow. 2 to 3 feet. June to October.

Each \$.50 3 for \$1.40 10 for \$4.00

Orange Globe

Beautiful orange flowers. 1 to 2 feet. June — August.

Each \$.50 3 for \$1.40 10 for \$4.00

TUFTED PANSY (Viola cornuta)

Bowle's Black

These dainty garden flowers are prized not only because of their delicate beauty and extreme hardiness, but also because they bloom freely from May till frost. This is a most unusual variety with small purple flowers, almost black, with tiny golden eye. Very striking.

Each \$.40 3 for \$1.00 10 for \$3.00

PINK HARDY VIOLET (Viola odorata rosina)

A charming new variety with quantities of exquisite flowers in spring and again in late autumn. The flowers are deliciously fragrant and of lovely color. A combination of pink and old rose shades. Splendid for borders and rockeries.

Each \$.40 3 for \$1.00 10 for \$3.00

CORALBELLS (Heuchera Rosamundi)

Abundant coral pink blossoms on strong stems. 15 to 18 in. June — September. Neat rosettes of rounded evergreen leaves. Considered the best coral pink variety.

Each \$.40 3 for \$1.00 10 for \$3.00

HYBRID LUPINE (Lupinus)

An exceptionally fine strain with full spikes or pea-like flowers. Excellent mixture of color, brilliant rose, terra cotta, buff, mauve and blue. 3 to 4 ft. June — July.

Each \$.40 3 for \$1.00 10 for \$3.00

HERB GARDENS — A Fascinating Hobby

Our Great Grandmothers felt their gardens incomplete without a good selection of fragrant and savory Herbs. In the past two or three years there has been a great revival of interest in this intriguing subject. The reasons are obvious — for not only

are the Herbs valuable for their ornamental qualities but also because they contribute flavor to the menu and fragrance to the home. Grow them freely in your flower gardens for their beauty, flavor and fragrance. We offer hardy 2 year field grown plants.

ALPINE SAVORY (Calamintha Alpina)

Bright yellow flowers. Young shoots and leaves used for flavoring.

BEEBALM (Monarda didyma)

Cardinal red flowers. Aromatic foliage. 2 to 3 feet. July and August.

CAMOMILE (Anthemis nobilis)

White flowers. Pungent, finely cut foliage from which a soothing tea may be made.

CATNIP (Nepeta cataria)

Grayish white flowers. Aromatic foliage. Tonic tea made from leaves.

CHIVES (Allium schoenoprasum)

Rosy lilac flowers. Leaves give delicate onion flavor to salads, soups, etc.

CRIMSON THYME (Thymus ser. coccineum)

Creeping plant with crimson flowers. Fragrant foliage used for seasoning.

GARDEN HELIOTROPE (Valeriana officinalis)

Rose tinted white flowers. Delicious odor.

Prices for Herbs

Each \$.25 3 for \$.60 10 for \$1.60
100 for \$14.00

f.o.b. Framingham.

For further description consult pages 50-57.

GAS PLANT (Dictamnus albus ruber)

Rosy pink flowers. Lemon scented stems and leaves.

HYSSOP (Hyssopus officinalis)

Spikes of blue flowers. Foliage very aromatic. Used for medicines and flavoring.

IRIS (Iris Florentina)

Fragrant Orris-root comes from the dried roots of this plant. Used in powders and perfumes.

LEMON THYME (Thymus citriodorus)

Evergreen foliage, lemon scented. Used for medicinal tea and for seasoning foods.

SPEARMINT (Mentha spicata)

Purple flowers. Leaves used for flavoring.

THYME (Thymus vulgaris)

Dried leaves used to season meats and sauces. Fresh leaves in salads.

TRUE LAVENDER (Lavandula officinalis)

Purplish flowers are dried and used for scenting linens.

WOOLLY YARROW (Achillea tomentosa)

Bright yellow flowers. Aromatic foliage.

WORMWOOD (Artemisia absinthium)

Greenish gray leaves are used in medicines.

An excellent assortment of Herb seeds will be found in our Garden Store at Framingham Centre, Massachusetts.

Prices of Perennials include packing and delivery to the transportation companies at Framingham, Massachusetts.

For Glorious Colors from Spring till Frost Plant

ANNUALS

Little Tree Selection of Worthwhile Recent Introductions

Annual flowers are easily grown from seeds, but for best results it is important to get only the best seeds. We offer seeds of the finest and most reliable strains and there is a generous quantity in each packet. Plant this assortment for the loveliest possible flowers, the sort that will win prizes at your flower show.

The list below represents a careful selection of desirable novelties and specialties, including some of the finest "All America" selections for 1936. Many other flower and vegetable seeds are on sale in our Garden Store at Framingham Centre, Massachusetts.

*Marigold*

AGERATUM — Blue Cap Pkt. 20c
Very dwarf compact plants. 6 in. Covered with dense heads of large flowers of rich deep blue. Excellent for edging.

ASTERS — Giant Branching, Mixed 15c
An excellent mixture of this very fine wilt-resisting aster. Large, very double flowers of vivid color on long stems 2 to 3 ft. A vigorous grower and prolific bloomer. Midseason till frost. Excellent for cutting.

ALYSSUM — Little Gem 10c
Sweet Alyssum is easy to grow and free flowering. Flowers, pure white and sweet scented, forms a carpet of bloom about 4 in. tall. Fine for rock gardens and borders.

CALENDULA — Frilled Beauty 25c
One of the finest new varieties. Beautiful double flowers of deep orange. Stems long and fine for cutting.

Orange Sunshine 50c
Large double chrysanthemum-like flowers, beautifully formed on unusually long stout stems. Color bright orange. Plants are shapely and blooms profuse. A very choice new variety.

Orange Shaggy 15c
A new and worthwhile variety of rich orange color, lighter toward center, with deeply fringed petals giving flowers a shaggy chrysanthemum-like appearance. Plants 18 in. in height. Lovely in garden or cut.

Sunshine, Buttercup Yellow 10c
Beautiful, large, double flowers on long, stout stems. Distinctly beautiful buttercup yellow color.

Mixed 10c
An excellent mixture of all colors.

CORNFLOWER — Bachelor's Button Pkt. 10c
A selection from the old fashioned blue variety with larger double flowers of rich blue.

COSMOS — Orange Flare 25c
An outstanding novelty. Awarded All American Gold Medal in 1935. Brilliant fiery orange. Very beautiful. Do not sow out of doors until ground is warm and give full sun.

DAHLIA — Unwin's Dwarf Hybrids 25c
Semi-double flowers in beautiful range of colors — pink, lavender, red, orange, yellow. Grow 2 to 3 ft. Abundant flowers till frost. Tubers may be saved for planting next year. Extra fine for bedding and cutting.

GOURDS — Mixed 15c
A very fine mixture of all shapes and sizes. Growing gourds is a fascinating hobby.

GYPSOPHILA — Grandiflora alba 10c
Angel's Breath — An improved large and free flowering strain of pure white. Easy to grow. To keep succession of bloom sow every three weeks from May to July. Beautiful in bouquets with other cut flowers.

LARKSPUR — Giant Imperial 15c
A new and improved race of annual Larkspur. Upright growth, branching from base of plant. Unusually profuse blooms and extra long flower stems. This assortment contains many wonderful colors.

LAVENDER LACE FLOWER Pkt. 10c
Dainty lacy lavender and blue flowers. Blooms all summer. Lovely as a cut flower.

LOBELIA — Crystal Palace compacta 10c
Bushy low plants, 4 in., covered with deep blue blossoms. A carpet of bloom throughout the season.

MARIGOLD
Harmony (French Dwarf Double) 25c
A remarkable variety, differing from other French marigolds in habit, shape and color. The flowers, bright golden yellow with outer petals rich maroon red, suggest the Scabiosa. Plants are very bushy and about 12 in. high. A fine plant for bedding and for cut flowers.

Yellow Supreme (Tall African Double) 10c
Large fluffy blooms of creamy lemon-yellow with loose frilled petals. Delicate honey fragrance. Plants remarkably vigorous and free branching. Unsurpassed as a cut flower. An exceptionally fine variety.

Guinea Gold 15c
The "carnation flowered" marigold has broad overlapping, loosely formed petals of brilliant orange, flushed with gold. Plants grow about 2 ft. high and produce abundant flowers. Early flowering. One of finest introductions.

Of Interest to Flower Lovers.

THE BOOK OF ANNUALS

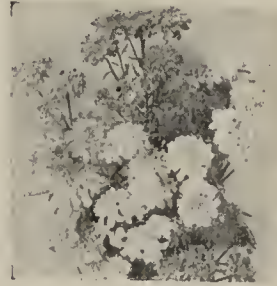

By Alfred C. Hottes.

Complete information that will help you grow the best annuals.

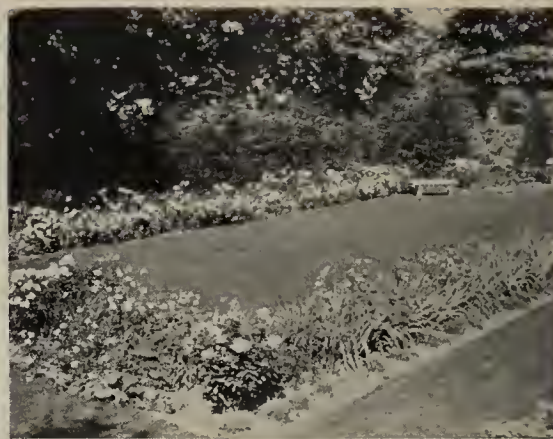

\$1.65 postpaid

Finest annual plants in variety on sale in our Garden Store during the season (after May 10).

*Marigold**Calendula**Salpiglossis**Candytuft**Scabiosa*

Flower seeds are shipped by prepaid post.

What can be more inviting than a garden of exquisite flowers?

MORNING GLORY — Heavenly Blue Pkt. 25c

Clark's True Early Flowering Strain is perhaps the finest of all morning glories. Flowers, exquisite sky-blue with white throats, measure 3 to 4 in. across. Profuse blossoms for a long season. Give plants full sun.

NASTURTIUM

Dwarf Double Golden Globe 25c
This fine variety has received All American Award of Merit. It is similar to Golden Gleam but of very much dwarfer bushier habit. Double flowers of deep golden yellow are sweet scented. Free blooming. Very fine.

Golden Gleam 10c
Large double golden yellow flowers. Sweetly scented. Semi-dwarf plants bear profusely. A universal favorite.

Double Scarlet Gleam 20c
Fiery orange scarlet blossoms of immense size — larger than any other variety — sweet scented and well formed. Long stems. Suitable for cutting. Very striking.

Orange Gleam 25c
The latest addition to the famous Gleam family. Deep golden orange double blooms with deeper shading at center. Sweet scented. Semi-dwarf plants.

Double Gleam Hybrids Mixed 20c
A marvelous collection of double and semi-double flowers of dazzling beauty borne in profusion on semi-dwarf plants. Glorious shades of salmon, golden yellow, orange, creamy yellow, crimson and scarlet. Easy to grow. Very popular.

Dwarf Double Golden Gem Mixed 25c
A dwarf compact strain with large double flowers. Beautiful shades of yellow, orange, crimson, scarlet and maroon.

PANSY — Swiss Giant 25c
Gigantic round flowers of excellent form and substance. Marvelous new shades of garnet, cardinal, blue, violet, yellow and white.

PETUNIA

Flaming Velvet 25c
All America Gold Medal Awarded 1936. Rich, velvety crimson. An outstanding variety of the large flowering bedding type.

Celestial Rose 25c
A dwarf compact grower with rich deep satiny rose blooms. Very handsome.

Dwarf Rose Gem Pkt. 25c

All America Award of Merit 1936. Compact plants 5 to 6 in. tall, covered with profuse blooms of rich deep rose. Individual flowers 2 in. across and as many as 25 to 30 on a plant at one time. Beautiful for borders, window boxes, bedding and rock gardens.

Royal Purple 25c
Large single flowering type. Individual blooms 3 to 4 in. diameter. Rich deep velvety purple. Beautiful.

Mixed Hybrids 10c
An excellent mixture of hybrid bedding petunias. Fine assortment of lovely colors. Very free flowering.

PHLOX — Drummondii 25c

New Art Shades
Winner of All America Award of Merit. A wonderful range of pastel tints of salmon, rose, violet, blue, mauve and other beautiful colors. Large individual flowers in clustered heads on plants 9 in. tall. An outstanding novelty.

PORTULACA — Rose Moss 10c
This old favorite blooms continuously till frost. Needs sunny location. Grows well in rock gardens and between stepping stones. Flowers are like miniature roses. An excellent mixture of good colors.

SALPIGLOSSIS — Mixed 15c
Painted Tongue — This garden aristocrat is easy to grow. Colors are very handsome and unusual. Large trumpet shaped, deep throated veined flowers, are borne profusely on strong stems. 30 in. tall.

Surprise Garden

SURPRISE GARDEN MIXTURE 25c
Plant this excellent mixture freely for a continuous succession of happy surprise. It contains eighty or more different annual varieties, all attractive and easily grown. Plant freely but not too thickly in rows. Fine for picking.

SCABIOSA — Pincushion Plant Pkt. 25c

Blue Cockade
A new variety with purest deep azure blue flowers of any annual. Double blooms on strong stems. Free flowering. Very fine for cutting.

Peach Blossom 10c
A new giant form with large round fully double flowers of exquisite peach blossom pink. Excellent for cutting.

TITHONIA—Golden Flower of the Incas
The flowers of vivid orange-scarlet resemble giant single Zinnias. The bushes are large with woody stems; big leaves. An excellent plant for backgrounds.

VERBENA — Mayflower 10c
Flowers of clear pink. A favorite for borders and beds. Free flowering.

ZINNIA — Dahlia Flowered 15c
Crimson Monarch
Very double large flowers sometimes 4 in. deep and 6 to 8 in. diameter. Very like Show Dahlias. Largest and best of red shades. Rich crimson.

Desert Gold 25c
Large, double, well formed flowers. New bi-color effect. Deep golden yellow at base of petals contrasted with light or deeper gold at tips. Very effective. 2½ to 3 ft. plants.

Dream 15c
A new and desirable shade. Deep lavender turning to purple.

Exquisite 15c
Light rose with deeper rose center. Very beautiful.

Polar Bear 15c
The best pure white. Large blooms. Lovely.

Tango 25c
New this year. Gorgeous golden orange with reddish orange center. Marvelous two toned effect.

Mixed 10c
A well balanced mixture of the above and other handsome colors.

ZINNIA — Pompon or Lilliput 10c
These Baby Zinnias form handsome little bushes which are covered with tiny short stemmed very double flowers. 12 to 15 in. Last well when cut and bloom all summer. This is an excellent selection of choice colors.

The potted evergreens add a pleasing touch to the doorway shown at the left and blend with the evergreen planting about the house foundation.

Above Hemlocks, Arbovitae and other evergreens are combined in a stately dignified group.

THE DOORWAY

Should Extend a Gracious Welcome to the Guest

What matter how well designed and furnished may be the interior if the doorway is stern, gloomy and forbidding? Here at the doorway should be invitation and welcome and a reflection of the owner's taste.

Offer A-1 **\$10.00**
(Regular Price \$11.75)

Doorway Groups

Five choice evergreens to plant one side of your doorway. This popular doorway group is adaptable to small or medium sized houses and to practically any type of architecture. All are highest quality plants, selected to give variety in color, shape and foliage.

- | | |
|-----------------------|-----------------|
| 1 American Arborvitae | 5 to 6 feet |
| 1 Hemlock | 3 to 4 feet |
| 1 Blue Spruce | 18 to 24 inches |
| 1 Dwarf Mountain Pine | 18 to 24 inches |
| 1 Savin Juniper | 18 to 24 inches |

2 Offers, **\$19.00**

Sufficient for both sides of your doorway.

Order by name and number, with remittance.

In no way can one better create this friendly welcome than by an artistic landscaping of one's doorway.

Often a very simple treatment is sufficient. A vine or two on an arching trellis, a few well chosen shrubs at the door of a colonial cottage, a pair of tubs or stone vases to flank a city door, will often bring about a magic transformation.

For the year-round home, evergreens are the basic plants and are obtainable in a wide variety of shapes and textures. The addition of low-growing flowering shrubs, or the introduction of small perennials and flowering bulbs, along the edges of plantings oftentimes creates very delightful effects and varies the color symphony from time to time.

At any rate, whatever other planting you may do about the place, remember the doorway!

We design and make doorway plantings for the finest homes, large and small. And it is with confidence that we offer you the beautiful groups A-1 and A-2. In form, color, tone, variety and quality, these evergreens are right. If these groups do not meet your special needs, consult us in person or by mail.

Offer A-2 **\$20.00**
(Regular Price \$22.50)

Seven Fine Evergreens

This fine group is just right for one side of the doorway of a medium sized house. For both sides use two groups. All are beautiful strong rooted hardy evergreens sure to satisfy the most particular.

- | | |
|-----------------------|--------------|
| 1 American Arborvitae | 6 to 7 feet |
| 1 Hemlock | 5 to 6 feet |
| 1 White Spruce | 3 to 4 feet |
| 1 Sawara Cypress | 3 to 4 feet |
| 1 Savin Juniper | 2 to 2½ feet |
| 2 Mugho Pine | 2 to 3 feet |

2 Offers **\$38.75**

The Design of Small Properties

by M. E. Bottomley

will help you plan your plantings. (See "Books" on page 60).

Postpaid \$2.65

Use our high quality imported Peat Moss in planting your evergreens, and also to mulch them. Full description on page 64.

Use LittleTree-Farms high quality evergreens about your house. A planting of mixed evergreens like that shown will add to the beauty and value of your property.

The simple planting of flowering shrubs adds much to the charm of this doorway.

Evergreens are priced f.o.b. our nursery. Packing for rail shipments extra at cost.

For such a house as this, where red brick gives the predominant color background, the foundation planting can be of a bolder, more robust design than for houses of lighter color.

Potted Arborvitae decorate this doorway as a climax to the planted Arborvitae at the two sides. Notice how perfectly these frame the modest attractive entrance.

THE FOUNDATION

This corner group is accented by the Blue Spruce in the foreground.

A good foundation planting aims to cover the housebase and blend the structure with its natural surroundings; also to accentuate the particular style of architectural beauty belonging to it, and to increase the general effect of charm, ripeness and cheer.

The sympathetic treatment of the main door sets the "key" for the harmonious

treatment of the rest of the house. If flowering vines riot over the trellis there, flowering vines may well appear between windows on the front and sides. If classically symmetrical Arborvitae or Juniper flank the front steps, they will most harmoniously appear again at corners and between windows. If Rhododendron or Laurel is massed against the doorstep, it will be the best bright touch at intervals all along the "foundation planting."

For a foundation planting there must usually be. It is a rare house that looks well with its base totally exposed. There is always an unfinished look about such a house — a kind of collarless and neck-tieless look!

Any plant material which suits the particular house is "good style". On a tiny old-time cottage a few vines and old-fashioned perennials may be enough. Many people choose flowering shrubs for a large part of their foundation planting. But most of us prefer evergreens for at least the dominant parts. Evergreens are an all-seasons frame, as constant as the building itself. And

they have the softness and density which decorates what it covers. Also, the right evergreens adapt themselves to shearing and pruning, which makes it possible to keep the planting from getting out of bounds.

If the house has a high foundation or is tall and narrow, large plants should be used and extended in wider "wings" at the outside corners; deep bays and juts can be softened by planting in and around them. The taller plants should be used in the background and as accents at the corners and between windows.

When planting evergreens around the house be very sure that no lime or plaster is present. Rubbish of this kind, sometimes used as filling by careless contractors, is detrimental to evergreens.

If the soil is extremely poor and hard, cover it with 6 to 8 inches of granulated peat moss and spade this in thoroughly, turning the earth over to a depth of at least 18 inches. Even in good soils 2 inches of the moss worked into the soil will be very beneficial. Peat moss is described on page 64.

A gracious planting of Little Tree Farms evergreens extends the welcome of this church.

Low evergreens with taller accents complete this attractive house. Similar effects can be obtained with the Special Offer listed on the following page.

Each evergreen is shipped with roots in ball of native loam wrapped and tied in burlap.

This foundation planting by Little Tree Farms is a happy blend of various evergreens artfully arranged to accent the beauty of the house. May we help you with a similar planting?

Offer A-3 **\$15.00**
(Regular Price \$17.25)

Low Foundation

Ten choice evergreens for planting along a low foundation or wall. May also be arranged around porches, sun parlors, or at path or drive entrances. Will cover approximately 20 linear feet.

- | | |
|------------------------|-----------------|
| 2 White Spruce | 3 to 4 feet |
| 2 Hemlock | 2 to 3 feet |
| 1 Chinese Juniper | 2 to 3 feet |
| 1 Golden Plume Cypress | 18 to 24 inches |
| 2 Colorado Spruce | 18 to 24 inches |
| 1 Savin Juniper | 18 to 24 inches |
| 1 Japanese Yew | 15 to 18 inches |

10 Handsome Evergreens

Order by name and number, with remittance.

How To Make A Foundation Planting

Set the plants about three feet apart, in as natural manner as possible. Arrange in three groups:

(1) **Back Group.** Set taller species nearest the building; fill corners. Leave windows unobstructed.

(2) **Middle Group.** In front of tallest-growing set species of medium height, not making even rows, but filling gaps.

(3) **Front Group.** Finish with an edging all round of lowest-growing plants.

The offers made on this page are arranged for you solely as suggestions to help you and not in any way to limit your choice.

With these offers you can secure effects similar to those illustrated on this and the preceding page. (See also illustration of foundation groups in various places throughout the latter part of this catalogue.)

If these suggestions do not enable you to make a choice, please consult us in person or by mail.

Offer A-5 **\$40.00**
(Regular Price \$46.00)

Tall Foundation

Fourteen selected evergreens particularly well adapted to planting around a moderate size house with the doorway in the middle of the front. Sufficient plants for house front of 25 to 30 feet. This group can also be used along a fence or as a border planting. All are magnificent quality evergreens.

- | | |
|-----------------------|-------------|
| 2 American Arborvitae | 6 to 7 feet |
| 2 Douglas Fir | 5 to 6 feet |
| 2 White Spruce | 5 to 6 feet |
| 2 Hemlock | 4 to 5 feet |
| 2 Sawara Cypress | 3 to 4 feet |
| 2 Chinese Juniper | 2 to 3 feet |
| 2 Dwarf Mountain Pine | 2 to 3 feet |

14 Beautiful Evergreens

Order by name and number, with remittance.

Offer A-4 **\$27.00**
(Regular Price \$30.00)

Medium Foundation

Sixteen handsome evergreens just right for decorating a house with entrance at center on one side. By arranging in different ways these plants may be used to decorate any part of house foundation or lawn. Will cover approximately 20 feet of planting space.

- | | |
|-----------------------|-----------------|
| 4 American Arborvitae | 4 to 5 feet |
| 2 White Spruce | 3 to 4 feet |
| 2 Hemlock | 3 to 4 feet |
| 2 Plume Cypress | 2 to 3 feet |
| 2 Savin Juniper | 18 to 24 inches |
| 4 Dwarf Mountain Pine | 18 to 24 inches |

16 Choice Evergreens

Order by name and number with remittance.

Just as a foundation planting dignifies the appearance of the home and the approach to it, so many other types of buildings can often be beautified by the same treatment. Churches, banks, libraries, courthouses, town halls and other public buildings and monuments look better and give a more prosperous air to the communities they serve if they have plantings around them. Little Tree Farms grows quantities of big evergreens — just right for this kind of planting.

For descriptions of the various evergreens, see pages 24 to 37 of this catalogue.

Here a massive planting of evergreens affords privacy, hides the high foundation and dignifies the drive.

A simple and inexpensive planting made for one of our customers. The same group of plants could be arranged to fit other types of architecture.

Evergreens are priced f.o.b. our nursery. Packing for rail shipments extra at cost.

A "wilderness path" created by planted evergreens and rock plants.

The attractive planting at this entrance gives distinction to the entire property.

A path made lovely by flagstones, evergreens and shrubs.

PATHS and ENTRANCES

The entrance to the home grounds gives a swift composite impression of the occupant's personality to the guest or the stranger. Whether it is an entrance to a drive or to a path, it is the outward, visible sign of the spirit and taste of those who dwell within. Welcoming or forbidding, gracious or meagre, subtle or harsh, the entrance silently tells a story and paints a character.

There are many fascinating ways of making the entrance spell welcome and charm; small gracious plantings for paths, ampler lines and masses for drives. Vines and flowering shrubs have their place, but a place second to Evergreens. The entrance is a thing of all seasons, and needs a decoration permanent and

adapted to all weathers. From a single plant or two modestly to indicate a path entrance, to an elaborate landscape motive about the gateway of a large estate may seem a far cry, but the basic principle is the same — to erect a monument or mark in living green at the turn and so guide the visitor within. Little Tree Farms will do this for you.

A few of many possible types of path plantings are illustrated and offered here. If you are in doubt as to what to plant along your path, write, or better still, come to Little Tree Farms for advice.

Offer A-6 **\$9.25**
(Regular Price \$10.75)

Evergreen Path

Six first quality evergreens suitable for the entrance of a simple path from the street to the house. (See center illustrations above and below). The planting may be duplicated for a balanced entrance needing a planting on each side.

1 White Spruce	3 to 4 feet
1 Hemlock	2 to 3 feet
1 Chinese Juniper	2 to 3 feet
1 Colorado Spruce	18 to 24 inches
1 Pfitzer Juniper	18 to 24 inches
1 Mugho Pine	18 to 24 inches

2 Offers **\$18.00**

Order by name and number, with remittance.

Flowering perennials line this charming flagstone path to the garden.

Offer A-7 **\$15.50**
(Regular Price \$16.90)

Naturalistic Path

Fifteen fine plants — Four evergreens and Eleven popular and desirable flowering shrubs. The bright flowers and berries of the shrubs blend attractively with the evergreens. A good combination to attract the birds.

1 Red Pine	4 to 5 feet
1 Arborvitae	4 to 5 feet
1 Hemlock	3 to 4 feet
1 Colorado Spruce	2 to 3 feet
2 Witch Hazel	4 to 5 feet
1 White Dogwood	3 to 4 feet
2 Gray Dogwood	2 to 3 feet
2 Winterberry	2 to 3 feet
2 Summersweet	18 to 24 inches
2 Winged Euonymus	18 to 24 inches

2 Groups **\$30.00**

Order by name and number, with remittance.

A few carefully chosen evergreens in perfect harmony with the foundation planting soften the square corner of this entrance path.

Evergreens, shrubs and perennials are effectively combined along this path.

Offer A-8 **\$9.00**
(Regular Price \$10.10)

Perennial Path

Fifty-two strong two-year field grown hardy perennials.

TALL GROWING

3 Delphiniums, Vanderbilt Hybrids
3 Foxglove
3 Oriental Poppy
3 Ghost Plant
3 Cardinal Flower

MEDIUM GROWING

3 Blanket Flower
10 German Iris, Mixed
3 Lance Coreopsis
3 Babysbreath
3 Clump Speedwell

LOW GROWING

3 Globeflower
3 Carpathian Harebell
3 Plumy Bleedingheart
3 Nepeta
3 Achillea, The Pearl

Order by name and number, with remittance.

You can get an effect similar to this with a pair of our Spruces or Firs.

Beauty Along Your DRIVES and STREETS

The location and planting of driveways — be they short or long — is a very important factor in the development of any property. On small suburban properties the driveway is usually correctly located on the side of the lot. Sufficient room should be allowed to plant either a high screen border of evergreens or shrubs, or where height and screening effect is not desirable, a low border of perennials. The longer drives found on large estates present a more diversified problem which requires individual treatment. Here is where expert advice is essential that the best results may be obtained at minimum cost.

Roadside Planting

There are two distinct ideas followed in roadside planting. The first is to plant a row of trees on each side of the road, equally far apart, either opposite or alternating. A development of this idea is to plant two or more rows on each side (See pictures at right below and bottom page 8).

The second plan is to plant the trees in a natural manner, setting them in recurring heavier groups, with scattering trees between; or in continuous naturalistic masses. If the general landscape has free, unstudied lines, this is the most beautiful method. (See picture left below and top page 8).

Many communities have an established program of Street Planting. Has yours?

We make a general appeal to all individuals as citizens, members of Garden, Rotary and Kiwanis Clubs, Boards of Trade and other semi-public organizations interested in civic betterment, to help develop public interest in an intelligent plan of street planting.

Offer A-9

\$19.50

(Regular Price \$22.00)

Driveway Entrance Group

Plant this group of six finest quality evergreens at one side of your drive entrance. It will protect your lawn from trespass and add much to the dignity and value of your property.

1 White Spruce	5 to 6 feet
1 Colorado Spruce	5 to 6 feet
1 Douglas Fir	3 to 4 feet
1 Engelmann Spruce	3 to 4 feet
1 Hemlock	3 to 4 feet
1 Blue Colorado Spruce	2 to 3 feet

2 Offers

\$38.00

Order by name and number, with remittance.

The problem of the "turn-a-round" is beautifully solved by bed planting of choice evergreens with or without a grass border, as here. An evergreen bed is made by planting the tallest species in the centre, those that grow less tall around these, and the prostrate forms round the edge.

SHADY PLACES

Everybody who has any land knows the "Shady place" problems, — the place where things don't grow readily, yet which needs growing things to make it attractive. Sometimes it is only an angle of lawn shaded by the house. Often it is an area where tall shade trees, getting old, are leaving a rather dreary prospect underneath. Lawn and woods edges often present this problem.

No tree or shrub can live in the dark. Some thrive in slight shade, certain others have adapted themselves to greater shade. The latter are valuable for planting under deciduous trees along roadways.

As growers and designers we have had much experience with shady-place planting and we are glad to recommend the plants listed below: they are hardy, beautiful and suitable.

Hemlock	Japanese Barberry
Arborvitae	Sweet Shrub
Douglas Fir	Summer Sweet
Rhododendrons	Witch Hazel
Mountain Laurel	Winterberry
Azaleas	Privets
Dogwoods	Viburnums

Come to Little-Tree Farms and talk your planting problems over with our landscape men.

In this graceful planting Evergreens and Hardwoods are mixed with pleasing effect.

Little Tree Farms Colorado Spruces are perfect for a drive of this type.

Prices on evergreens and trees are f. o. b. our nursery. Packing for rail shipment extra, at cost.

A driveway planting at once stately and protective can be made with Douglas Fir or White Spruce in massed planting. Though simple to plant, and comparatively inexpensive, the results are most satisfying.

A mass planting of large, choice evergreens harmonizes with the formal lines of the entrance to a large estate. Little Tree Farms evergreens in large sizes make beautiful entrance groups.

Here is The Material to Plant Your Drives and Streets

EVERGREENS
To Give Immediate Effect
Along Your Drives and Streets

Little Tree Farms is particularly fortunate in being able to offer its customers an important collection of prime first grade evergreens in sizes ranging up to twenty feet or more. See complete list of all sizes on pages 24 to 37.

		Each
Silver Fir	6 to 8 feet	\$9.00

*Shipped in New England and New York only.

SHADE TREES
Ideal for Drives and Streets

Our well grown shade trees are perfectly adapted to conditions in the New England and Middle Atlantic states and will thrive in other parts of the country as well. You may choose to make your planting of deciduous trees only or to combine them with evergreens. No matter what combination you may select you are sure to find Little Tree Farms trees lusty and vigorous. Below we mention only a few. Other kinds and sizes equally desirable are described on pages 44 to 46.

		Each
Norway Maple	12 to 14 feet	\$3.50
Norway Maple	16 to 18 feet	18.00
Sugar Maple	12 to 14 feet	4.50
Sugar Maple	16 to 18 feet	8.00
European White Birch	12 to 14 feet	3.50
Cutleaf Weeping Birch	12 to 14 feet	6.00
Sweet (Black) Birch	12 to 14 feet	8.00
Yellow Birch	12 to 14 feet	8.00
Paper (Canoe) Birch	14 to 16 feet	4.50
White Ash	14 to 16 feet	4.00
Mossycup Oak	12 to 14 feet	15.00
Pin Oak	12 to 14 feet	7.00
Red Oak	10 to 12 feet	6.00
Red Oak	12 to 14 feet	8.00
American Linden	12 to 14 feet	4.50
Littleleaf European Linden	10 to 12 feet	5.00

FLOWERING TREES
and SHRUBS

Where the situation calls for a planting of moderate height a selection from the following list will be in order. These plants are excellent, too, for planting with the evergreens and their attractive flowers and fruits contrast pleasingly with the more sombre foliage of the conifers. Descriptions of these very desirable varieties are on pages 40 to 46.

		Each
White Fringe	3 to 4 feet	\$1.00
White Flowering Dogwood	4 to 5 feet	2.00
Red Flowering Dogwood	3 to 4 feet	3.00
Paul's Scarlet Thorn	3 to 4 feet	2.00
Gray Dogwood	3 to 4 feet	.75
Coral Dogwood	3 to 4 feet	.60
Pride of Rochester Deutzia	3 to 4 feet	.60
Showy Border Forsythia	3 to 4 feet	.60
Pink Tatarian Honeysuckle	3 to 4 feet	.50
Sweet Mock Orange	3 to 4 feet	.50
Flowering Plum	2 to 3 feet	.75
Anthony Waterer Spirea	18 to 24 inches	.50
Van Houtte Spirea	4 to 5 feet	.60
Japanese Flowering Crab	4 to 5 feet	1.80
Flowering Quince	2 to 3 feet	.60
Purple Lilac	3 to 4 feet	.75
Witch Hazel	4 to 5 feet	.75

For better, healthier plants use Granulated Peat Moss freely. Full description on page 64.

A glorious street planting of Shade Trees such as this improves property values and is an asset to the community.

The semi-formal Arborvitae hedge adds to the distinction of this aristocratic garden.

HEDGES

Attractive Backgrounds and Boundaries for Your Property

Why hedges? Because edges!

The edge of a lawn, where it meets the sidewalk is always a no-man's land. In winter when the snowplow swerves a bit from where the sidewalk seems to be, the lawn edge gets a fearsome trampling. In spring, when puddles appear at intervals on the sidewalk, the lawn edge gets another "beating-up". All summer, bicycles and puppies dash in and out.

Really, you have to plant something there, or build a wall.

There are several ways to plant the lawn edges. But the simplest way, — the oldest fashion and now the newest, is to plant a hedge.

For a narrow lawn it is the only practical thing, and for all lawns bordering on busy streets it is the most practical thing.

A hedge can be high or low, as you may want a view or no view. It can be thick or narrow according to what you plant. It may be evergreen, deciduous or flowering, as you like it.

So, you see, a hedge is a very adaptable and obliging protector. The greatest country properties and the tiniest modern house, look well behind hedges.

A hedge is always a protection, a neat finish, a real addition to the value and appearance of your home. And if you take thought with regard to the material and the treatment of your hedge, it can be made a wholly harmonious part of the decorative scheme; perhaps the most important part.

In the pictures and paragraphs, the offers on these few hedge pages, we try to show the different types of hedge you will want to know about; where the types fit best; and how to make them.

Evergreen hedges are the most elegant and lasting of all, and are preferred for most extensive boundaries. They are also the choice of most garden lovers for their flower, fruit or vegetable plots because

they lose no efficacy in winter.

Evergreen hedges supply great range of height, also; they can be kept permanently in the medium range, or allowed to become very high, massive walls. The Spruce hedge below, right, is over 30 years old yet it is not over 5 feet high in any spot. Arborvitae garden hedges several generations old are seen no higher than a man's head. Yet if left to grow as they will, these same hedges make great walls against the wind.

The Arborvitae hedge is very much the mode now for edges next the street, and even more so as a hedge between properties or between parts of the same property. Not that Arborvitae hedges ever went out of fashion. But they were found chiefly on the highly landscaped estates and surrounding elaborate gardens. Just as taste in dress and houses has become a more general possession among us, so has taste in gardens and grounds. Consequently the best "furniture" for gardens and grounds is demanded and supplied. Arborvitae hedges are of the best. Use them around gardens, between properties or edging the lawn.

Offer A-10

\$12.00

Arborvitae Hedge

Ten American Arborvitae 6 feet tall.

Little Tree Farms grows these Arborvitae especially for fine hedges. This offer makes a splendid hedge approximately 30 feet long.

Order by name and number, with remittance.

Magnificent living walls of Spruce or Douglas Fir like the one shown above are far less costly to build and maintain than equally protective walls of stone or brick.

Arborvitae may be sheared for a low formal hedge like this or allowed to grow less formally as in the garden hedge shown at the top of the page.

Evergreens are priced f.o.b. our nursery. Packing for rail shipments extra at cost.

Arborvitae Hedge, soft dark green, fragrant and effective.

White Spruce hedge, silvery in color, extremely thick and impenetrable. Douglas Fir and Colorado Spruce also make fine protective hedges.

Arborvitae is used along the street and in the garden.

EVERGREENS

For Finest Decorative and Protective Hedges

If you want a hedge as permanent as Arborvitae but wider, still more protective, — in short, if you want a more massive living wall, you may have a beautiful one in White Spruce, Colorado Spruce or Douglas Fir. They form magnificent bulwarks of strong, impenetrable branchlets with lustrous silvery green foliage. Such a hedge is a castle wall of protection and has great beauty, either along the street, at the edge of the property or around the garden.

Spruce and Fir Hedges are handsome enough for any situation and are used in most conspicuous situations on large estates. They also make most economical and efficient service hedges, to protect gardens and fields, where little care can be given.

The illustrations on this page and pages 9 and 11 portray various types of hedges and the offers afford an opportunity to get the right materials to plant them, at the right prices.

Little Tree Farms grows evergreens in quantity especially for hedges, and produces the qualities of vigor and hardiness which insure strong growth and dense foliage. We ship hedge material in truck loads and car loads all over the country, and our little trees are hedging in many miles of attractive home properties.

If the special hedge offers do not meet your needs consult us. We have hedge material in sizes to meet almost any requirement.

Offer A-11

\$20.00

Offer A-12

\$10.00

Offer A-13

\$6.00

White Spruce Hedge

Ten Sturdy White Spruce 4 to 5 feet tall.

These will make a beautiful impenetrable hedge approximately 30 feet long. May be heavily or lightly sheared depending on effect desired. If you need more than ten you can buy additional plants at \$2.00 each. Each Spruce has large ball of roots carefully wrapped in burlap. See illustration of Spruce hedge, center above, and bottom page 9.

Order by name and number, with remittance.

Colorado Spruce Hedge

Twenty Choice Colorado Spruces 18 to 24 inches tall.

These fine little plants make exceptionally protective hedges because of their short stiff needles. They are packed in a bundle with roots carefully protected by suitable packing material. The twenty plants make a hedge approximately 40 feet long.

Additional plants 10 for \$5.00

See illustration of low spruce hedge, below.

Order by name and number, with remittance.

Douglas Fir Hedge

Ten Fine Douglas Firs 2 to 3 feet tall.

These wonderful soft foliage evergreens shear well and make very pleasing hedges for lawn or garden. Left unsheared they are excellent naturalistic hedges. Additional plants 5 for \$3.00. For partially shaded places Douglas is a wise choice. Douglas Firs shipped B & B — roots in big balls of native loam, burlap wrapped.

See illustration of Douglas Fir hedge below right.

Order by name and number, with remittance.

This sturdy, closely clipped Spruce hedge forms a charming boundary for this property and is in perfect harmony with the other plantings.

Here a low hedge of Douglas Fir surrounds a garden and makes a delightful background for Phlox and other perennials.

Evergreens are priced f.o.b. our nursery. Packing for rail shipments extra at cost.

Prosperous businesses are nowadays leaders in civic pride. Their grounds are well cared for. A solid, impenetrable, well-kept hedge is a fine choice.

A tall Pine hedge forms an ideal screen for the vegetable garden.

This soft, lacy twigged hedge is made of Hemlock — most aristocratic of hedge plants. Hemlock hedges may also be closely trimmed to give ultra formal effects.

And Here Are More Fine HEDGES

The Hedge Offers on this and the two preceding pages are merely suggestions selected from many possibilities. At Little Tree Farms you will find countless other quality hedge plants in many sizes and varieties. We list here a few of the most desirable. These and others are described and priced in the latter part of this catalogue.

A well planted, well nourished hedge, kept trim and fairly low, is an absolutely correct and altogether pleasing finish for small or moderate sized grounds and for most gardens. For large grounds and gardens, the tall massive hedge, equally trim, is best, and is often supplemented by an extensive, designed "border" planting. Note the Pine border behind the clipped hedge illustrated at the left above.

For permanent all-year-round beauty use these evergreens:

American Arborvitae	Red Pine
Douglas Fir	White Pine
White Spruce	Hemlock
Colorado Spruce	Japanese Yew

See pages 24 to 37.

For exquisite flowers during spring or summer:

Forsythia	Lilacs
Hydrangea	Deutzia
Euonymus	Spirea
Rose of Sharon	Coralberry

See pages 40 to 43.

For a useful, quick growing shrub hedge:

Privet	Barberry
--------	----------

See pages 41 and 42.

Use either Ibota or California Privet for formal or natural effect.

Hedges of flowering shrubs such as Spirea and Deutzia are delightful and very inexpensive.

Where space is limited a prickly Japanese Barberry hedge gives strong protection.

Offer A-14

\$27.50

White Pine Hedge

Ten Beautiful White Pines 5 to 6 feet tall.

Enough for a tall hedge 30 feet long. Rugged and hardy, White Pines form a dense, impassable barrier to protect an orchard, garden, playground, or mark estate boundaries. Can be kept to practically any height.

Each plant shipped B & B — with roots in ball of native loam burlap wrapped.

See illustration of tall pine hedge above, center.

Additional plants \$2.75 each.

Order by name and number, with remittance.

Offer A-16

\$20.00

Hemlock Hedge

Ten Graceful Hemlocks 3 to 4 feet tall.

For hedges of real distinction use Hemlock. Very lovely when lightly trimmed — equally desirable when trimmed to formal shape. For shady places Hemlock is ideal. Each Hemlock is shipped with roots in ball of native loam, burlap wrapped. This offer will plant a hedge approximately 30 feet long. Additional plants \$2.00 each.

Order by name and number, with remittance.

Offer A-15

\$81.00

Tall Pine Hedge

Six Superb White Pines 10 to 12 feet tall

Planted 8 to 10 feet apart these vigorous pines make a handsome protective hedge, 50 to 60 feet long. Each one is carefully dug with big roots in large ball of earth, burlap wrapped.

Order by name and number, with remittance.

Offer A-17

\$15.00

Spirea Hedge

Fifty Van Houtte Spirea 3 to 4 feet tall.

A Spirea hedge with graceful arching branches covered with white flowers is a glorious sight in late May or June. Plant 2 to 3 feet apart. See illustration center below.

Order by name and number, with remittance.

Offer A-18

\$8.00

Barberry Hedge

Fifty Japanese Barberry 18 to 24 inches tall.

These vigorous shrubs are perfectly hardy and endure partial shade. Fifty plants make a hedge 50 to 100 feet long, depending on type of hedge required. Suitable for sheared or unsheared hedges.

Order by name and number, with remittance.

The offers on this page are priced f. o. b. our nursery. Packing for rail shipment extra, at cost.

Combine the Utility of Hedges with the Beauty of Gardens

The briefest study of Border Planting shows that it is simply a way of building the walls of the outdoor home. It differs from a hedge only in height and design; the purpose is still to enclose the home space, to shut out troubling influences, and to enhance the beauty of what is within.

A hedge does this, within limited height, with trim regularity; the border planting, as tall as you design it, does the same thing in a naturalistic fashion; — in bold lovely curves and colors. It gives you a sheltered, secluded feeling, safe from winds, from dust, from strangers' eyes.

And the border planting also gives an added grace, a heightened beauty to every single aspect of your outdoor life. The pretty gowns of women, the charming games of children, are still more charming against such an evergreen background. Tennis, tea, talk, all gain a zest from the becoming frame to their picture. Your garden and your lawn are twice lovely with such a background.

Yes, a good border planting is a very beautiful finish for one's grounds. And it

is something you may have with ease and at no exorbitant cost.

Evergreens are the mainstay of most borders because of their sheltering mass, their permanence, and their all-year-round beauty. To the evergreens are added, at the taste of the designer, flowering and bright barked trees and shrubs for contrast and foreground.

A border planting may vary in depth from two rows at the narrowest part to four or five at the widest. But when we say "rows" we do not mean regular lines; in all naturalistic planting one aims at a scattered effect. The curves of the border planting are a matter of topography and

For profusion of colorful beauty from spring until late fall plant perennials in front of your evergreen borders. They glow with added charm against an evergreen background. See descriptions of Perennials on pages 50 to 57.

of taste. Indeed, there is scope for great freedom and individuality in planting a border. In general, however, the evergreens should be set not closer than three and not further than eight feet apart. Shrubs are usually set closer together.

Sometimes the border or a portion of it is designed to furnish a background for the garden, the lawn or some other portion of the home picture. White Pine and Red Pine are among the best simple backgrounds. The Spruces and Firs are very fine. And a blended background is the most varied and interesting of all. Such a blended background must show the tall, fast-growing species at the back, the dense-growing species in the middle, and the low species in front.

The following suggestions are intended to help you select the right material for your border. Larger or smaller sizes may be used to fit your needs and the state of your pocketbook. If you hesitate to choose for yourself from the materials offered, drive out to Little Tree Farms on Pleasant Street, Route 30, Framingham Centre, and talk with one of our landscape men.

Here a border divides a lawn from a vacant lot. Note the deep "bays" that add much to the artistic effect. This border was designed, furnished and planted by Little Tree Farms.

Prices on Evergreens are f.o.b. our nursery. Packing for rail shipment extra, at cost.

In shady spots Rhododendrons, Laurel, Azaleas and Dogwoods are suitable and charming against a background of evergreens.

Here a dense border of evergreens of many varieties not only serves to screen and protect, but is extremely decorative as well.

BORDERS — Shut Out Sight, Sounds and Dust

Wide Borders

Where space permits a border four or five rows deep at its widest point, practically limitless variations and combinations of plant materials are possible. The list below is by way of suggestion only. Select materials for your border from this, if you will, or from the many other plant varieties and sizes in the latter part of this book.

FOR THE BACKGROUND:		Each	10
White Spruce	14 to 16 feet	\$25.00	\$225.00
Arborvitae	12 to 14 feet	15.00	135.00
Silver Fir	12 to 14 feet	25.00	225.00
White Pine	12 to 14 feet	18.00	162.00
Red Pine	12 to 14 feet	16.00	144.00
Red Cedar	10 to 12 feet	17.00	163.00
Douglas Fir	10 to 12 feet	14.00	130.00

FOR THE MIDDLE ROWS:		Each	10
Silver Fir	8 to 10 feet	\$12.00	\$108.00
Limber Pine	8 to 10 feet	14.00	125.00
Colorado Spruce	8 to 10 feet	14.00	125.00
Austrian Pine	7 to 8 feet	12.00	108.00
Colorado Blue Spruce	6 to 8 feet	16.00	144.00
Arborvitae	5 to 6 feet	3.00	27.00
Hemlock	5 to 6 feet	5.00	45.00

FOR THE FOREGROUND:		Each	10
Plume Cypress	4 to 5 feet	4.00	35.00
Silver Red Cedar	4 to 5 feet	5.00	45.00
Swiss Stone Pine	3 to 4 feet	6.00	54.00
Dwarf Mountain Pine	3 to 4 feet	5.00	45.00
Siberian Arborvitae	3 to 4 feet	2.50	22.50
Golden Plume Cypress	2 to 3 feet	2.25	20.00
Japanese Yew	2 to 2½ feet	3.50	31.50
Pfitzer Juniper	2 to 2½ feet	3.00	27.00

Add also, at your discretion, such ornamental trees as Flowering Dogwood, Purple-leaf Plum, Redleaved Japanese Maple, Flowering Crabs, White Fringe, and almost any of the flowering shrubs particularly the Deutzias, Dogwoods, Viburnums and Lilacs.

For better, healthier plants, use Granulated Peat Moss. See description on page 64.

Little Tree Farms White Pines soften and screen the surface and angles of the garage and shut off a neighboring property. The Arborvitae in the foreground give further privacy.

Offer A-19

\$38.50

Border Planting

For Decoration and Protection

FIFTEEN MAGNIFICENT EVERGREENS

To cover a space 20 to 30 feet long. This group may be planted to border a property, along a drive, or to screen a wall or building. All are quality evergreens shipped with big balls of native loam burlap wrapped.

3 Douglas Fir	6 to 7 feet
2 American Arborvitae	5 to 6 feet
2 White Spruce	4 to 5 feet
2 Hemlock	3 to 4 feet
2 Chinese Juniper	18 to 24 inches
2 Dwarf Mountain Pine	18 to 24 inches
2 Japanese Yew	15 to 18 inches

\$75.00

Order by name and number, with remittance

If you have Planting Problems,
drive out and talk them over with
our landscape men.

Narrow Borders

On town and suburban properties borders are extremely important for protection as well as decoration. Usually limited to relatively small space they must attract the eye and at the same time shut out sights, sounds and dust from neighboring properties and from the street. A selection from the following plants will make an excellent border for decorating and protecting.

FOR THE BACKGROUND, TO GIVE MASS:

	Each	10
White Pine	8 to 10 feet	\$12.00 \$108.00
Red Pine	8 to 10 feet	12.00 108.00
White Spruce	8 to 10 feet	9.00 81.00
Red Cedar	8 to 10 feet	12.00 108.00
Arborvitae	7 to 8 feet	6.00 55.00
Limber Pine	6 to 8 feet	8.00 72.00
Colorado Spruce	6 to 8 feet	8.00 72.00
Silver Fir	6 to 8 feet	9.00 80.00
Douglas Fir	6 to 7 feet	5.00 45.00

FOR THE FOREGROUND TO
GIVE VARIETY AND COLOR:

	Each	10
Hemlock	4 to 5 feet	3.50 31.50
Sawara Cypress	3 to 4 feet	2.50 22.50
Thread Cypress	3 to 4 feet	3.50 31.50
Colorado Blue Spruce	2 to 3 feet	4.25 38.00
Flame Azalea	2 to 3 feet	3.00 27.50
Goldentwig Dogwood	2 to 3 feet	.50 4.50
Flowering Quince	2 to 3 feet	.60 5.50
Flowering Almond	2 to 3 feet	.75 6.50
Bridalwreath	2 to 3 feet	.60 5.00
Pink Weigela	2 to 3 feet	.60 5.50

Walls of living evergreens give restful seclusion to this outdoor living room. In this planting Pines, Firs, Spruces and other evergreens are blended.

Evergreens are priced f.o.b. our nursery. Packing for rail shipment extra, at cost.

Every tennis player objects to serving against the wind. This White Pine windbreak is protection and a charming background.

This is the oldest of our windbreaks at Little Tree Farms in Framingham Centre. Where these glorious Pines grow, we grow Pines for your windbreaks.

BORDERS — Protection from Wind and Weather

Windbreaks and shelter belts are those protective border plantings which supply the simplest and most easily maintained living wall against wind and storm. The small vegetable garden, and the big truck farm, alike, thrive in the protection of evergreen windbreaks. Young orchards are especially benefited by such plantings, which protect the tender buds from hail in spring and lessen the amount of windfall fruit in autumn.

The stock farm, whether private or commercial, must have windbreaks. The health of the animals is conserved, and expenditure for feed and fuel is lessened by the protection of evergreens planted around the barns and yards.

Naturally the best windbreak is of evergreens. They have the necessary bulk and density to withstand the elements, and at the same time they hold some heat in winter. The trees used for windbreaks should be fast-growing, persistent, and of good stature. Since the purpose is utility they should also be of reasonable price. Little Tree Farms grows trees especially for this use, in large quantities, at low prices.

For generations such evergreens as White Pine and Red Pine, Spruce, Firs and Arborvitae have been favored by the home owner. You can see the character of the Spruces and Pines perfectly in the illustrations on this and the following

page. (The Spruces and Firs come closer to the ground than the Pines. If you need protection especially close to the ground, plant Spruce or Fir; or plant Pine with Arborvitae, Spruce or Fir in front of it.)

All the evergreens we offer for windbreaks are strong, well rooted, fast growing and low priced. A special product for a special use. See the pictures and descriptions of species, further on in this Year Book, pages 24 to 37.

Special low prices will be quoted on car-load and truck lots of large evergreens. Let us know what you need.

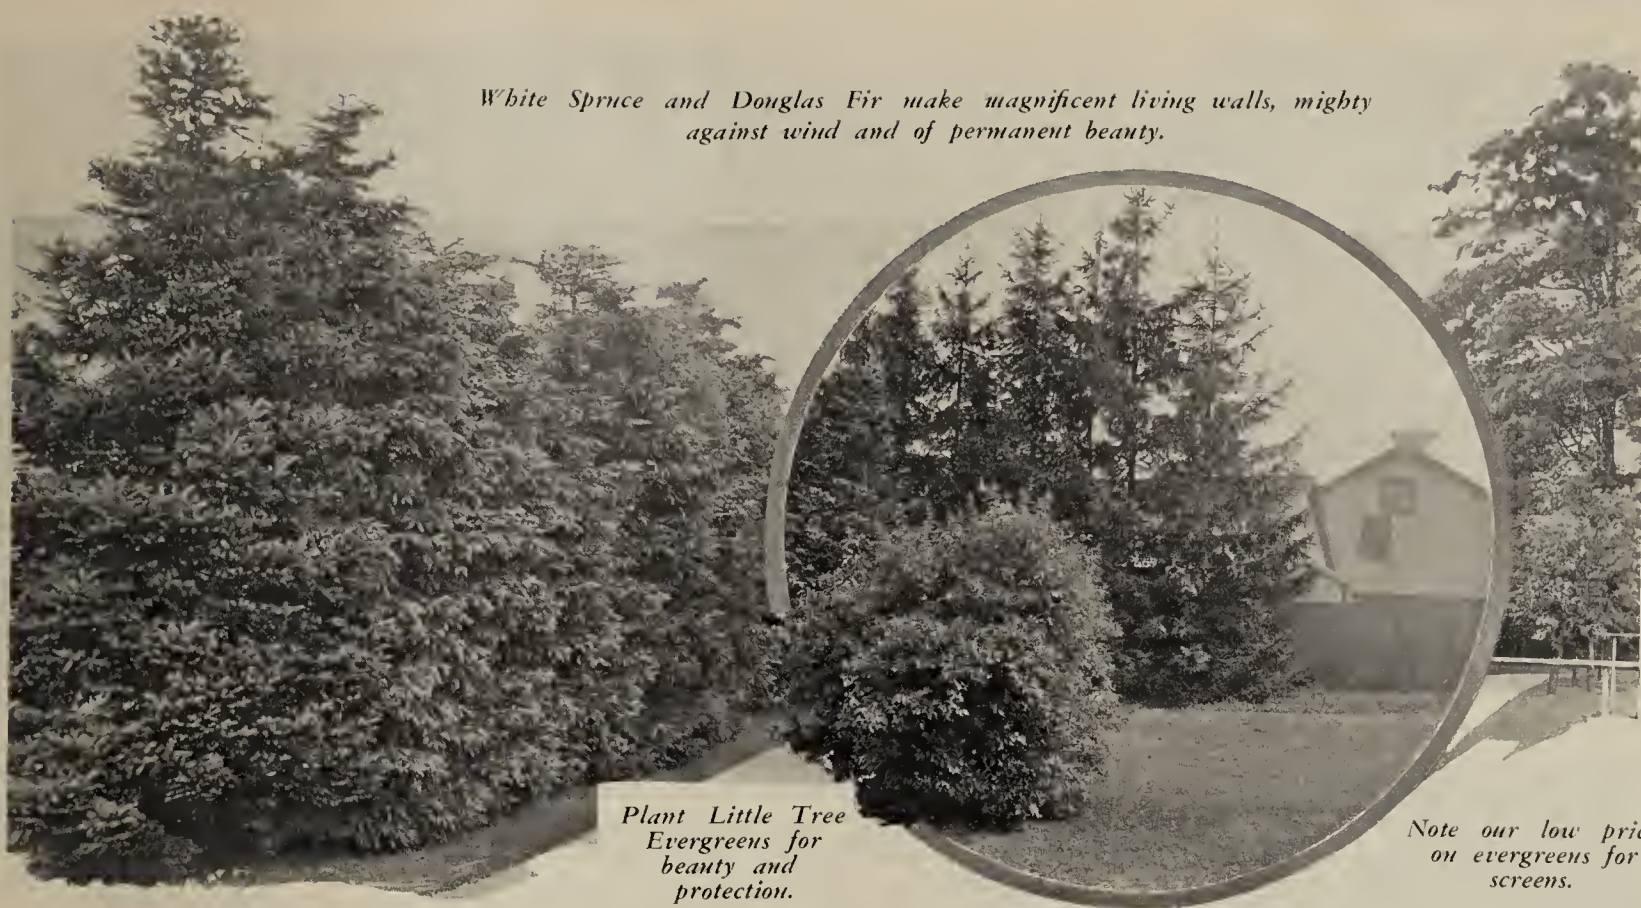

Here is the simplest of garage screen plantings for quick use at least possible expense. A half dozen Red or White Pines and several Spruces or Firs.

Flower gardens and tender crops thrive best in the protection of a good windbreak — like these White Pines — Red Pine, White Spruce and Douglas Fir would be equally good.

Evergreens are priced f.o.b. nursery. Packing for rail shipment extra, at cost.

White Spruce and Douglas Fir make magnificent living walls, mighty against wind and of permanent beauty.

Plant Little Tree Evergreens for beauty and protection.

Note our low prices on evergreens for screens.

Low Priced **EVERGREENS** for Windbreaks

Don't let your gardens or fields or barns be windswept and dust-ridden when a few inexpensive Little Tree Farms evergreens will start to break the wind as soon as planted. They cost little and will serve you well.

For a windbreak you want, of course, strong trees that will not break easily in storm; fast growing trees; trees of great natural bulk and resistance; trees raised to sell at low prices.

A single row windbreak of evergreens is set with trees eight to ten feet apart. But we often set the trees only four or five feet apart, thus "forcing" the fastest growth. Then we remove every second tree after a few years to replant elsewhere. This gives good results.

For very severe situations it is better to plant more than one row of trees, not one tree in front of another, but between, in "staggered" rows. Then you have ample protection.

Especially Priced Evergreens For Windbreaks

		10			10
RED PINE	5 to 6 feet tall	\$24.00	WHITE SPRUCE	4 to 5 feet tall	\$18.00

See full descriptions and prices of evergreens on pages 24 to 37.

If you have planting problems write us about them, or better still, drive out and talk them over with our landscape men.

A pine grove protects and beautifies this home. Little Tree Farms can supply you with quality Pines at moderate prices.

This windbreak can be duplicated with Little Tree Farms Spruces.

Prices on evergreens are f.o.b. our nursery. Packing for rail shipment extra, at cost.

The perfectly balanced lawn planting of magnificent shade trees gives unusual distinction to this property. For planting on finest lawns use Little Tree Farms Maples, Oaks, Ash and Lindens.

Beautiful LAWNS — Complete the House Picture

White Fir.

Douglas Fir.

Just as every picture needs a suitable frame so every house should be framed with an appropriate planting. Foundation and other types of planting discussed on earlier pages of this Year Book all have an important part in framing the house picture. Suitable lawn planting completes the frame.

A Maple, Oak or Pine planted for decoration on the lawn is valuable for gracious shade as well as beauty. Stately Firs and Spruces are beautiful all through the year and decorated with twinkling lights at Christmas time give added pleasure to young and old alike.

Shade and Flowering trees for lawn decoration are described on pages 44 to 46, Evergreens on pages 24 to 37. We mention on this page a few of them particularly attractive for lawn decoration.

Evergreens

For Shade and Decoration

Variety	Size	Each
White Pine	16 to 20 feet	\$35.00
Red Pine	16 to 20 feet	30.00

For Living Christmas Trees

White Spruce	16 to 18 feet	\$35.00

*Blue Spruce — Favorite of all.
Any of the excellent evergreens illustrated above
make handsome living Christmas trees.*

Here an informal planting of large Pines gives shade and is in perfect harmony with the other plantings.

Evergreens are priced f.o.b. nursery. Packing for rail shipment extra, at cost.

*Shasta Daisies.**Phlox.*

FLOWER GARDENS

Of Perennial Bloom and Beauty

Abundant color from early spring until frost is the joy of a Perennial Garden. These lists will guide you in grouping plants for best effect. For best effect it is essential to plant in clumps or masses of three to five plants of one kind. Perennials for the background all grow 4 to 8 feet tall and should be planted 1½ to 3 feet apart. Plant those for the middleground 1 to 2 feet apart and "face down" with low-growing varieties.

Perennials suggested for the foreground have clean, attractive foliage throughout the season as well as flowers. They grow 6 to 12 inches tall and should be planted the same distance apart.

The shallow rooting ground covers are pretty for broad edgings or protective top coverings for tulips, lilies or roses.

For complete description of these and other varieties see pages 51 to 58.

FOR THE BACKGROUND

Name	Color	Price for 3
Aconitum Sparks Aconite	Blue	\$.75
Althea Hollyhock	Assorted	.60

*Perennials make this path a joy.**A garden like this is a delight from early spring till late fall.**A garden in a city backyard.*

Add some flowering plants and a bird bath. What a transformation!

A rock garden border — simple but attractive.

A waterfall — man-made — but quite in harmony with a naturalistic landscape setting.

ROCK GARDENS

In constructing a rock garden large weathered stones of irregular shape should be selected and placed to allow a generous pocket of good soil for the roots of each plant. This soil pocket must have proper drainage and contact with the subsoil to insure right moisture conditions.

Evergreens

To Give Your Rock Garden A Rich Background

LOW GROWING VARIETIES

Name	Size	Each
Pfitzer Juniper	18 to 24 inches	\$2.00

Slender Deutzia	12 to 18 inches	.40
Golden St. Johnswort	18 to 24 inches	.50
Anthony Waterer Spirea	12 to 18 inches	.40

Wherever there is a steep slope or change of level in the garden or path, there is an opportunity for rock gardening. Likewise wherever a rocky ledge crops out on the surface, and the surrounding soil is too shallow for shrubbery or grass, rock work is a natural and happy solution of the difficulty. Many an eyesore and awkward corner, many an old dump, cellar hole or rock pile can thus be transformed into a spot of great beauty.

The spirit of the rock garden is essentially natural, avoiding any appearance of artificiality or formal design. Curving beds and paths following the contour of the ground or winding around existing rocks, trees or shrubbery are most fitting. Wherever the ground is cut up by such natural features or by awkward slopes and changes of level this informal treatment is particularly pleasing.

There is a wealth of plant material suitable for rock gardens which will thrive with little attention. The lists on this page contain some of the most satisfactory varieties. For full description and prices, see latter part of this catalogue.

A gay border planting brings beauty to this bare rocky ledge.

Perennials

Ideal For Rock Gardens

SPRING BLOOMING

Name	Color	Price for 3

Building a rock garden

Evergreens are the greatest factor in successful planting of home grounds. They combine in the highest degree, Beauty, Adaptability and Endurance.

Breathing a truly great personality, evergreens are equally harmonious in the intimacy of home surroundings or the austere solitude of nature. Shade and spicy aroma surround them in summer's heat, warmth and beauty in winter's cold. And in

storms of snow and ice they wrap themselves in mantles of incredible and gleaming purity, lending an air of quiet dignity to the home.

We are fortunate in having evergreens in large as well as medium and small sizes. Evergreens for immediate effect are a specialty at Little Tree Farms and their cost is very little more than that of the smaller sizes ordinarily sold.

The Firs

The Firs (*Abies*) are among the hardiest and most effective evergreens. They supply the elements of grace and luxuriant softness in a landscape planting, together with symmetry of structure and varied color tone. The very best of the firs for ornamental and protective planting are here offered. It pays to buy the best.

Silver Fir (*Abies concolor*)

The Silver Fir (often called White Fir) has exquisite, silvery-toned foliage, soft in texture. Its habit of growth is erect and the broad graceful branches are very decorative. This vigorous, healthy Fir is always a favorite.

For fine lawn specimens there is nothing better than Silver Fir. Allowed to develop naturally, it maintains the magnificent proportions shown in the illustration at the right. It usually retains its branches to the ground and is very long lived.

Little Tree Farms Silver Firs are grown from the best Colorado seed and are sturdy, well-rooted plants. Each specimen plant has been three or more times transplanted and has a large mass of fine roots. They are dug with roots in a ball of native loam which is carefully wrapped in burlap.

The plants offered are exceptionally fine and we enthusiastically recommend them for ornamental use, bordering paths or drives, for single lawn specimens, and in park and woodland groups.

Height	Each	10
6 to 8 feet	\$9.00	\$80.00
8 to 10 feet	12.00	108.00
10 to 12 feet	16.00	145.00
12 to 14 feet	25.00	225.00
14 to 16 feet	35.00	and up
16 to 18 feet	45.00	accord-
	ing to specimen selected	

Mature specimens like the one here illustrated are marvels of symmetry and beauty.

Silver Firs are very lovely in border groups with other evergreens.

For a glorious ornament to your lawn, plant Silver Fir.

Each evergreen is shipped with roots in ball of native loam wrapped and tied in burlap.

DOUGLAS FIR

(*Pseudotsuga douglasii*)

Douglas Fir, a superb tree for both large and small lawns, growing more beautiful with age.

Douglas Fir is one of the "very best" evergreens known. Of noble form and size, of distinguished color and delicately beautiful texture, it adds to these remarkable qualities the final grace of being supremely healthy, useful, and adaptable to many soils. All of the great landscape gardeners have known and loved it. It is found on most of our finest estates, and is equally right for the small home.

This glorious evergreen is often used alone or in small groups on lawns as is shown above. Its clear dark green, silvering off at the tips of the branches, is especially charming in early spring. Standing thus alone, or in small groups, the Douglas shows to the full its magnificent outline, a pyramid from the very ground to its peak. But no picture can show the texture of the foliage, at once impenetrably thick and exquisitely soft. The species is subject to a fascinating habit of variation: while one specimen may resemble the hemlock in dark green color and graceful habit, another will carry a lighter shade and stiffer habit which suggests the spruce family.

A Douglas Fir hedge is a thing of beauty, of permanence and of most adequate protection. The heavily based structure of the tree and the extremely thick growth of its smaller branches admirably adapt it to hedge purposes. And its habit of throwing out great numbers of new shoots after pruning gives it a perfect surface when sheared into formal shape. A Douglas hedge has the soft graceful texture of the hemlock, with the impenetrability of the spruce. Please observe the massive and beautiful hedge pictured below.

As a screen planting Douglas Fir is thoroughly successful, alone or mixed with other evergreens. It grows rapidly, is very dense, and always maintains its beauty.

At Little Tree Farms we know and grow Douglas Fir with the enthusiasm born of successful experience. The several times transplanted Douglas Firs priced herewith are strong, splendid plants. They have been sheared and pruned for the greatest compactness and symmetry of future growth.

See pages 13 to 19 for special information about, and prices of, Douglas Fir for hedges and screens.

In the Spring the silvery tips of Douglas Fir are like myriads of delicate flowers.

Prices of Douglas Fir

Height	Each	10
18 to 24 inches	\$1.00	\$ 9.00
2 to 3 feet	1.50	12.50
3 to 4 feet	2.00	17.50
4 to 5 feet	2.50	20.00
5 to 6 feet	3.50	30.00
6 to 7 feet	5.00	45.00
7 to 8 feet	7.00	65.00
8 to 10 feet	10.00	95.00
10 to 12 feet	14.00	130.00
12 to 14 feet	18.00	170.00

Use our high quality imported Peat Moss in planting your evergreens, and also to mulch them. Full description on page 64.

For special prices on larger quantities of Douglas Fir, write Little-Tree Farms.

Douglas Fir makes a handsome and protective hedge.

A Little-Tree Farms Douglas Fir 3 to 4 feet tall.

The delightfully formal Cypresses in the illustrations above are the result of careful shearing.

Sawara Cypress (*Chamaecyparis pisifera*)

One of the hardiest of the Cypresses. The graceful drooping branches are covered with soft, feathery, glossy green foliage. Is beautiful for formal groups or the taller accents of foundation plantings. Excellent also in evergreen borders and for backgrounds or screens.

Height	Each	10
3 to 4 feet	\$2.50	\$22.50

Thread Cypress (*Chamaecyparis pisifera filifera*)

A Cypress completely different from all other Evergreens in its elongated, pendulous branches. The deep olive green foliage is very fine and slender. Very hardy. Does best in damp, well drained soil. Very effective as a single specimen or contrasting with others in a group. Excellent to accent foundation plantings.

Height	Each	10
2 to 3 feet	\$2.00	\$18.00
3 to 4 feet	3.50	31.50
4 to 5 feet	4.50	40.00

Cypresses are attractive in tubs or pots. Plant containers are listed on page 66.

*Sawara
Cypress*

3 to 4 feet
\$2.50

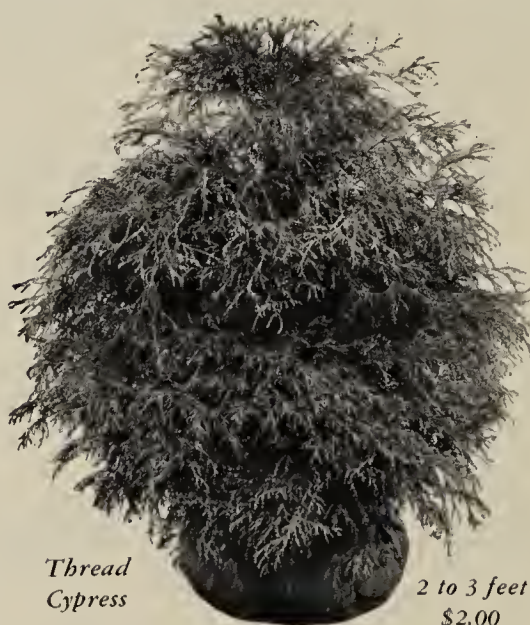

THE CYPRESSES

RETINOSPORA

A noble family of highly ornamental evergreens with beautiful feathery, almost fern-like foliage and irregular plume-like ascending branches curving slightly at the tip. They form picturesque cone-shaped trees suitable for almost any type of planting.

Because of their surprising ability to make new growth, they are easily pruned to formal shapes and kept within bounds.

*Thread
Cypress*

2 to 3 feet
\$2.00

Cripp's Golden Cypresses (*Chamaecyparis obtusa crippsi*)

Slow growing with pale golden foliage. May be sheared to a perfect golden ball. Excellent for contrast in evergreen group plantings.

Height	Each	10
15 to 18 inches	\$1.50	\$13.50
18 to 24 inches	2.00	18.00

If you have planting problems write us about them, or better still, drive out and talk them over with one of our landscape men.

Cypresses blend well with other evergreens in group plantings like the one shown above.

Plume Cypress (*Chamaecyparis pisifera plumosa*)

Handsome and distinct — the most beautiful of the Cypresses suitable for this climate. Of dense conical habit with ascending branches and slender feather-like branchlets. Foliage bright green. Thrives best in full sun to partial shade. Use in formal or informal groups. Excellent for height in foundation plantings and for backgrounds and screens.

Height	Each	10
18 to 24 inches	\$1.50	\$13.50
2 to 3 feet	2.00	18.00
3 to 4 feet	3.00	27.00
4 to 5 feet	4.00	35.00

Golden Plume Cypress

(*Chamaecyparis pisifera plumosa aurea*)

A bright golden form of the Plume Cypress. Valuable for contrast with other evergreens. The new growth of early spring is especially attractive.

Height	Each	10
18 to 24 inches	\$1.50	\$13.50
2 to 3 feet	2.25	20.00

For better, healthier plants use Granulated Peat Moss freely. See description on page 64.

*Plume
Cypress*

2 to 3 feet
\$2.00

Like sentinels against the sky the tall Junipers stand guard around the pool. The semi-prostrate forms cluster about its edge.

THE JUNIPERS

The Junipers hold a unique place in our landscape art, furnishing for this country the exquisite outline in medium scale which the classic Cypress and the ancient Cedars gave to the gardens of the Old World. There is no substitute for the Junipers, tall, prostrate and semi-prostrate, in gardens, by roadside, or around the home. Could any evergreen grouping be lovelier

than these Junipers are, around the garden pool? The prostrate and semi-prostrate varieties fringe the water and decorate the masonry. The tall Virginiana make pointing columns for the background and give an architectural definiteness to the composition before it blends into softly massed hardwoods. Little Tree Farms Junipers are very beautiful in similar groups.

Chinese Juniper

(*Juniperus chinensis*)

A splendid hardy evergreen of narrow columnar shape. Gray-green foliage. Valuable in evergreen group plantings.

Height	Each	10
18 to 24 inches	\$1.50	\$13.50
2 to 3 feet	2.00	18.00

Pfitzer Juniper

(*Juniperus chinensis pfitzeriana*)

A choice semi-dwarf evergreen with spreading fan-like branches. The foliage is soft and of fine, rich blue-green color. Very hardy. Excellent for planting about the foundation, in the foreground, against tall growing evergreens, or for bordering walk or drive.

Height	Each	10
18 to 24 inches	\$2.00	\$18.00
2 to 2½ feet	3.00	27.00

Irish Juniper

(*Juniperus communis hibernica*)

One of the most popular, erect growing varieties which forms a highly decorative slender column or pillar. The foliage — neat and feathery — is blue-green in color. It has a very close compact habit of growth, and somewhat irregular outline. This is a great favorite for use alone or in pairs for formal accent. It contrasts sharply with the dwarf spreading types.

Height	Each	10
18 to 24 inches	\$1.50	\$13.50
2 to 3 feet	2.00	18.00

Silver Red Cedar

(*Juniperus virginiana glauca*)

A choice silvery blue form. Desirable for accent in evergreen groups.

Height	Each	10
3 to 4 feet	\$4.00	\$36.00
4 to 5 feet	5.00	45.00

Red Cedar

(*Juniperus virginiana*)

This tall narrow Juniper is supreme for home decoration, formal or naturalistic. It is classic in a formal setting and free in a naturalistic one. For such lovely pictures as the water garden above, for planting about the house, and for paths and drives, it has no substitute. Its slender spire is clothed in feathery foliage which greets the autumn with a starring over of light blue berries. And for a culminating charm, each Juniper varies subtly from all its fellows in tone, texture, and fruiting habit. It is the aristocrat absolute of the smaller evergreens.

Height	Each	10
7 to 8 feet	\$9.00	\$81.00
8 to 9 feet	12.00	108.00
9 to 10 feet	14.00	136.00
10 to 12 feet	17.00	163.00

If you have planting problems write us about them, or better still, drive out and talk them over with our landscape men.

Without the background of Junipers and Firs this garden would be undistinguished and uninspired. A background is essential, and evergreens are the best background.

Spiny Greek Juniper

(*Juniperus excelsa stricta*)

A fine slow-growing, compact Juniper with rather prickly foliage of rich, steel-blue green. Its form is cone-shaped, broad at the base, tapering towards the top. A choice variety for accents, foundation work or formal planting.

Height	Each	10
12 to 15 inches	\$1.25	\$11.00
15 to 18 inches	1.50	13.50
18 to 24 inches	2.25	20.00

Meyer Juniper

(*Juniperus meyeri*)

A choice low growing form with interesting silvery-blue foliage. Use in foreground of evergreen groups.

Height	Each	10
15 to 18 inches	\$2.25	\$20.00
18 to 24 inches	3.00	27.00

Savin Juniper

(*Juniperus sabina*)

A handsome, low-growing evergreen with thickly foliated slender branches spreading upward from the center. Savin Juniper is one of the loveliest dwarf evergreens to use in foundation planting. It contrasts pleasantly with other low evergreens.

Height	Each	10
18 to 24 inches	\$1.50	\$13.50
2 to 2½ feet	2.50	22.50

The Junipers are valuable for all sorts of decorative uses about the house and garden. Use the Spiny Greek and Meyer for edging paths, pools, beds, and especially to edge groups of evergreens. Use the Virginiana alone or in groups, with no other plants, or make the background of it and face with low-growing plants as shown above. The Irish Juniper gives you a cool blue-green for occasional contrast and accent, in formal places. The Sabina and the Pfitzer make the beautiful middle-height effects of the pool picture above.

Evergreens are priced f.o.b. our nursery. Packing for rail shipments extra at cost.

The Spruces supply mass, symmetry and vigorous color. Border plantings and screens are incomplete without them.

White Spruce has peculiar beauty and dignity.

THE SPRUCES

A noble family of conifers, pyramidal in form, of massive structure and extremely rugged constitution. An erect conical shape and stiff horizontal or slightly drooping branches are characteristic of this species. Very valuable in all types of decorative landscaping. Little-Tree Spruces are notable for vigor of root and top, for symmetry and clear color.

White Spruce (*Picea alba*)

White Spruce is one of the very best and handsomest evergreens for home planting. It is a rapid grower, extremely hardy and of compact conical shape. A very long-lived variety, trees over fifty years old keep their beauty, remain well branched to the ground, and annually make more growth. The short, shimmering light green needles withstand exposure to salt air, pressure of snow or ice, and both heat and drought better than other varieties.

Height	Each	10
2 to 3 feet	\$1.50	\$13.50
3 to 4 feet	2.00	18.00
4 to 5 feet	3.00	27.00
5 to 6 feet	4.00	36.00
6 to 8 feet	7.00	65.00
8 to 10 feet	9.00	81.00
10 to 12 feet	12.00	108.00
12 to 14 feet	20.00	180.00
14 to 16 feet	25.00	225.00
16 to 18 feet	35.00	and up

according to specimen selected

White Spruce at Little Tree Farms attains its maximum of health, hardiness and vigor. You may plant it on wet or dry soil, near the sea or inland, and be sure of rapid growth and distinguished beauty at all stages. Its great density, fast growth and extreme hardiness make it especially desirable for protection from wind, storm, or undesired views. Use for borders and screens; at entrances and along drives; on the lawn; for living Christmas trees; for windbreaks; and for hedges. A White Spruce hedge is a thing of beauty.

A Single White Spruce specimen is charming on the lawn where its symmetry is displayed to best advantage. Use it also for border plantings on lawn or drive, or at the entrance. Its color blends well with the soft toned evergreens such as the Blue Spruce and Silver Fir, while with others such as the Pines, Douglas Fir or Hemlock it contrasts not only in color, but in outline and the texture of its foliage.

Planting suggestions and illustrations showing various types of evergreen plantings — borders — screens — hedges — may be found in the first part of this catalogue pages 7 to 20.

Engelmann Spruce (*Picea engelmanni*)

This rare Spruce has unusual beauty of form and color. The slender spreading branches, in close whorls, form a dense pyramid. A Rocky Mountain species it has many characteristics of the Blue Spruce though the needles of the Engelmann Spruce are softer and more pliant. Grows slowly. Excellent for specimen or group planting. This tree, not as well-known as some of the other evergreens, is fast winning favor because of its dependability and striking color. It is safe to say that when it becomes as well known as the Colorado Blue Spruce it will exceed it in popularity.

Height	Each	10
2 to 3 feet	\$2.50	\$22.50
3 to 4 feet	4.00	36.00
4 to 5 feet	5.50	50.00
5 to 6 feet	8.00	72.00
6 to 8 feet	12.00	108.00
8 to 10 feet	20.00	180.00
10 to 12 feet	35.00	315.00

The liberal use of our finest quality imported Peat Moss will benefit your evergreens. For complete information, see page 64.

An atmosphere of friendly welcome is created by an evergreen planting like that above. Here Spruces are grouped with other evergreens.

Each evergreen is shipped with roots in ball of native loam, wrapped and tied in burlap.

THE COLORADO SPRUCES

Blue and Green Varieties

All Little-Tree Colorado and Blue Colorado Spruces are grown from seed of hardy trees of the high cold regions of the Rocky Mountains, their native home. Pyramidal in form, the full-foliaged branches extend to the ground or near it and are covered with lustrous needles ranging in color from very clear green, with no trace of blue, through various shades of bluish green to a true silvery blue. The color is attractive in all of its variations. Magnificent in health, vigor, and in endurance, this is one of the most striking evergreens as well as one of the hardiest and best loved. For ornamental plantings of all kinds these spruces are used freely and are very handsome whether planted singly or grouped.

Colorado Spruce (*Picea pungens*)

Colorado Spruce has always been a specialty of Little-Tree Farms. The color of these is green or slightly bluish green and the form is a regular pyramid. We can unqualifiedly recommend the Colorado Spruces for all ornamental plantings. Especially good for tubs and pots. They are very handsome planted singly as specimen trees about the house and lawn or along the drive, or grouped together in larger plantings on spacious lawns and through the woodlands of large estates. They grow well in all soils.

Height	Each	10
12 to 18 inches	\$1.00	\$ 9.00
18 to 24 inches	1.50	13.50
2 to 3 feet	2.00	18.00
3 to 4 feet	3.00	27.00
4 to 5 feet	4.00	36.00
5 to 6 feet	5.50	50.00
6 to 8 feet	8.00	72.00
8 to 10 feet	14.00	125.00
10 to 12 feet	18.00	162.00

A tree of rare beauty. The splendid characteristics of this magnificent Evergreen are shown in the specimen at the left. Colorado Spruces are handsome whether planted alone or in groups.

Blue Spruce (*Picea pungens glauca*)

This spruce is the bluest variant of the Colorado Spruce — the tree you mean when you ask for a "Blue" Spruce. The fine specimens here offered have a beautiful silvery blue color.

The Blue Colorado Spruces are without peer for use in ornamental pots, at doorways, in gardens as accents, and as lawn specimens.

The "Blues" are at their best when planted with a group of other conifers possessing variations of the same silvery-bluish green. Too much cannot be said of the hardiness and vigor of growth of this noble evergreen.

Plant your "Blue" Spruce in dark rich garden loam

to procure and maintain the deepest blue color. It will be a constant joy in your garden.

Height	Each	10
12 to 18 inches	\$2.00	\$18.00
18 to 24 inches	2.75	25.00
2 to 3 feet	4.25	38.00
6 to 8 feet	16.00	144.00
8 to 10 feet	23.00	207.00
10 to 12 feet	27.00	243.00
12 to 14 feet	35.00	315.00
14 to 16 feet	45.00 and up	
	according to specimen selected.	

PLANT A LIVING CHRISTMAS TREE

Start one now — to grow up with your children. One of these handsome Colorado or Colorado Blue Spruces on your lawn, is a permanent investment in beauty and satisfaction.

It will increase in size and stateliness from year to year, and give untold delight to you and the whole neighborhood each Christmas season, if you but decorate it with a few colored lights at dusk. Every family should have one.

The initial cost of such a tree is small if you consider the length of time it will give you pleasure, and the size which it soon attains.

Special Prices quoted to dealers and others who can use large quantities of big evergreens. Let us know what you want.

An artistically arranged group of evergreens like that pictured below is valuable not only for its decorative effect but also for the seclusion it affords. Here Colorado Spruces are grouped with other evergreens.

Evergreens are priced f.o.b. our nursery. Packing for rail shipments extra at cost.

Like sentinels these beautiful Pines guard this New England Homestead

THE PINES

This group, the largest and most important of all the evergreen families, contains some seventy different species. They are growing in fragrant beauty all over New England, out into the great northwest and far down into the sunny South. Theirs are the lines that give the distinctive aspect of freedom and grandeur to our northeastern landscapes and they are, perhaps, the most characteristic evergreen of this section.

Pines furnish not only the most important timber trees, but also the most valuable plant material for large ornamental groups. The Pines do not lose their beauty as they mature, but gain in character and picturesque appearance.

Although they live to immense age and many attain great height, the Pines are also well adapted to decorative use as evergreens of medium size during their long and charming youth.

Swiss Stone Pine (*Pinus cembra*)

A rare semi-dwarf Alpine evergreen with deep green needles, silvery underneath. Similar in many ways to the White Pine, but of smaller shapelier form. This slow-growing compact variety will delight you with its beauty of color and texture. Use freely in ornamental plantings or in ornamental groups about the house and lawn. Is excellent for accent in foundation planting. Shipped in New England and New York only.

Height	Each	10
18 to 24 inches	\$2.50	\$22.50
2 to 3 feet	4.50	40.00
3 to 4 feet	6.00	54.00
4 to 5 feet	7.50	67.00
5 to 6 feet	10.00	90.00
7 to 8 feet	25.00	225.00

Mugho
Pine

18 to 24 inches
\$1.50

Austrian Pine (*Pinus nigra*)

This hard pine is unusually rugged and picturesque with a wide spread of great branches with long, stiff, dark green needles. Its resilient structure makes it most valuable for planting under adverse conditions of sweeping wind, salt spray, poor soil and dry hilltops. Especially desirable for protective plantings around country and seaside homes where these conditions often prevail. A splendid evergreen for city plantings, as it successfully resists gassy and smoky atmospheres.

Height	Each	10
2 to 3 feet	\$2.00	\$18.00
3 to 4 feet	3.00	27.00
4 to 5 feet	5.00	45.00
5 to 6 feet	6.00	54.00
6 to 7 feet	8.50	76.00
7 to 8 feet	12.00	108.00

Limber Pine (*Pinus flexilis*)

A Pine of wonderful color, almost as blue as the Blue Spruce. Unique as a border or lawn evergreen. Its branches reach up, and its needles surround the branchlets in a close sheath of blue green, not fringing or spraying out, but held toward the twig with charming and unusual effect. Limber Pines closely resemble the White Pines and can be used in much the same way, — in the background to give variety in group plantings, for tall screens and masses and for single specimens on spacious lawns. Hardy and vigorous, these Pines are quite out of the ordinary and no planting is complete without their picturesque note. For New England and New York only.

Height	Each	10
3 to 4 feet	\$3.00	\$27.00
4 to 5 feet	4.00	36.00
5 to 6 feet	5.00	45.00
6 to 8 feet	8.00	72.00
8 to 10 feet	14.00	125.00
10 to 12 feet	25.00	225.00

Dwarf Mountain Pines are an excellent choice for planting in front of other evergreens. Extremely hardy and very handsome.

Dwarf Mountain Pine (*Pinus montana mughus*)

Often called Mugho Pine. One of the hardiest and best dwarf evergreens. Distinctly round and compact. Ideal for foundation planting, edging or low massing. In spring, bright colored new shoots like tiny candles adorn them and contrast splendidly with other evergreens. This is the best Pine for planting about building foundations and is very effective in the foreground of taller evergreens. It succeeds in almost any soil except the very wet and will stand much exposure to wind and sun. Excellent for planting at the seashore and for covering sandy slopes.

Height	Each	10
18 to 24 inches	\$1.50	\$13.50
2 to 3 feet	3.00	27.00
3 to 4 feet	5.00	45.00
4 to 5 feet	10.00	90.00

Each evergreen is shipped with roots in ball of native loam, wrapped and tied in burlap.

Plant a large Red Pine behind your shrubbery. It will give privacy and form a delightful background for the shrubbery border.

For planting along drives and wide paths Red Pines are superb.

The stately Red Pines with snow laden branches add much to the glory of the winter landscape.

RED PINE

Pinus Resinosa

We have always held Red Pine to be a supremely beautiful and valuable species, and have been proud of our own Red Pine product. The Red Pine (sometimes called "Norway" Pine), grows absolutely straight, and carries magnificent branches clothed in large masses of long needles. It is rich, dark green, and its trunk has a rose-tint in its brown. The whole structure is individual and appealing.

Plant groups of Red Pine in the background of your garden and on your lawn and along the drive. They give a mass of rich color and make an imposing border.

Especially, plant Red Pine for protection, with beauty. Each tree offers an impenetrable mass of tufted foliage to the wind, and affords a perfect retreat to all

behind it. No unpleasing view or harsh dust penetrates a Red Pine screen.

And the Red Pine endures poor soil, exposure and salt spray. Like Brer Rabbit it was "Born 'n 'bred" in that particular kind of "brier patch!" So order now the Red Pine you need for hilltop, seaside or exposed place, as well as for the many other purposes previously suggested.

Height	Each	10
4 to 5 feet	\$3.00	\$27.00
5 to 6 feet	4.00	36.00
6 to 8 feet	7.00	63.00
8 to 10 feet	12.00	108.00
12 to 14 feet	16.00	144.00
14 to 16 feet	20.00	180.00
16 to 20 feet	30.00	and up
	according to specimen selected.	

Red Pines are very useful to cover high foundations or shut off service yards.

... Can you use a quantity of Red Pines or other large evergreens? If so, write, telephone, or come to see us. We can quote special low prices on car and truck lots.

8 to 10 feet

\$12.00 each

Red Pine

Planting suggestions and illustrations showing various types of evergreen plantings — borders — screens — hedges — may be found in the first part of this catalogue pages 7 to 20.

The young White Pine shown above adds distinction to its surroundings.

Plant White Pine for the exquisite grace of its soft foliated branches ever reaching out in horizontal sprays — the marvelous beauty of its outline against the sky and the comfortable feeling of seclusion its thick branches afford. Revel in its coolness and charm in summer; bless the protection from snow and wind it gives in winter.

WHITE PINE

(*Pinus strobus*)

For sheer breath-taking beauty there is no tree like the White Pine. Its towering size and ample spread in maturity, its rich fragrance, its lovely, soft density in youth, and its deep, clear color always make this the most appreciated of all evergreens for garden backgrounds, home groves, and plantings along drives and paths.

Plant a specimen on your lawn and know the White Pine more intimately. Enjoy its soft silvery green color and spreading low-flung branches; spangle it with lights when Christmas comes; use its sprays for decoration; make an outdoor sitting-room under its shade and breathe its health-giving odor.

We offer exceptionally fine trees at remarkably low prices. Shipped in New England and New York. Special prices quoted on large quantities.

White Pines make magnificent rugged screens, windbreaks and borders.

PRICES FOR WHITE PINE

Height	Each	10
4 to 5 feet	\$3.00	\$27.00
5 to 6 feet	4.50	40.00
6 to 8 feet	7.00	63.00
8 to 10 feet	12.00	108.00
10 to 12 feet	15.00	135.00
12 to 14 feet	18.00	162.00
14 to 16 feet	22.00	200.00
16 to 20 feet	35.00 and up	according to specimen selected.

Set White Pines 2 to 3 feet apart for an impenetrable wide hedge. Easily kept sheared to regular shape.

Could any more suitable background be found for a tennis court or play yard than the handsome White Pine group illustrated above.

Each evergreen is shipped with roots in ball of native loam, wrapped and tied in burlap

Japanese
Yew

*Handsome Winter and Summer,
the Yew is at home on finest
properties.*

*Notice how the Hemlocks soften and decorate the wide steps and
embellish all the outlines. Combined, as they are, with other ever-
greens and shrubs, they give a well finished aspect to the house.*

THE YEWE

(*Taxus*)

Aristocrat among all evergreens is the Yew, one of the oldest, toughest, longest-living trees known to man. The foliage is typically dark, almost black, with a silky waxy sheen that gives a peculiarly rich effect.

Comparatively slow growing as well as long lived, it is particularly valuable for permanent planting. Wherever evergreens must be kept within narrow bounds Yews are ideal.

Dwarf Japanese Yew

(*Taxus cuspidata nana*)

A smaller, slower growing form of the Japanese Yew with a decidedly Japanese shape and velvety dark green needles. The foliage is borne more thickly, giving a particularly rich appearance. Its free irregular growth is picturesque and charming. Readily sheared to a compact formal shape. Ideal for gardens, rock gardens and foundation plantings. Fine green color all year round.

Height	Each	10
10 to 12 inches	\$1.65	\$15.00
12 to 15 inches	2.00	18.00
15 to 18 inches	2.70	24.00

*Use our high quality imported Peat Moss in
planting your evergreens, and also to mulch
them. Full description on page 64.*

THE HEMLOCK

(*Tsuga canadensis*)

The exquisite Hemlock, which is as often called "American" as "Canada" Hemlock, is one of the most gracious products of the cold northern regions.

Its use in landscape planting ranges all the way from potted decorative plants, on steps or terraces, to forest planting in cold or damp "gorges". It adapts itself perfectly to all these so different purposes, and lends grace to every spot it inhabits.

The branches of the Hemlock are exceedingly graceful, drooping at the tips, and delicately covered with dark green sprigs of fine short needles. There is probably no evergreen more absolutely aristocratic in aspect. The multitude of fine, short sprays at the branch ends makes the Hemlock perfectly controllable by shearing. It merely thickens its mass, when sheared, holding serenely to the place assigned to it, whether in a foundation planting or a hedge.

Height	Each	10
15 to 18 inches	\$1.00	\$ 9.00
18 to 24 inches	1.25	10.00
2 to 3 feet	1.75	15.00
3 to 4 feet	2.50	22.50
4 to 5 feet	3.50	31.50
5 to 6 feet	5.00	45.00
6 to 7 feet	7.50	70.00
7 to 8 feet	9.50	90.00

Japanese Yew

(*Taxus cuspidata*)

A very fine Yew of spreading form which grows broad rather than tall. Long lived and readily adapted to a wide variety of uses, there is no better evergreen for foundation planting, for the small lot, for the formal garden and for cemetery planting.

The Yews are all remarkably resistant to adverse city conditions, and can be depended on to grow even in shade, where many other evergreens fail. It shears readily to any shape desired and makes a handsome hedge. Left unsheared it attains magnificent spread.

Height	Each	10
15 to 18 inches	\$1.75	\$15.00
18 to 24 inches	2.50	22.50
2 to 2½ feet	3.50	31.50

Upright Japanese Yew

(*Taxus cuspidata capitata*)

A more upright growing form of this wonderful evergreen. Use freely, singly, or in group plantings. Excellent for low compact hedges.

Height	Each	10
12 to 15 inches	\$1.00	\$ 9.00
15 to 18 inches	1.75	15.00
2 to 2½ feet	3.50	31.50

These Hemlocks are going to make an aristocratic planting, repeating the style of the lawn group. This drive is on the "shady side", so Hemlock is a wise choice as Hemlocks thrive in shade.

The Glory of Evergreens

is amply shown in these views of landscape plantings on private grounds. Breathing a truly great personality, evergreens are equally harmonious in the intimacy of home surroundings, the austere solitude of nature, or the elaborate grandeur of a formal setting. They are the basis of landscape beauty in our region.

The Steadfastness of Evergreens

is like the vigor of the everlasting hills on which their ancestors took the fragrant breath of life. Shade and spicy aroma surround them in summer's heat, warmth and beauty emanate from them in winter's cold. And in storms of snow and ice they wrap themselves in mantles of incredible and gleaming purity.

Arborvitae may be trimmed to give the very formal effect illustrated at the right.

A planting of stately Arborvitae, allowed to grow with little trimming, gives great dignity to the entrance of a modest home.

THE ARBORVITAE

Most frequently planted of all evergreens is the Arborvitae or "Tree of Life." Its beautiful bright green color combined with its longevity makes this name particularly fitting.

The foliage, lacy and scale-like with the branchlets arranged in flat, overlapping horizontal sprays, has a pleasant aromatic odor. It bears close shearing or may be left natural.

American Arborvitae

(*Thuja occidentalis*)

A great favorite is the American Arborvitae. Many fine old trees in our New England countryside bear witness not only to the long life and great beauty of American Arborvitae but also to their suitability for planting as lawn specimens, in thick hedges or sheltering backgrounds or as accents in the garden—the very same purposes for which they are planted today.

Healthy and vigorous, this handsome evergreen can be depended upon under a variety of artificial conditions. It is a favorite for great gardens and spacious grounds, and for little gardens and modest house lots where it is readily kept within bounds by pruning.

The lightest of shearing or shaping tends to thicken the new growth and brings Arborvitae to the absolute symmetry desirable in the formal garden. Left untrimmed it is attractive for informal types of planting and frequently takes a pleasing irregularity of outline as it matures.

Arborvitae will thrive in almost any situation. It is not particular as to soil and succeeds even in moist locations and partial shade.

From the American type have been developed some fifty different hardy garden forms, varying in character and size from tall narrow pyramids to the low broad globes. The best varieties for this climate are offered here at Little Tree Farms. Use these Arborvitae freely in your planting. They are very handsome and are adaptable to many conditions.

The illustration shows an Arborvitae hedge one year after it was planted by Little Tree Farms.

Little Tree Farms Arborvitae are known and planted all over the country. From their magnificent roots to their shapely, full-foliaged tops, they are fitted for absolute success in every type of planting.

Height	Each	10
2 to 3 feet	\$1.00	\$ 9.00
3 to 4 feet	1.50	13.50
4 to 5 feet	2.00	17.00
5 to 6 feet	3.00	27.00
6 to 7 feet	4.50	40.00
7 to 8 feet	6.00	55.00
8 to 10 feet	7.50	70.00
10 to 12 feet	12.00	110.00
12 to 14 feet	15.00	135.00
14 to 18 feet	25.00 and up	according to specimen selected.

If you have planting problems write us about them, or better still, drive out and talk them over with one of our landscape men.

Arborvitae is one of the best evergreens for low formal hedges. It is easily sheared and is extraordinarily handsome.

Arborvitae have an important place in most foundation plantings. Here tall Arborvitae are used beside the entrance and lower varieties are blended with the other evergreens.

Each evergreen is shipped with roots in ball of native loam, wrapped and tied in burlap.

A sure defense against sharp drying winds is provided for this vegetable garden by the screen of tall Arborvitae.

Here tall Arborvitae stand like sentinels.

A hedge of closely trimmed Arborvitae is both protective and decorative.

Globe Arborvitae

(*Thuja occidentalis globosa*)

A rather slow growing extremely compact rounded form. Excellent for low foreground, for foundation groups or potting. One of the oldest and most popular forms. Makes a splendid low hedge requiring little attention. One of the best and hardiest of the globe forms. Stands the winter well.

Height	Each	10
9 to 12 inches	\$1.00	\$ 9.00
12 to 15 inches	1.25	11.50
15 to 18 inches	1.50	13.50

Pyramidal Arborvitae

(*Thuja occidentalis pyramidalis*)

A tall, slender evergreen, the very narrowest of all, often twenty feet tall and but two or three feet wide at the base. The foliage is denser than that of the American form and a richer green, and holds its color better in winter. Prefers sun. Excellent for tall accent or to emphasize height or contrast in the garden design, or in pairs at entrance or gate.

Height	Each	10
2 to 3 feet	\$1.50	\$13.50
3 to 4 feet	2.00	18.00
4 to 5 feet	3.00	27.00

Woodward Arborvitae

(*Thuja occidentalis woodwardi*)

One of the best varieties, forming a natural globe up to three feet in diameter. The foliage is a little softer and slightly darker in color than the other varieties, especially in winter. Of compact, even regular shape.

Height	Each	10
12 to 15 inches	\$1.50	\$13.50
15 to 18 inches	2.00	18.00

For potting Arborvitae is excellent. Tubs and pots are listed on page 66.

Siberian Arborvitae

(*Thuja occidentalis wareana*)

A dense pyramid of medium height and fine color. The foliage is heavier and tougher than that of American Arborvitae — rather crested in appearance giving the tree a great deal of character and richness. The color is also maintained better through the winter without browning or discoloration. Slow growing. A very fine subject for foundation work and general planting.

Height	Each	10
3 to 4 feet	\$2.50	\$22.50
4 to 5 feet	4.00	36.00

Standish Arborvitae

(*Thuja occidentalis standishi*)

A broad, pyramidal shape. Useful in evergreen groups. Very hardy.

Height	Each	10
2 to 3 feet	\$1.50	\$13.50

Ware Arborvitae

In this attractive group tall Arborvitae are used in the background with low-growing Arborvitae in front.

Woodward Arborvitae

Evergreens are priced f.o.b. our nursery. Packing for rail shipments extra at cost.

Japanese Pachysandra will grow under trees where grass cannot.

LITTLE-TREE BROADLEAVED

Can you imagine a lovelier effect than that of the Mountain Laurel above.

EVERGREEN SHRUBS

A most valuable group of large and small shrubs characterized by broad green leaves which remain throughout the winter. Many of them flower or fruit profusely and the glossy foliage and bright blossoms or berries contrast pleasingly with the more

sombre coniferous evergreens. Most of these shrubs prefer acid soil and some shade. Mix granulated Peat Moss, described on page 64, with the soil in planting and use, also, as a mulch. It is an ideal soil conditioner for evergreen shrubs.

Buxus sempervirens **BOXWOOD**

A slow growing shrub with small glossy green leaves. Used for hedges and as individual specimens. Needs winter protection in New England.

Height	Each	10
15 to 18 inches	\$1.25	\$11.00
18 to 24 inches	1.75	16.00

Rose Daphne with fragrant blossoms.

Daphne cneorum **ROSE DAPHNE**

A charming little evergreen prized for its deliciously fragrant rose-pink flowers. Blooms profusely in June and more sparsely in fall. Grows about one foot tall and in sun or partial shade. Fine light green foliage. Particularly good in rock gardens and foundation plantings. Plant in protected places using Peat Moss in the soil.

Height	Each	10
8 to 12 inches	\$1.00	\$ 9.00

Euonymus radicans **SMALL LEAF WINTERCREEPER**

A delightful low-spreading or trailing evergreen. Suitable for the north side of buildings and for shady places under trees. Does well in full sun, too. Perfectly hardy and one of the prettiest evergreens for the rock garden or for edging. Clings very closely to any rough surface.

Spread	Each	10	100
12 to 18 inches	\$.60	\$5.00	\$45.00

Big Leaf Wintercreeper

Euonymus radicans variegata **VARIEGATED WINTERCREEPER**

A striking small-leaved form with narrow and interesting dark green leaves marked by a broad margin of white. Very decorative among other evergreens in foundation and border plantings. Useful for color contrast and variety in shady places and for winter effect.

Spread	Each	10	100
12 to 18 inches	\$.60	\$5.00	\$45.00

Euonymus radicans vegetus **BIGLEAF WINTERCREEPER**

The Evergreen Bittersweet, which flowers and fruits freely. The small inconspicuous clusters of white flowers are followed by brilliant orange-yellow berries in the fall, very similar to our American Bittersweet, and particularly handsome among the glossy green foliage. The most bushy and vigorous of all Wintercreepers with handsome, large, round leaves. It clings to any rough surface and is splendid for covering wood, brick and stone walls or foundations. Frequently used to cover trunks of trees.

Spread	Each	10	100
12 to 18 inches	\$.60	\$5.00	\$45.00

Kalmia latifolia **MOUNTAIN LAUREL**

One of the finest and most decorative of our American shrubs. The shining foliage and bright blooms contrast pleasingly with the more sombre tones of the coniferous evergreens. The long narrow leaves, smooth and glossy, are much used for winter decoration. Abundant large clusters of beautiful white or rose-tinged flowers appear in June. A splendid shrub of medium size for sunny and shady places, foundation planting, paths, drives and open woods. Requires a well-drained acid soil.

Height	Each	10
12 to 15 inches	\$1.50	\$13.50
18 to 24 inches	2.25	20.00
2 to 3 feet	2.75	25.00

Leucothoe catesbaei **DROOPING LEUCOTHOE**

An exquisite small shrub with arching sprays of shiny, dark green pointed leaves. White flowers in June. Foliage turns bronze and claret shades in fall. Perfectly at home along brooks in damp cool shade or in partially shaded places and Rhododendron plantings.

Height	Each	10
18 to 24 inches	\$2.00	\$18.00

Mountain Andromeda

Pieris floribunda **MOUNTAIN ANDROMEDA**

A very hardy shrub which opens its small, white, bell-like blossoms at the first signs of spring. Sometimes called "Lily-of-the-Valley Shrub." Forms a low, broad, dainty bush with small, shining, deep green leaves. The flower buds form in the fall and are very decorative through the winter.

Height	Each	10
18 to 24 inches	\$3.50	\$32.50

Pieris japonica **JAPANESE ANDROMEDA**

A slow-growing erect form with thick shiny leaves, bronze in winter. Drooping clusters of small white flowers in May. Excellent for partially shaded places.

Height	Each	10
15 to 18 inches	\$2.00	\$18.00

Yucca filamentosa **YUCCA**

Also known as Adam's Needle and Spanish Bayonet. Tall wide pillars of creamy bells rise from rosettes of evergreen leaves. Striking in the foreground of evergreen plantings, in bold clumps among the shrubbery or accenting the perennial garden.

Grade	Each	10
Large Clumps	\$.50	\$ 4.00

Evergreen shrubs are priced f.o.b. our nursery. Packing for rail shipments extra at cost.

LITTLE-TREE

Rhododendrons

Perfect for Planting
in Shady Spots

This group is characterized by broad evergreen leaves, and large clusters of handsome big flowers in June and July. By nature the Rhododendrons are woodland plants, delighting in situations screened from the morning sun and from cold cutting winds in late winter. They love partial shade and acid soil. The roots, which are very near the surface, should be kept cool and damp and never allowed to dry out. For this reason, a moist

porous soil, fairly rich in leaf mold, humus or peat is ideal, and a mulch of leaves or peat moss (see page 64) is extremely beneficial.

Rhododendrons are used along drives and paths, for massing and underplanting in woods and for shady places, such as the north side of buildings. Rhododendrons, Catawba and Carolina, can be used in full sun.

Carolina Rhododendron*Rhododendron carolinianum*

A very choice hardy Rhododendron of rather dwarf habit, forming a shapely bush up to 6 feet tall. The leaves are rich glossy green and much smaller than those of the other species. Large rose-pink flowers open earlier than the blossoms of the Catawba and Rosebay. A gem for rock gardens or planting about foundations.

Height	Each	10
15 to 18 inches	\$2.00	\$18.00
18 to 24 inches	2.50	22.50
2 to 3 feet	3.50	32.50

Catawba Rhododendron*Rhododendron catawbiense*

Extremely popular is this handsome compact Rhododendron, of medium size. Long, round tipped leaves of lustrous dark green. In June great round clusters of rosy pink to lavender blossoms. A very free bloomer and extremely hardy. Withstands exposure. Grows in sun or shade. Excellent for foundation planting, shady corners, and massing in large groups.

Height	Each	10
15 to 18 inches	\$2.00	\$18.00
18 to 24 inches	2.50	22.50
2 to 3 feet	4.00	37.50

Rosebay Rhododendron*Rhododendron maximum*

The Rosebay or Great Laurel, largest of the Rhododendrons, often reaching a height of fifteen feet. Perfectly hardy, its tall spreading form is covered with broad, tough, pointed leaves. In late June an July it bears many clusters of blossoms often measuring eight to ten inches across. The color varies from white to delicate shades of pink.

Excellent for massing, for a tall screen, for bordering drive or path in the woods. It will thrive in semi-shade or partially exposed positions, where the soil is naturally cool and damp. Do not plant in full sun.

Height	Each	10
15 to 18 inches	\$2.00	\$18.00
18 to 24 inches	2.50	22.50
2 to 3 feet	4.00	37.50

Hybrid Rhododendrons

The splendid result of crossing native and foreign species. Flowers in May and June are usually larger and brighter than native varieties. Very hardy.

Little-Tree

FLOWERING SHRUBS

Fresh Hardy
Vigorous

Hydrangeas at Little-Tree Farms

Every man's heart has a place for the old-fashioned flowering shrubs, — and some of the new-fashioned ones are even more enticing. No home makes quite a home-picture without them. They are the standbys of all ornamental plantings, furnishing masses of foliage, varied forms, colorful flowers and fruits.

The varieties offered are selected for their usefulness, dependability, and beauty. Azaleas are shipped with ball of earth burlap wrapped, (B & B), other shrubs with roots carefully protected to keep them from drying. The plants are sturdy northern grown stock, well adapted to thrive under New England conditions.

Azaleas

Closely related to the Rhododendrons the Azaleas have an exceptionally wide, range of handsome colors. They bloom from mid-April to early July and do best in acid soils.

Azalea arborescens SWEET AZALEA

A graceful hardy shrub of medium height with fragrant rose-tinted blooms in May and June. Handsome red and gold autumn coloring. Grows best in shade or partial shade.

Height	Each	10
18 to 24 inches B&B	\$2.50	\$22.50

Azalea calendulacea FLAME AZALEA

Masses of flame-colored flowers of orange and yellow in early June. A vigorous grower, forming a broad, bushy shrub of medium height. Should be used in shrub borders, plantings about foundations and as accents in the garden. Grows in sun or shade. Striking.

Height	Each	10
18 to 24 inches B&B	\$2.00	\$18.00
2 to 3 feet B&B	3.00	27.50

Azalea kaempferi TORCH AZALEA

One of the finest Azaleas. Lovely salmon pink-red blossoms. A prolific bloomer. Does well in sun or shade. Effective in foundation plantings.

Height	Each	10
15 to 18 inches B&B	\$2.00	\$18.00
18 to 24 inches B&B	2.50	22.50

Azalea mollis CHINESE AZALEA

Large flowers, shaded orange-yellow and red, in late May and early June

Height	Each	10
15 to 18 inches B&B	\$2.00	\$18.00

Azalea nudiflora PINXTERBLOOM AZALEA

Blooms in April and May. Flowers are a beautiful clear pink.

Height	Each	10
18 to 24 inches B&B	\$2.00	\$18.00

Azalea Blossoms

Azalea poukhanensis KOREAN AZALEA

A very choice low-spreading shrub with beautiful purple-lilac flowers. Unique in coloring and the earliest to bloom. Very neat grower, making round, tidy bushes with lovely foliage, decorative all summer.

Height	Each	10
15 to 18 inches B&B	\$3.00	\$27.50

Acanthopanax pentaphyllum ARALIA

A graceful, vigorous growing shrub with somewhat thorny arching branches and bright green foliage. Stands shearing well. Excellent for hedges. Thrives in shady places and on rocky banks and slopes. Does well in dry soils.

Height	Each	10	100
2 to 3 feet	\$.75	\$6.50	\$60.00

Berberis thunbergi JAPANESE BARBERRY

This low, dense prickly shrub is a favorite for hedges, borders or foundation plantings. A vigorous grower in ordinary soils, perfectly hardy and endures partial shade. One of the finest low shrubs. Brilliant autumn foliage and red fruits. Berries illustrated on next page.

Height	Each	10	100
1 to 18 inches	\$.25	\$1.80	\$12.00
18 to 24 inches	.30	2.40	16.00

Berberis thun. atropurpurea REDLEAF BARBERRY

A form of Japanese Barberry with bright red foliage. Use for contrast in shrubby groups.

Height	Each	10	100
15 to 18 inches	\$.35	\$2.50	\$20.00
18 to 24 inches	.40	3.30	30.00

Buddleia davidi magnifica OXEYE BUTTERFLY-BUSH

Sometimes called Summer Lilac because of the long sprays of purple flowers like lilacs during the summer. Prefers sun and does best in well drained soil. Use in mixed border plantings and as garden accents.

Grade	Each	10	100
2 year	\$.40	\$3.50	\$32.00

Buddleia ILE DE FRANCE

A superior new French variety. Large rich purple blossoms. July to late Fall. Profuse bloomer.

Grade	Each	10	100
2 year	\$.60	\$5.50	\$50.00

Sprays of Butterfly Bush

Calycanthus floridus SWEET SHRUB

An old fashioned shrub. The chocolate colored flowers bloom all summer and have a spicy strawberry odor. Does best in partial shade.

Height	Each	10	100
2 to 3 feet	\$.60	\$5.50	\$50.00

Caragana arborescens SIBERIAN PEA-TREE

An interesting large growing upright shrub. Conspicuous pea-shaped flowers during summer. Ideal for dry situations in full sun. Use in the background of mixed shrubby borders. Excellent for hedges and windbreaks. Very hardy.

Height	Each	10	100
4 to 5 feet	\$.60	\$5.50	\$50.00

Clethra alnifolia SUMMER SWEET

Also known as Sweet Pepperbush. Spikes of creamy white fragrant flowers June to August. Grows to six feet. Does best in moist soil and semi-shade. Use about foundations, in mixed shrubby borders, at edges of streams. Foliage splendid green and persistent. Very satisfactory.

Height	Each	10	100
18 to 24 inches	\$.50	\$4.50	\$40.00

Prices on this page include packing and delivery to transportation companies at Framingham, Massachusetts.

Barberry

Goldentwig
DogwoodShowy Blooms of
PeeGee Hydrangea

Euonymus

Forsythia

Cornus alba sibirica CORAL DOGWOOD

An attractive, red-twigged, medium sized shrub. White flowers in June, followed by clusters of white berries. Fall foliage is good coppery red. Grows equally well in dry or moist soils. Prefers sun but will endure partial shade. Use in naturalistic plantings. Ideal for banks.

Height	Each	10	100
2 to 3 feet	\$.50	\$4.50	\$40.00
3 to 4 feet	.60	5.50	50.00

Cornus paniculata GRAY DOGWOOD

A medium sized shrub, particularly valuable for naturalistic plantings. Small white flowers in July are followed by interesting clusters of buff white berries which contrast pleasingly with the gray bark. Will thrive in dry or moist soils, but prefers plenty of moisture and partial shade. A splendid shrub for mixed borders and underplanting in moist woods.

Height	Each	10	100
2 to 3 feet	\$.60	\$5.50	\$50.00
3 to 4 feet	.75	6.50	55.00

An interesting red-twigged shrub, medium size, for naturalistic borders and bank plantings. Does well in sun or partial shade and in moist or dry soils.

Height	Each	10	100
4 to 5 feet	\$.75	\$6.50	\$60.00

Cornus stolonifera flaviramea GOLDENTWIG DOGWOOD

Another vigorous Dogwood similar to Red Osier but has yellow branches. Used for winter effect in combination with other Dogwoods, or fruiting shrubs. Vigorous, easy to grow. Flowers illustrated above.

Height	Each	10	100
2 to 3 feet	\$.50	\$4.50	\$40.00

Cotoneaster horizontalis ROCK COTONEASTER

Glossy leaves, semi-evergreen, on flat spreading branches. Light pink flowers. Bright red berries.

Height	Each	10	100
9 to 12 inches	5 inch pots	\$1.00	\$9.00

Cydonia japonica FLOWERING QUINCE

An old time favorite. Grows to six feet. Profusely covered with picturesque single scarlet blossoms in late spring. Foliage glossy green. Prefers sun but stands partial shade. Very charming in mixed borders and groups about foundations. Blossoms good for cutting. A handsome lawn specimen.

Height	Each	10	100
18 to 24 inches	\$.50	\$4.50	\$40.00
2 to 3 feet	.60	5.50	50.00

Deutzia gracilis SLENDER DEUTZIA

In spring the slender branches are covered with small white flowers. Low-growing, and a very desirable shrub for the foreground of foundation and border plantings. Does best in full sun and well-drained soils.

Height	Each	10	100
12 to 18 inches	\$.50	\$4.50	\$40.00
18 to 24 inches	.60	5.50	50.00

Deutzia lemoinei LEMOINE DEUTZIA

A compact shrub covered with small white flowers in late May and June. Very hardy and desirable for hedges and mixed shrubbery borders.

Height	Each	10	100
18 to 24 inches	\$.50	\$4.00	\$35.00
2 to 3 feet	.60	5.50	50.00

Deutzia scabra Pride of Rochester PRIDE OF ROCHESTER DEUTZIA

This lovely old favorite will thrive almost anywhere. A profuse bloomer with large clusters of double white flowers tinged with rose in June. Forms an erect branching, shapely shrub five to six feet tall, valuable for border, screen or hedge or as a single specimen. Easy to grow and very vigorous. Always popular.

Height	Each	10	100
2 to 3 feet	\$.50	\$4.00	\$35.00
3 to 4 feet	.60	5.00	40.00

Euonymus alatus WINGED EUONYMUS

The chief glory of this big flat-topped shrub is its fall color of brilliant pink, scarlet and crimson. In winter its silhouette of stout twigs with wing-like corky ridges (See illustration above), is very picturesque. Grows best in full sun and well-drained soil but will endure partial shade.

Height	Each	10	100
18 to 24 inches	\$.50	\$4.50	\$40.00
5 to 6 feet	1.75	15.00	

Exochorda grandiflora PEARL BUSH

A spreading shrub of tall, upright growth with narrow leaves, silvery on the underside. Covered with dazzling white flowers early in the spring almost before the leaves appear.

Height	Each	10	100
2 to 3 feet	\$.60	\$5.50	\$50.00

Forsythia intermedia spectabilis SHOWY BORDER FORSYTHIA

One of the very finest Goldenbells. The flowers, large and numerous, crowd the full length of the stems. The buds open later than those of other varieties. A very strong grower. Foliage glossy green.

Height	Each	10	100
3 to 4 feet	\$.60	\$5.00	\$45.00

In November Witch Hazel unfolds its yellow blooms.

Forsythia suspensa WEEPING FORSYTHIA

The gracefully drooping branches are covered with glorious golden-yellow flowers in early spring before the leaves appear. Forms a large broad thicket of long willowy branches that completely hide the ground. Excellent for massing on slopes or for thick screens. Does best in full sun in well-drained soil.

Height	Each	10	100
3 to 4 feet	\$.60	\$5.00	\$45.00

Hamamelis virginiana WITCH HAZEL

Unique, tall-growing shrub, which blossoms late in fall when other plants have dropped their leaves. Yellow star-shaped flowers are hidden midst a mass of yellow-tinted foliage. Thrives best in partial to full shade and does well in any soil. Use in naturalistic border and woods planting. Easy to grow and very dependable.

Height	Each	10	100
4 to 5 feet	\$.75	\$6.50	\$55.00

Hibiscus syriacus — Althea ROSE OF SHARON

Tall shrubs with erect stems. Large flowers in August and September.

Height	Each	10	100
3 to 4 feet	\$.60	\$5.50	\$50.00
Double pink. Double red. Double white.			

Hydrangea arborescens grandiflora SNOWHILL HYDRANGEA

Low, broad bush. In July and August the top of each branch is weighed down with a great cluster of handsome, pure white flowers. Blossoms are borne on new wood so shrub should be cut to the ground each spring. Thrives best in sun or partial shade. Prefers moist well-drained soil. Use in foreground of shrub border and for foundation plantings.

Height	Each	10	100
2 to 3 feet	\$.60	\$5.50	\$50.00

Hydrangea paniculata grandiflora PEEGEE HYDRANGEA

Large shrub. Showy in midsummer, with immense white flowers turning pink to reddish purple in fall. Grows best in full sun. Use in mixed shrubbery borders as background plant.

Height	Each	10	100
18 to 24 inches	\$.50	\$4.50	\$40.00

Ilex verticillata WINTERBERRY

Very desirable in foundation and border plantings because of highly colored red fall foliage and red berries. Thrives in moist soils and sun or shade.

Height	Each	10	100
2 to 3 feet	\$.60	\$5.50	\$50.00

Fragrant blooms of Honeysuckle.

Hybrid Mockorange.

White waxy fruits of Snowberry

Kolkwitzia amabilis **BEAUTYBUSH**

Handsome in flower, the whole shrub, which grows five to seven feet tall, is completely covered with tiny pink Weigela-like blossoms in June. Absolutely hardy and very free growing. Considered by its introducer, the late Dr. E. H. Wilson, to be one of the finest exotic plants ever brought into American gardens.

Height	Each	10	100
18 to 24 inches	\$.60	\$5.00	\$40.00
2 to 3 feet	.75	6.00	50.00

Ligustrum amurense **AMUR PRIVET**

A fast growing upright shrub with clean, fine foliage. Especially good for hedges, screens and tall masses either in sun or shade.

Height	Each	10	100
2 to 3 feet	\$.30	\$2.00	\$15.00

Ligustrum ibolium **IBOLIUM PRIVET**

This upright shrub is a cross between the California and Ibota Privet, having the beauty of the former and the hardiness of the latter.

Height	Each	10	100
2 to 3 feet	\$.25	\$1.50	\$12.00
3 to 4 feet	.30	2.00	15.00

Ligustrum ibota **IBOTA PRIVET**

A vigorous shrub of tall graceful habit with many small, fragrant white flowers followed by decorative blue-black berries in the fall and winter. Makes a splendid hedge or thick screen. Does well in any soil and in sun or shade.

Height	Each	10	100
2 to 3 feet	\$.30	\$2.50	\$18.00
3 to 4 feet	.35	3.00	22.00

Ligustrum ovalifolium **CALIFORNIA PRIVET**

Rapid and vigorous in growth, with attractive clean, glossy foliage on stiff upright branches. Will grow in shade under big trees. Good for a quick, inexpensive hedge.

Height	Each	10	100
2 to 3 feet	\$.20	\$1.50	\$10.00
3 to 4 feet	.25	1.80	15.00

Lonicera korolkowi floribunda **BLUELEAF HONEYSUCKLE**

A large shrub with bluish green leaves; profuse light pink flowers in May and June; red fruit.

Height	Each	10	100
2 to 3 feet	\$.75	\$6.50	\$60.00

Lonicera morrowi **MORROW HONEYSUCKLE**

Tall spreading shrub which sometimes grows ten feet high and often twice as broad. Intricate flat branches with gray-green foliage, and in July a profusion of creamy white flowers, followed by scarlet berries. Grows best in sun or partial shade. Use in mixed shrubby borders, on banks and as a screen. Does well in almost any soil.

Height	Each	10	100
2 to 3 feet	\$.50	\$4.50	\$40.00
3 to 4 feet	.60	5.50	30.00

Lonicera tatarica rosea **PINK TARTARIAN HONEYSUCKLE**

A large shrub with flowers of rich rose pink, in spring. A lovely old favorite, deservedly popular for its delicate coloring and fragrant blossoms. Red fruits.

Height	Each	10	100
2 to 3 feet	\$.50	\$4.50	\$40.00
3 to 4 feet	.60	5.50	50.00

Myrica carolinensis **NORTHERN BAYBERRY**

Grows up to four feet. Clean, glossy, semi-evergreen foliage. Clusters of hundreds of small fragrant, waxy, gray berries. Does particularly well in sandy seashore soils in full sun. Used to good advantage in evergreen foundation plantings. Bayberry candles are made from the fruits.

Height	Each	10	100
2 to 3 feet	\$1.00	\$9.00	\$80.00

Philadelphus coronarius **SWEET MOCKORANGE**

A favorite in Grandmother's garden. Tall, growing upright, with clusters of intensely fragrant white flowers in May or June. Splendid for shrub borders, banks and a screen. Does best in full sun and well drained soil.

Height	Each	10	100
2 to 3 feet	\$.50	\$4.50	\$40.00
3 to 4 feet	.60	5.50	50.00

Philadelphus coronarius aureus **GOLDEN MOCKORANGE**

A compact dwarf form with golden yellow foliage. Does best in sun.

Height	Each	10	100
18 to 24 inches	\$.50	\$4.50	\$40.00

Philadelphus lemoinei **LEMOINE MOCKORANGE**

Medium sized shrub with small fragrant white flowers in June.

Height	Each	10	100
2 to 3 feet	\$.50	\$4.50	\$40.00
3 to 4 feet	.60	5.50	50.00

Philadelphus virginal **HYBRID MOCK ORANGE**

Unusually large pure white semi-double fragrant flowers in June. Valuable for cutting.

Height	Each	10	100
2 to 3 feet	\$.50	\$4.50	\$40.00
3 to 4 feet	.60	5.50	50.00

Prunus glandulosa **DOUBLE PINK FLOWERING ALMOND**

A charming old fashioned shrub with exquisite, double rose-like flowers, which cover the slender branches in great profusion in early spring. Very showy. Ideal for planting about foundations or in mixed borders. Prefers sun and good garden soil.

Height	Each	10	100
2 to 3 feet	\$.75	\$6.50	\$60.00

Prunus gland. sinensis **DOUBLE WHITE ALMOND**

A white flowering variety similar to the preceding.

Height	Each	10	100
2 to 3 feet	\$.75	\$6.50	\$60.00

Prunus triloba **FLOWERING PLUM**

Small double bright pink flowers in May, before the leaves open.

Height	Each	10	100
2 to 3 feet	\$.75	\$6.50	\$60.00

Rhamnus cathartica **BUCKTHORN**

Tall growing shrub with inconspicuous white flowers and blue-black fruit. Will thrive almost anywhere but does best in a cool, moist situation. A strong grower. Used extensively in old Colonial days as a hedge plant. Use on banks and for hedges and screens.

Height	Each	10	100
3 to 4 feet	\$.50	\$4.50	\$40.00

Spiraea Anthony Waterer **ANTHONY WATERER SPIREA**

Popular low growing shrub. Deep rose flowers in July and August. Does best in full sun and well drained soil. Use as a foreground plant.

Height	Each	10	100
12 to 18 inches	\$.40	\$3.50	\$30.00
18 to 24 inches	.50	4.50	40.00

Spiraea arguta **GARLAND SPIREA**

Very hardy and floriferous. Long sprays of white flowers in early spring. Red foliage in fall. Thrives in full sun or partial shade. Useful for hedges, foundation and mixed shrubby plantings.

Height	Each	10	100
2 to 3 feet	\$.40	\$3.50	\$32.00
3 to 4 feet	.50	4.50	40.00

Spiraea prunifolia **BRIDAL WREATH**

A graceful shrub with rosettes of small double white flowers in late May.

Height	Each	10	100
2 to 3 feet	\$.60	\$5.00	\$45.00
3 to 4 feet	.75	6.50	60.00

Spiraea trichocarpa**KOREAN SPIREA**

One of the best of the recent introductions. A compact bush of rounded habit, with drooping plumes of white blossoms. Grows six feet tall and ten feet broad. Grows best in full sun and well drained soil. Excellent for foundation and mixed shrubbery plantings.

Height	Each	10	100
2 to 3 feet	\$.50	\$4.50	\$40.00
3 to 4 feet	.60	5.50	50.00

Spiraea vanhouttei**VANHOUTTE SPIREA**

One of the finest and most useful medium sized shrubs. Long arching branches are completely covered with glorious sprays of white flowers in late May and early June. Use in full sun in foundation and border plantings.

Height	Each	10	100
2 to 3 feet	\$.40	\$3.00	\$27.00
3 to 4 feet	.50	4.50	40.00
4 to 5 feet	.60	5.50	50.00

Symphoricarpos racemosus**SNOWBERRY**

An old favorite. Medium-sized. Inconspicuous pink flowers in early summer. Large waxy white berries persist into the winter. Does well in sun or shade, dry or moist soils. Fine for foundation and mixed border planting.

Height	Each	10	100
2 to 3 feet	\$.40	\$3.60	\$32.00
3 to 4 feet	.50	4.50	40.00

Symphoricarpos vulgaris**CORALBERRY**

Dependable, medium-sized shrub with small leaves and inconspicuous flowers. In autumn the clusters of purplish red berries are very showy. Does well in sun or shade. Excellent for covering banks and for foreground of foundation and border plantings.

Height	Each	10	100
2 to 3 feet	\$.40	\$3.60	\$32.00
3 to 4 feet	.50	4.50	40.00

Syringa persica**PERSIAN LILAC**

A broad shapely bush. Grows six to seven feet tall and somewhat broader. Extraordinarily floriferous. Huge clusters of fragrant, pale rosy purple flowers arch the slender branches in May or June. Thrives in sun and any soil.

Height	Each	10	100
18 to 24 inches	\$.50	\$4.50	\$40.00
2 to 3 feet	.60	5.50	50.00

Syringa villosa**LATE LILAC**

Large, vigorous floriferous shrub with handsome pale rose, sometimes nearly white, flowers. Last of Lilacs to bloom. Thrives in moist soils and in sun. Excellent for screens and backgrounds.

Height	Each	10	100
2 to 3 feet	\$.60	\$5.50	\$50.00
3 to 4 feet	.75	6.50	60.00

Syringa vulgaris**OLD-FASHIONED LILAC**

Best known of all the Lilacs. Fragrant purple blossoms in late May. A large shrub. Best in sun and well drained soil.

Height	Each	10	100
2 to 3 feet	\$.60	\$5.50	\$50.00
3 to 4 feet	.75	6.50	60.00

*Hybrid Lilac Blossoms***Syringa vulgaris alba****WHITE LILAC**

The old-fashioned White Lilac.

Height	Each	10	100
2 to 3 feet	\$.60	\$5.50	\$50.00
3 to 4 feet	.75	6.50	60.00

HYBRID LILACS

These lilacs are very beautiful, showy and fragrant. There is wide range of color and great variation in the type of individual flowers.

Height	Each	10	100
3 to 4 feet	\$1.25	\$11.00	\$100.00

CHARLES X	Single; Reddish Purple
CONGO	Single; Deep Wine Red
LUDWIG SPAETH	Single; Dark Grape Red
MME. C. PERIER	Double; Creamy White
MME. LEMOINE	Double; Large White
PRES. GREVY	Double; Light Blue

Vaccinium corymbosum**HIGHBUSH BLUEBERRY**

Medium-sized, handsome all around shrub. Small creamy white flowers in June are followed by blue black edible fruits. Foliage brilliant red in fall. An ideal shrub for shaded foundation and border plantings. Does best in acid soil, dry or moist.

Height	Each	10	100
12 to 18 inches	\$.75	\$6.50	\$60.00
3 to 4 feet	1.00	9.00	80.00

Viburnum carlesi**MAYFLOWER VIBURNUM**

A truly wonderful medium sized shrub from Korea, prized for its exquisite fragrance similar to that of the Trailing Arbutus. The waxy flower clusters, pink in bud, pure white when open, appear early in the spring. Thrives under most usual conditions, but does best in partial shade and cool, moist soil. A charming plant for the foreground of the border or in planting about the house.

Height	Each	10	100
12 to 18 inches	\$.75	\$6.50	\$60.00
18 to 24 inches	1.00	9.00	80.00

Viburnum cassinoides**WITHE-ROD**

One of loveliest medium-sized shrubs. White flowers, yellow tinged, in June. Showy fruits change from creamy white to red and blue black. Clean foliage of good green. Thrives best in partial and full shade and in cool moist soils. Use in naturalistic plantings.

Height	Each	10	100
2 to 3 feet	\$.75	\$6.50	\$60.00
3 to 4 feet	1.00	9.50	80.00

*Spirea in full bloom***Viburnum dentatum****ARROWWOOD**

Inconspicuous white flowers are followed by beautiful blue berries. A vigorous shrub which grows in full sun or under trees. The foliage nearly toothed and prominently veined, is especially handsome.

Height	Each	10	100
2 to 3 feet	\$.50	\$4.50	\$40.00
3 to 4 feet	.60	5.50	50.00

Viburnum opulus**EUROPEAN CRANBERRYBUSH**

Large shrub with clusters of bright green leaves. Flat heads of white blossoms in May. Luscious red fruits are very showy during summer and fall. Does best in shade and cool moist soil. Use in background of shrubbery border.

Height	Each	10	100
18 to 24 inches	\$.50	\$4.50	\$40.00
2 to 3 feet	.60	5.50	50.00

Viburnum opulus sterile**SNOWBALL**

Tall vigorous shrub of old-fashioned gardens. The large round balls of white flowers in June resemble those of the Hills of Snow Hydrangea.

Height	Each	10	100
18 to 24 inches	\$.50	\$4.50	\$40.00
2 to 3 feet	.60	5.50	50.00

Viburnum tomentosum plicatum**JAPANESE SNOWBALL**

Handsome shrub of good size. More showy and cleaner foliaged than above variety. Thick, beautifully crimped leaves. Large balls of white flowers in June. For shrub border.

Height	Each	10	100
18 to 24 inches	\$.60	\$5.50	\$50.00
2 to 3 feet	.75	6.50	60.00

Weigela candida**WHITE WEIGELA**

Bell shaped white flowers in May and June.

Height	Each	10	100
18 to 24 inches	\$.50	\$4.50	\$40.00
2 to 3 feet	.60	5.50	50.00

Weigela Eva Rathke**CRIMSON WEIGELA**

Old-fashioned medium-sized shrub prized for its rich crimson-red blossoms in July. Valuable in foundation and shrubbery plantings. Does best in full sun and any well drained soil.

Height	Each	10	100
18 to 24 inches	\$.50	\$4.50	\$40.00
2 to 3 feet	.60	5.50	50.00

Weigela rosea**PINK WEIGELA**

Desirable medium-sized shrub. Lovely pink flowers in May and June. Thrives in full sun and well drained soil. Use in foundation plantings, shrub borders and for untrimmed hedges.

Height	Each	10	100
18 to 24 inches	\$.50	\$4.50	\$40.00
2 to 3 feet	.60	5.50	50.00

Weigela rosea var.**VARIEGATED WEIGELA**

Pink flowers and variegated green and white foliage.

Height	Each	10	100
18 to 24 inches	\$.50	\$4.50	\$40.00
2 to 3 feet	.60	5.50	50.00

*Privet berries**Van Houtte Spirea**Coralberry**Weigela*

For planting along streets and drives, Maples are ideal

Maples on the lawn add dignity and give gracious shade.

For Today and Tomorrow -- Plant A Tree

SHADE and FLOWERING TREES

The deciduous trees are man's steadfast friends in the "dust and heat of the day." Their great, green leaf-canopies give shade in midsummer; their buds are a joy in spring; their gorgeous foliage is the climax of autumn beauty. No home in our climate should lack its appropriate shade trees. They give the beautiful "upper story" to all the designs of flowers and evergreens. And they furnish so much real luxury in summer that they are indispensable.

Acer palmatum atropurpurea
RED-LEAVED JAPANESE MAPLE

A slow-growing dwarf variety with blood red leaves in spring and summer. Excellent for planting on the lawn.

Height	Each	10
2 to 3 feet	\$3.00	\$27.00
3 to 4 feet	5.00	45.00

Acer platanoides
NORWAY MAPLE

A large handsome tree with round spreading head of compact clean foliage. The greenish flowers in early May are quite fragrant. This is a hardwood Maple with strong firm branches that resist the wind and ice storms. Admirable for both street planting or lawn shade.

Height	Each	10
12 to 14 feet	\$3.50	\$32.50
14 to 16 feet	5.00	47.00

Extra heavy, choice specimens
14 to 16 feet 3 inch caliper \$12.00 and up
16 to 18 feet 4 inch caliper 18.00 and up
according to specimen selected

Acer plat. schwedleri
SCHWEDLER MAPLE

A large tree similar to the Norway Maple except for its purple-red foliage in spring.

Height	Each	10
8 to 10 feet	\$3.50	\$32.50

Acer rubrum
RED MAPLE

A tall spreading tree with oval crown bearing exquisite crimson blossoms in spring. The green foliage of summer becomes brilliant red in fall. A splendid lawn tree. Thrives in wet places. This is the familiar Red Maple of the New England countryside that brings the first flaming color to the autumn landscape.

Height	Each	10
6 to 8 feet	\$1.50	\$13.50
8 to 10 feet	2.00	18.00
10 to 12 feet	3.00	27.50

Acer saccharum
SUGAR MAPLE

A magnificent tall shade tree of noble proportion for lawns, groves, streets and drives. Its strong, vigorous growth, perfect health and resistance to disease make it a first choice for general planting on fine streets and avenues. The long pointed buds unfolding in the spring are unusually attractive while the leaves color rich shades of brilliant golden yellow to crimson in the fall.

Height	Each	10
8 to 10 feet	\$2.00	\$18.00
10 to 12 feet	3.00	27.50
12 to 14 feet	4.50	42.00
14 to 16 feet	6.00	57.00
16 to 18 feet	8.00	75.00

Extra heavy choice specimens
14 to 16 feet 3 inch caliper \$12.00 and up
16 to 18 feet 4 inch caliper 18.00 and up
according to specimen selected

The flowering trees are among the most exquisite of all decorative plants. Little Tree Farms shade and flowering trees are of highest quality. Favorable soil and climate and constant attention produce lusty, well-rooted plants, ready to grow into handsome big trees.

To those who prefer immediate effects we offer a splendid assortment of fine big specimens. Tell us your needs and let us quote you prices.

Betula alba
EUROPEAN WHITE BIRCH

A beautiful, white barked tree. Very striking. Makes a fine lawn specimen. The foliage, neat and small, is finely toothed and the long flowers or catkins are decorative in early spring.

Height	Each	10
12 to 14 feet	\$3.50	\$32.50

Extra heavy, choice specimens
14 to 16 feet 3 inch caliper \$8.00 and up
according to specimen selected

Betula alba laciniata
CUTLEAF WEEPING BIRCH

A graceful tree with pendulous branches and deeply serrated leaves. Exceedingly ornamental as a lawn specimen or at the water's edge.

Height	Each	10
10 to 12 feet	\$5.00	\$47.00
12 to 14 feet	6.00	57.00

Betula lenta
SWEET BIRCH

Also called Cherry or Black Birch. A hardy tree with smooth shining, reddish brown, aromatic bark.

Height	Each
Extra heavy, choice specimens	
12 to 14 feet 3 inch caliper	\$8.00 and up
according to specimen selected.	

Betula lutea
YELLOW BIRCH

The golden-ringed bark is charming. A large growing, hardy tree.

Height	Each
Extra heavy choice specimens	
12 to 14 feet 3 inch caliper	\$8.00 and up
according to specimen selected	

The Birches are always graceful and lovely.

Flowering Dogwood against a background of Evergreens.

Betula papyrifera

CANOE BIRCH

Loveliest of all the Birches, the best and longest lived of the white-barked varieties. The dark bark of young trees changes to glistening white as the trees mature. The familiar native Paper Birch used by the Indians.

Height	Each	10
12 to 14 feet	\$3.50	\$32.50
14 to 16 feet	4.50	42.00

Extra heavy choice specimens
14 to 16 feet 3 inch caliper \$8.00 and up
according to specimen selected

Catalpa bignonioides nana

UMBRELLA CATALPA

A dome-shaped crown of large leaves on a straight slim trunk. A favorite for ultra-formal effects.

Height	Each	10
4 to 6 feet 3 year heads	\$1.50	\$13.50

Chionanthus virginica

WHITE FRINGE

A lovely small rounding bush-like tree. Grows about 20 feet tall. Small white flowers in showy panicles.

Height	Each	10
3 to 4 feet	\$1.00	\$9.00

Cornus florida

FLOWERING DOGWOOD

A graceful small tree or irregular large shrub with pretty horizontal branches thickly covered with white bloom in the spring. Does well planted under other trees. Lovely for massing with evergreens, edging the woodland, lawn or border.

Height	Each	10
3 to 4 feet	\$1.50	\$13.50
4 to 5 feet	2.00	18.00
8 to 10 feet	7.00	65.00

Cornus florida rubra

RED FLOWERING DOGWOOD

Same as above with deep rose-colored flowers.

Height	Each	10
2 to 3 feet	\$2.25	\$20.00
3 to 4 feet	3.00	27.00

Crataegus oxycantha splendens

PAUL'S SCARLET THORN

A small shapely tree, up to twenty feet, with spreading crown, loaded with clusters of brilliant double flowers of exquisite carmine pink in June. Showiest of all the Hawthorns and a gem for the small lawn. The long sprays of blooms are prized for cutting.

Height	Each	10
3 to 4 feet	\$2.00	\$18.00
4 to 5 feet	2.50	22.50

Fagus americana

AMERICAN BEECH

A very beautiful stately native tree with clean smooth bark. Valuable for shade.

Height	Each	10
6 to 8 feet	\$7.50	\$72.00
8 to 10 feet	11.50	110.00

Fagus sylvatica purpurea

PURPLE BEECH

The purple leaved European Beech (Copper Beech). Beautiful as a lawn specimen.

Height	Each	10
2 to 3 feet	\$5.00	\$47.00
4 to 5 feet	9.00	87.00

Fraxinus americana

WHITE ASH

A long lived tree of much character and beauty. The smooth, straight trunk is topped by a magnificent oval crown. Tall, vigorous and rapid growing. A splendid tree for lawn, street, or forest planting.

Height	Each	10
8 to 10 feet	\$1.50	\$12.50
10 to 12 feet	2.00	18.00
14 to 16 feet	4.00	36.00

Liriodendron tulipifera

TULIP TREE

A fast growing rugged but shapely tree. Glossy leaves. Yellow tulip-like flowers in June. Grows to 60 feet or more.

Height	Each	10
8 to 10 feet	\$2.25	\$21.00

The stately White Ash is a magnificent tree for lawns and drives.

Magnolia soulangeana SAUCER MAGNOLIA

A small broad tree. In early May, saucer shaped flowers 3 to 6 inches in diameter. White and rosy purple.

Height	Each	10
2 to 3 feet	\$3.50	\$33.00
3 to 4 feet	5.00	47.00

Malus atropurpurea

PURPLELEAF CRAB

Reddish purple leaves are borne on an irregular spreading head. Single rosy pink flowers in May.

Height	Each	10
4 to 5 feet	\$1.80	\$16.00

Malus floribunda

JAPANESE FLOWERING CRAB

One of the best members of this fine family. Slender arching branches are covered in May with abundant single flowers of delicate pink. Clusters of small red fruits.

Height	Each	10
4 to 5 feet	\$1.80	\$16.00

Malus floribunda atrosanguinea

CARMINE CRAB

Similar to the Japanese Crab but flowers are deep pink to red.

Height	Each	10
4 to 5 feet	\$1.80	\$16.00

Malus kaido

KAIDO CRAB

Rosy red flowers in spring. A very beautiful small tree.

Height	Each	10
4 to 5 feet	\$1.80	\$16.00

Malus niedzwitzkyana

REDVEIN CRAB

Reddish purple leaves, flowers and large edible fruits. A strong, erect growing, small tree.

Height	Each	10
4 to 5 feet	\$1.80	\$16.00

Morus alba pendula

WEeping MULBERRY

Very graceful weeping head. Hardy.

Height	Each	10
4 to 6 foot stem 3 year head	\$2.00	\$18.00

Populus nigra italica LOMBARDY POPLAR

A very rapid growing narrow columnar tree, useful for quick screens or background accents. The tall slender columns of green are particularly effective bordering a formal drive or avenue. Plant 4 to 8 feet apart according to the thickness of the screen desired. Poplars should be planted in the spring.

Height	Each	10
8 to 10 feet	\$1.00	\$9.00
10 to 12 feet	1.50	13.50

Prunus cerasifera pissardi PURPLELEAF PLUM

A handsome small tree or large shrub of vigorous upright growth, noted for its conspicuous foliage color. The young leaves are deep crimson as they unfold changing to rich purplish maroon which persists until autumn. Splendid for color masses or as specimens on the lawn or mixed shrub border.

Height	Each	10
3 to 4 feet	\$1.00	\$9.00

Quercus bicolor SWAMP WHITE OAK

A beautiful tall tree of striking grandeur when planted in the open. Massive trunk and stout horizontal limbs. Light gray bark. Grows as well in wet as in dry soils. Fine yellow fall color. Leaves are small and round lobed.

Height	Each	10
10 to 12 feet	\$5.50	\$50.00

Quercus coccinea SCARLET OAK

There is no better Oak than this for general planting. It forms a large tree of fine proportions. The large, shining, green leaves, deeply and sharply lobed, are particularly handsome and turn to a fiery scarlet in the autumn, lighter and more brilliant in color than the Red Oak. Grows anywhere even in dry soils and at the seashore.

Height	Each	10
8 to 10 feet	\$4.50	\$40.00
10 to 12 feet	5.50	50.00

Quercus palustris PIN OAK

A charming medium size cone shaped tree, distinguished by its straight trunk, the drooping tendency of its lower limbs and its fine, sharply pointed, deeply cut leaves. Long lived, yet a very fast grower, especially in moist soils. Fall color a brilliant red. One of the easiest Oaks to transplant and deservedly a great favorite for lawn or street planting.

Height	Each	10
6 to 8 feet	\$2.75	\$25.00
8 to 10 feet	4.00	36.00
12 to 14 feet	7.00	65.00

Extra heavy, choice specimens
12 to 14 feet 3 inch caliper \$12.00 and up according to specimen selected.

Oaks make splendid street and lawn trees.

Quercus macrocarpa MOSSYCUP OAK

Very attractive as a shade or ornamental tree. Easy to transplant. Grows rapidly in a variety of soils. Has few insect enemies. One of the largest of American Oaks.

Height	Each
12 to 14 feet 3 inch caliper	\$15.00 and up
14 to 15 feet 4 inch caliper	24.00 and up according to specimen selected.

Quercus rubra RED OAK

The best all-round Oak. Grows 80 feet tall and is a stately specimen for lawn or street planting. The broad, handsome leaves (5 to 9 inches long), give splendid shade and in the fall are a rich purplish crimson. A vigorous grower, quickly developing a broad, round head. This rugged monarch grows and thrives everywhere, even at the seashore or in exposed places. A small grove of Red Oaks will bring wild life to an estate, for many birds delight in its shelter and the squirrels are attracted by its acorns. Easily transplanted.

Height	Each	10
6 to 8 feet	\$2.50	\$22.50
8 to 10 feet	4.00	36.00
10 to 12 feet	6.00	55.00
12 to 14 feet	8.00	75.00

Larger, extra heavy, choice specimens
3 to 5 inch caliper \$12.00 and up according to specimen selected.

Sorbus aucuparia MOUNTAIN ASH

A fine ornamental lawn tree with large, handsome, many pointed leaves. Grows up to thirty feet. White flowers in June. Many large showy clusters of bright orange-red berries in early fall. Conspicuous in flower and in fruit.

Height	Each	10
8 to 10 feet	\$2.00	\$18.00

Salix babylonica WEeping WILLOW

Spreading pendulous branches. Narrow pointed leaves. Particularly appropriate for planting by water.

Height	Each	10
8 to 10 feet	\$2.50	\$22.50

Tilia americana AMERICAN LINDEN

A fast growing shade or lawn tree with large, round shapely crown. The greenish yellow flowers in June are very fragrant and attractive to bees. Unusually healthy and free from insects. The Lindens are much used for formal effect on lawn or avenue. Grows to 80 feet tall. Does best in moist, but well drained soils.

Height	Each	10
8 to 10 feet	\$2.50	\$22.50
10 to 12 feet	3.00	36.00
12 to 14 feet	4.50	40.00

Extra heavy, choice specimens
12 to 14 feet 3 inch caliper \$12.00 and up
14 to 16 feet 5 inch caliper 24.00 and up according to specimen selected.

Tilia cordata LITTLELEAF EUROPEAN LINDEN

Similar to American Linden, but smaller and slower growing with small heart-shaped leaves. Excellent for shade.

Height	Each	10
8 to 10 feet	\$4.00	\$36.00
10 to 12 feet	5.00	45.00

Extra heavy, choice specimens
3 inch to 5 inch caliper \$18.00 and up according to specimen selected.

Ulmus americana AMERICAN ELM

The Queen of native American shade trees. This high arching, graceful, towering tree is known and loved everywhere for its welcome shade and beautiful form. A long lived tree, attaining over 100 feet in height. Prefers moist, but well drained soils.

Height	Each	10
6 to 8 feet	\$1.00	\$9.00

Ulmus pumila CHINESE ELM

A new Elm introduced from China where for centuries it has withstood adverse conditions of soil and climate. Remarkably free from insect pest and diseases. An extremely strong and vigorous grower. Use for a quick screen or windbreak, for lawn or street planting.

Height	Each	10
6 to 8 feet	\$1.50	\$13.50
8 to 10 feet	2.00	18.00
10 to 12 feet	3.00	36.00

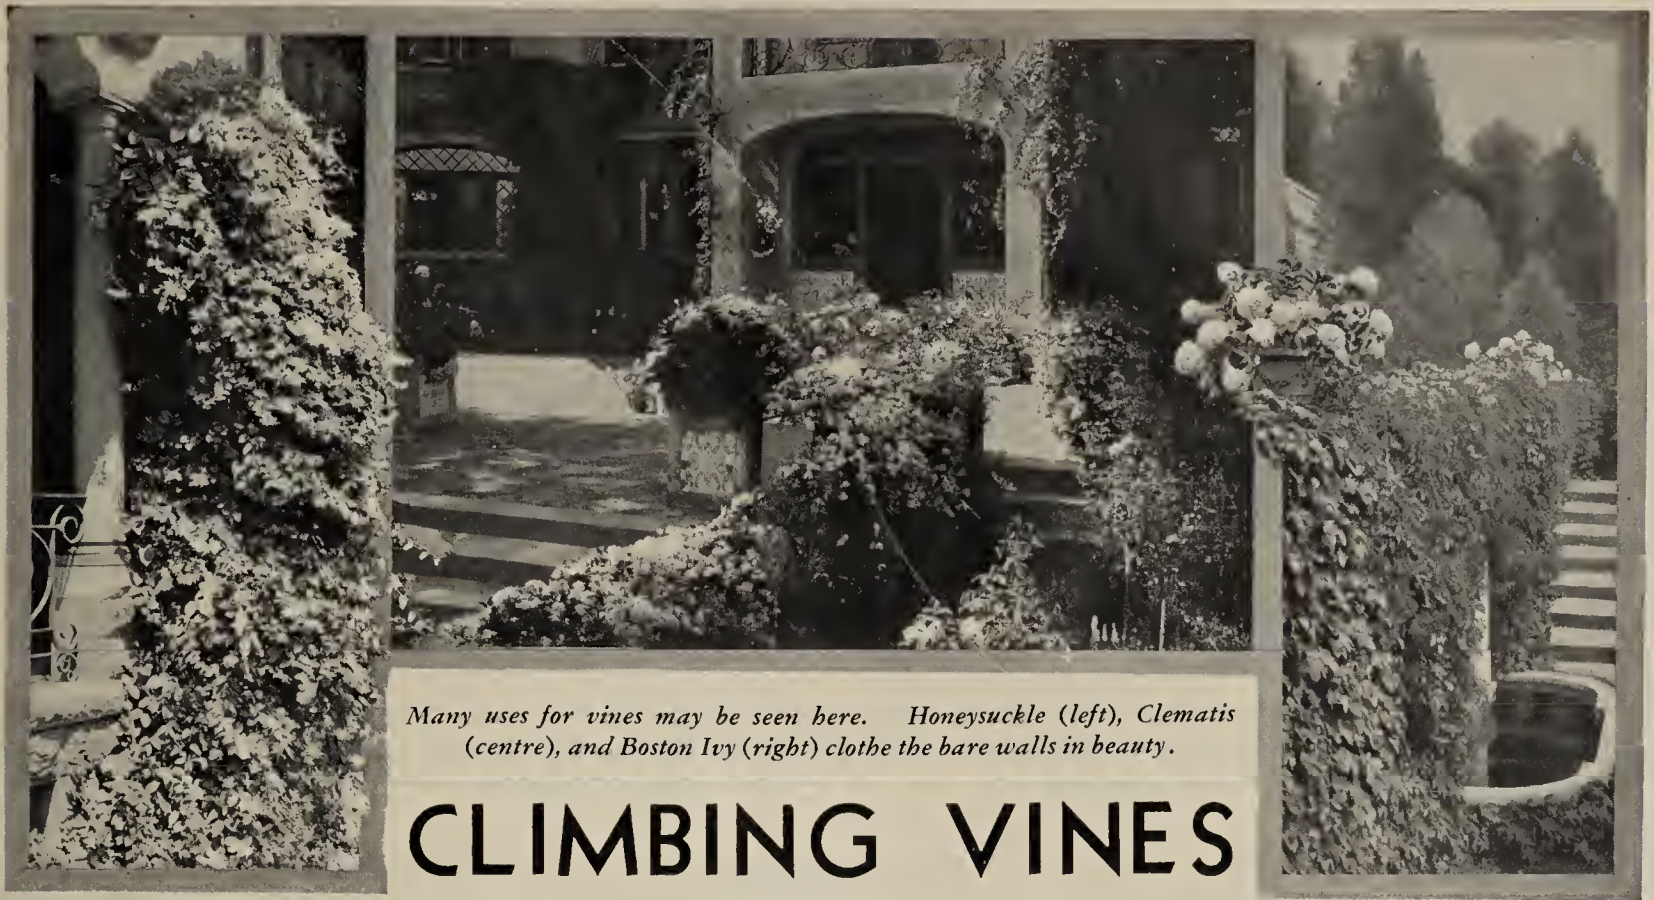

Lombardy Poplars are very useful for formal effects.

The delicate beauty of the European Linden adds distinction to this lawn.

The Elm is always graceful and dignified.

Many uses for vines may be seen here. Honeysuckle (left), Clematis (centre), and Boston Ivy (right) clothe the bare walls in beauty.

CLIMBING VINES

Be it ever so humble, or ever so small, every home has room for a vine or two, to cover a back porch or trellis, climb over an old stone wall or brick chimney, festoon a pergola, or enclose

a tennis court or service yard — to mention but a few uses. The varieties offered below are hardy and handsome. All are first quality field grown plants.

Actinidia arguta BOWER ACTINIDIA

A vigorous, strong grower with broad oval glossy leaves. In May white flowers with purple centers followed by edible yellow fruits. Excellent for covering wire fences.

Grade	Each	10
2 year	\$.75	\$ 6.00

Ampelopsis aconitifolia MONKSHOOD CREEPER

Attractive deeply cut leaves. Small white flowers followed by small blue berries.

Grade	Each	10
3 year	\$.75	\$ 6.50

Ampelopsis quinquefolia VIRGINIA CREEPER

Woodbine — A thoroughly satisfactory and vigorous vine. Brilliant foliage and heavy spray of blue berries in fall. An excellent cover for trees, rocky slopes and walls.

Grade	Each	10
2 year	\$.50	\$ 4.00

Ampelopsis tricuspidata BOSTON IVY

Japanese Creeper — The beautiful glossy foliage clings closely to walls and makes a charming barrier of green. Gorgeous fall coloring and small blue black berries. Will cling to wood, brick or stone.

Grade	Each	10
2 year	\$.50	\$ 4.00

Common to all ages and all countries is the rose, a remarkable tribute to its universal popularity. Our generation of garden makers is fortunate in the vast wealth of new material available, both in new species collected from the far corners of the world, and in the improved forms evolved through hybridizing.

The hybrid tea roses are perhaps the most beautiful. No other flowers compare with them for exquisite coloring, marvelous size, form and fragrance. They flower all summer. Our plants are all first quality, 2 year field grown stock. Our assortment contains many of the most beautiful and satisfactory varieties.

PINK

Briarcliff

Large pointed buds and very double flowers of deep rose pink, fragrant and lasting. Free flowering. Long stems.

Miss Rowena Thom

Enormous buds and blooms of brilliant, lustrous pink on long strong stems. Free flowering and vigorous.

Radiance

Brilliant rose pink buds open to well formed globular flowers of clear pink. The most popular garden rose. Easy to grow, vigorous and reliable. Free flowering. Fragrant. Splendid for both bedding and cutting.

RED

Chas. K. Douglas

An unusually fine garden rose of clear unfading color. Pointed buds open to large flowers of crimson scarlet. Abundant, healthy foliage. Strong branching growth.

E. G. Hill

Beautiful buds open into full double blooms of crimson scarlet which hold color well. A continuous bloomer. Hardy and vigorous.

Etoile de Hollande

A splendid rose generally considered the world's leading red variety. Large brilliant red blooms with enormous petals. Very fragrant. Unusually healthy and free flowering.

HYBRID PERPETUAL ROSES

These are the roses of our grandmothers. Hardy, vigorous and dependable. In June flowers are produced in one great burst of

PINK

George Arends

Long buds and pointed blooms of exquisite soft pink. Flowers large, lasting and very fragrant. Fine foliage. Blooms abundantly in June, more sparsely in summer and fall.

Mrs. John Laing

Brilliant clear pink blooms on long stems. Excellent for cutting. Fragrant. Handsome foliage. Vigorous, almost thornless plants. Profuse blooms in June, with sparser bloom in summer and fall.

Magna Charta

Profuse large double blooms of rich rosy pink. Very fragrant. Strong stiff stems. Excellent for cutting. An old favorite.

Hybrid Tea Roses

2 year No. 1 quality

5 for \$3.00

Each \$.75 50 for \$25.00

Gruss an Teplitz

The best garden rose resembles the hybrid teas in many respects and is usually so classified. Medium size double blooms of brilliant velvety crimson, shaded darker, borne in open clusters. Extremely vigorous, healthy and free flowering.

Margaret McGredy

Large oval buds and lasting double blooms of non-fading orange scarlet. Excellent light green foliage. Prolific bloomer and extremely hardy.

Red Radiance

Stout healthy plants with abundant rosy crimson blooms. Excellent foliage. Flowers till frost. Very popular.

WHITE

Kaiserin Auguste Viktoria

An indispensable white garden rose. Splendid large pointed buds of creamy white opening to perfectly formed snowy white blooms — yellow tinted at center. Fragrant.

White Killarney

Long pointed buds of snowy white. Beautiful double blossoms, large and lasting. Moderately fragrant.

RED

General Jacqueminot

The ever lovely and popular "Jack" rose. Fragrant, large shapely blooms of brilliant scarlet. Strong, bushy plants.

Ulrich Brunner

One of the best. Profuse, fragrant, blooms of bright, cherry red. Practically thornless, vigorous bushes. Excellent for cutting if bushes are pruned closely.

WHITE

Frau Karl Druschki

Universally recognized as the best white rose. Long pink tinged buds open into immense double shapely snow white flowers. A strong, vigorous grower which should be pruned relentlessly. A free and continuous bloomer.

YELLOW

Golden Dawn

Deep yellow buds. Sunflower-yellow blooms, double, and well formed. A profuse bloomer. Very beautiful.

Joanna Hill

Semi-double, clear yellow flowers, golden orange at center. Profuse and lasting blooms. Fragrant.

President Herbert Hoover

Large lasting flowers of orange-yellow with deep rose and flame flushes. Excellent for cutting. Very fragrant. Clean handsome foliage. Vigorous growth and abundant bloom.

Souvenir de Claudius Pernet

Fadeless yellow buds and large full double flowers of pure sunflower-yellow, lasting and fragrant. Strong growing plants with glossy foliage. Free blooming.

Talisman

Large well shaped double blooms in profusion. Brilliant orange yellow blended with copper and red shades. Exquisite fragrance. Vigorous and hardy. Blooms constantly during season.

NEW HYBRID TEA ROSE

LIEBESBOTE

Love's Call

A new feature in red roses. This outstanding variety has pointed crimson buds, opening slowly into shapely blooms of exceptionally beautiful velvety crimson-scarlet. Very fragrant. Very hardy, vigorous and healthy. Considered abroad the best rose of the year (1934). Introduced to New England by Little Tree Farms.

\$1.50 each

All of our Hybrid Perpetual Roses are No. 1 quality, 2 year field grown plants.

ROSES

by F. F. ROCKWELL

See descriptions and prices on page 60.

LITTLE-TREE
Selection of Hardest and Best

CLIMBING ROSES

The Hardy Climbing Roses are easy to grow and no flower produces a finer display. They bloom profusely and may be trained over walls or fences; on posts, trellises or porches; as ground covers or on banks. They deserve to be planted in large quantities. Little-Tree Climbing Roses are all 1st quality, 2 year field grown plants.

All Climbing Roses 5 for \$2.50 Each \$.60 50 for \$20.00

PINK

American Pillar

Popular. Large single flowers of beautiful rosy-pink with white eye and yellow stamen, borne in huge clusters. Profuse blooms. Superb over low fences, stone walls or trained as a pillar on upright posts. Attractive red fruit. Late.

Dr. W. Van Fleet

The very choicest pink climber. Large flowers of exquisite flesh-pink, prettily formed like tea roses, each on a long stem. Ideal for cutting. Handsome glossy foliage all season. Vigorous. Mid-season.

Dorothy Perkins

Clear shell-pink flowers slightly fragrant, borne profusely in lovely sprays. Much prized for cutting. Very hardy and vigorous. Extensively planted on banks and slopes, porches and trellises. Most popular. Late.

Mary Wallace

Long buds and beautiful large flowers of brilliant pink. Vigorous plants with excellent foliage. Fragrant. Early.

YELLOW

Emily Gray

An unusually fine golden yellow rose. Fairly large fragrant blooms are borne in small clusters. Beautiful waxy foliage. In exposed places give some winter protection. Midseason.

Primrose

Large double flowers of canary yellow borne in clusters. Beautiful foliage. Vigorous plants.

RED

Climbing American Beauty

One of the best climbers, free blooming, vigorous. Beautiful large buds and immense flowers of brilliant carmine. Fine for cutting. Fragrant. Early. Good foliage, handsome and glossy.

Excelsa

The Red Dorothy Perkins. Very similar to the old-fashioned crimson Rambler. Brilliant, scarlet-crimson blooms borne in large trusses. Vigorous. Graceful pendant habit. Abundant, glossy, disease-resistant foliage. Late.

Paul's Scarlet Climber

Finest, brightest, purest red of all the Pillar Roses. Flowers are produced freely in clusters, are semi-double with their beauty intensified by a mass of golden-yellow stamens. The color holds until the petals drop. Early.

WHITE

Purity

Large pure white flowers like tea roses are borne profusely in large sprays. A strong grower with excellent foliage. Very beautiful. Late midseason.

White Dorothy Perkins

A pure white form of Dorothy Perkins. Buds show a trace of pink and often to small double flowers of dazzling white, borne in large clusters. Very vigorous and healthy. A most valuable climber. Late.

Dr. W. Van Fleet

White Dorothy Perkins

Paul's Scarlet Climber

Primrose

POLYANTHA ROSES (Baby Ramblers)

These charming dwarf roses are extremely hardy. Rarely attaining a height of more than 2 feet, they are prolific bloomers, producing small flowers in large clusters continuously from June to October. Excellent for bedding and for edging other plantings of evergreens and shrubs. All No. 1 quality, 2 year field grown plants.

RUGOSA ROSES

These shrubby roses are the most vigorous of all rose bushes. Extremely rugged, they make excellent fillers for border and group plantings. At the seashore few plants thrive better than Rugosa roses.

Each \$.60 5 for \$2.50 50 for \$20.00

Rosa rugosa

RUGOSA ROSE

A beautiful shrub with rosy-carmine blossoms, singly or in clusters, dark, lustrous wrinkled foliage and brilliant orange-red fruits. Known in Japan as the "sea-tomato" because of its fruit and its vigorous growth under seashore conditions. Grows well anywhere. For hedges or border.

Rosa rugosa alba

WHITE RUGOSA ROSE

A variety of the above with white blossoms.

PRICES OF POLYANTHA ROSES

5 for \$2.50

Each \$.60

50 for \$20.00

PINK

Else Poulsen. Bright rose pink flowers in large branching clusters. Flowers fairly large and almost single. Vigorous, healthy plants. Use for mass plantings and low hedges.

RED

Gloria Mundi. Orange-scarlet flowers in big clusters. Very lasting. A vigorous grower.

Lady Reading. Fairly large, full blooms of bright red are borne in big clusters. Fragrant. A profuse bloomer of vigorous, bushy growth.

WHITE

Yvonne Rabier. Small, white flowers in clusters. Floriferous. Bright green, glossy foliage. Healthy and disease resistant.

OTHER ROSES

Rosa hugonis

HUGONIS ROSE

Extremely popular. Among the earliest of roses to bloom. Blooms single profuse, transforming the gracefully, arched branches into a bouquet of soft yellow. Foliage acacia-like and persistent.

Each \$.75

10 for \$6.00

Rosa setigera

PRAIRIE ROSE

A splendid, wide sprawling shrub from the middle west. Three part leaves on long, tangled arching stems. Profuse rose blooms. Lasting scarlet fruit. Unexcelled for slopes and thickets.

Each \$.60

10 for \$5.00

Rosa wichuriana

MEMORIAL ROSE

The old-fashioned trailing Wichuriana Rose. An excellent ground cover, forming a broad mat of glossy, leathery leaves. Large clusters of starry white fragrant flowers with yellow stamens. A most beautiful and popular white climber. Far superior to the old Rambler type.

Each \$.60

10 for \$5.00

Prices on this page include packing and delivery to transportation companies at Framingham, Massachusetts.

FINE FRUIT TREES

Valuable for their profusion of beautiful blossoms as well as their edible fruits, fruit trees are a real addition to the home landscape. Even the small suburban place usually has room for a few carefully chosen fruit trees and the home owner often gets big return in satisfaction for a small investment. We offer here a limited number of best time-tested varieties.

Shasta Daisies

A field of perennials in bloom is a gorgeous sight. The one pictured above is at Little Tree Farms No. 2.

Graceful Hollyhocks

LITTLE - TREE HARDY PERENNIALS

*Fresh, vigorous, strong-rooted
field grown clumps — ready to grow.*

How could we make a garden without them! Such variety of leaf and blossom, such glory of color and fragrance, first to greet us in spring, last to yield to winter's snows. Here indeed beats the steadfast heart of the garden!

Perennials are infinite in variety and range in size from tiniest plants for edgings and rock gardens to tall strong plants for borders and back-grounds. Our list includes the old-fashioned

hardy flowers of Colonial gardens and many new improved varieties. Use our vigorous, two-year old, field grown plants, just the size for successful transplanting; these "take hold" readily. For best effects plant Perennials in clumps or masses (at least three) of one kind. Perennials marked * are particularly good for Rock Gardens. See information about Perennial and Rock Gardens on pages 21 and 22.

ACHILLEA ptarmica — THE PEARL

Clusters of small double white flowers. 18 in. June to Sept. Fine for cutting. Vigorous.

tomentosa — WOOLLY YARROW

Bright yellow flowers. 6 to 8 in. July to Sept.

Crimson double flowers. 8 to 12 in. June — Aug.

***plumarius — GRASS PINK**

Old-fashioned Scotch or Garden Pink. Fragrant pink, purplish and white flowers in tufts of bluish grass-like leaves. Blooms from June through summer if flowers are cut.

***DICENTRA eximia — PLUMY BLEEDINGHEART**

Dwarf-growing. Finely cut leaves. Drooping pink flowers all summer. 1 ft.

spectabilis — BLEEDINGHEART

Rosy pink heart-shaped flowers. 2 to 3 ft. May and June.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

DICTAMUS albus ruber — PURPLE GASPLANT

Spikes of fragrant rosy pink flowers with deeper veins. June — July. 2 to 3 ft.

DIGITALIS purpurea — FOXGLOVE

Pink, purple and spotted. 2 to 4 ft. June — Aug. Erect growing biennial plants excellent for borders and gardens. Thrive in shade.

pur. alba — WHITE FOXGLOVE

Tall spikes of white flower. 2 to 4 ft. June — Aug.

pur. glox. — GLOXINIA FLOWERED FOXGLOVE

Spikes of deep purple flowers. 3 to 4 ft. June — July.

pur. glox. rosea — GLOXINIA FLOWERED FOXGLOVE

Spikes of rose-pink flowers. 3 to 4 ft. June — July.

***FILIPENDULA hexapetala — DROPWORT**

Creamy white flower plumes on slender stems. Rosettes of fern-like leaves. 1 to 2 ft. June — July.

GAILLARDIA grandiflora compacta — DWARF GAILLARDIA

A semi-dwarf variety for low borders and beds. Blended mixtures of colors of reds and yellows. 15 in. June — Oct.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

portala hybrids — BLANKET FLOWER

Brilliant coppery-scarlet, daisy-like flowers margined golden-yellow. June — Oct. 2 — 3 ft. Excellent for cutting.

Burgundy — RED GAILLARDIA

Deep wine red. Beautiful.

Ea. \$.40 3—\$1.00 10—\$3.00 100—\$25.00

Tangerine — ORANGE GAILLARDIA

A new variety. Extra large blossoms. Strikingly rich, orange tangerine color.

Ea. \$.40 3—\$1.00 10—\$3.00 100—\$25.00

The Dazzler

A beautiful blending of crimson and gold. Very handsome. Extra large shapely flowers.

Ea. \$.40 3—\$1.00 10—\$3.00 100—\$25.00

Torchlight

Golden yellow, rich maroon red centers.

Ea. \$.40 3—\$1.00 10—\$3.00 100—\$25.00

***GERANIUM sanguineum — BLOODRED CRANESBILL**

Attractive foliage. Red flowers. 1 to 1½ ft. June — Does well in shade.

***GEUM coc. Mrs. J. Bradshaw — DOUBLE SCARLET AVENS**

Red. 12 to 18 in. June to Sept. Very lovely.

***Lady Stratheden — DOUBLE YELLOW AVENS**

Large semi-double flowers of golden yellow. 2 ft. June — Sept.

GYPSOPHILA paniculata — BABYSBREATH

A broad branching bush covered with a mist of tiny white flowers in loose panicles. June — Aug. 2 to 3 ft. Prized for cutting.

pan. fl. pl. — BRISTOL FAIRY

An improved form with much larger double white flowers. June — Aug. 2 to 3 ft.

Ea. \$.40 3—\$1.00 10—\$3.00 100—\$25.00

***GYPSOPHILA repens — CREEPING GYPSOPHILA**

Beautiful trailing plants with small pink and white flowers. 6 in. June — July.

HELENIUM autumnale Riverton Beauty — RIVERTON GEM SNEEZEWEED

Large daisy-like flowers of rich lemon yellow with cone centers of dark purple. 4 to 5 ft. Aug. — Oct.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

aut. Riverton Gem

Old gold changing to bright terra cotta and mahogany red. 4 to 6 ft. Sun or shade. Aug. — Sept.

Ea. \$.30 3—\$.75 10—\$2.00 100—\$18.00

HEMEROCALLIS dumortieri — EARLY DAYLILY

Rich orange-yellow flowers which last well. 1½ to 2 ft. May — June.

For complete and reliable information about perennials read

The Book of Perennials

by ALFRED C. HOTTES

\$2.15 postpaid

See Page 60.

flava — LEMON DAYLILY

Clear lemon yellow. Fragrant. Charming for cutting. Tall stems 2 to 3 ft. May — June.

fulva — TAWNY (ORANGE) DAYLILY

Coppery orange, shaded crimson. 3 ft. July.

thunbergi — JAPANESE DAYLILY

Similar to Flava, but flowers in July. Pale yellow. 2 to 3 ft.

HEUCHERA brizoides — PINKBELLS

Abundant pale bell-like pink flowers, on slender stems. Neat rosettes of rounded evergreen leaves. 1 ft. June — Aug.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

sanguinea — CORALBELLS

Coral red blossoms like tiny bells. 12 to 18 in. June — Sept.

Rosamundi

A very strong grower. Abundant coral pink blossoms on strong stems. 15 to 18 in. June — Sept.

Ea. \$.40 3—\$1.00 10—\$3.00 100—\$25.00

HIBISCUS moscheutos Marvel Mollows — ROSE MALLOW

A showy, tall, shrubby plant with large clean leaves. Enormous single flowers. 4 to 5 ft. Aug. — Sept. Mixed colors of red, white and pink.

Each \$.30 3—\$.75 10—\$3.00 100—\$18.00

Lilac blue flowers. 1½ to 2 ft. June — July.

lan. undulata variegata — WAVYLEAF PLANTAINLILY

Variegated green and white leaves. Blue flowers. 10 — 15 in. June — July.

***HYSSOPUS officinalis — HYSSOP**

An aromatic herb. Spikes of blue flowers. June — Aug. 1 to 2 ft.

***IBERIS gibraltarica — GIBRALTAR CANDYTUFT**

Wide mats of handsome evergreen foliage. Masses of pale lilac blooms. 8 — 12 in. May — June.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

***sempervirens — EVERGREEN CANDYTUFT**

Numerous white flowers. 10 — 15 in. May.

***sempervirens — LITTLE GEM CANDYTUFT**

A dwarf form of the above. 6 in. May. Choice for edging.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

KNIPHOFIA uvaria pfitzeriana — BONFIRE TORCHLILY

RED HOT POKER — Large showy spikes of odd orange scarlet flowers. Free flowering. Invaluable for cutting. 2 to 3 ft. Aug. — Oct.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

LATHYRUS latifolius — PERENNIAL SWEET PEA

Showy clusters of pea-like flowers of mixed colors — red, white and pink. Suitable for growing on arches, fences, etc. 4 ft. July — Sept.

Crimson Avens

Grass Pink

Bleedingheart

Sweet William

Dropwort

Foxglove

lat. PINK PEARL

Large clusters of pink flowers. 4 ft. July — Sept.

*LAVANDULA officinalis —

TRUE LAVENDER

Silvery gray foliage. Rich purplish blue flowers, in dense heads. July — Aug. 6 to 12 in. Dried flowers used for scenting linens.

LIATRIS pycnostachya —

CATTAIL GAYFEATHER

(Blazing Star) Rocket-like spikes of purple flowers. 3 to 5 ft. July — Oct. Very showy. Excellent for cutting.

scariosa — GAYFEATHER

Spikes of clear purple flowers. Blooms later than the pycnostachya.

*LINUM perenne — PERENNIAL FLAX

Bright blue flowers on slender spikes. 1½ ft. May — Aug.

LOBELIA cardinalis — CARDINAL FLOWER

Fiery red blossoms. 2 to 3 ft. Aug. — Sept. Excellent for moist places.

LUPINUS Harkness Hybrids —

HYBRID LUPINE

Full spikes of pea-like flowers in a splendid variety. Mixed shades of brilliant rose, terra cotta, buff, mauve and blue. 3 to 4 ft. June — July.

Ea. \$.40 3—\$1.00 10—\$3.00 100—\$25.00

polyphyllus — WASHINGTON LUPINE

Bold, showy spikes of blue pea-shaped flowers. Clean, handsome foliage. 3 to 4 ft. June — July.

pol. albiflorus —

WHITE WASHINGTON LUPINE

Pure white flowers. 3 to 4 ft. June — July.

pol. Moerheimi — MOERHEIM LUPINE

Pink blooms. 2 ft. June — July.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

pol. rosea — PINK WASHINGTON LUPINE

Soft pink flowers. 3 to 4 ft. June — July.

LYCHNIS haageana hybrids —

HAAGE CAMPION

A splendid border and bedding plant. Orange and salmon shades. 1 to 2 ft. June — Aug.

*alpina — ARCTIC CAMPION

Compact tufts of deep green foliage with ball shaped rose pink flowers. 4 in. May — June.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

chalconica — MALTESE CROSS

One of the most brilliant old-fashioned border plants, with heads of very showy orange-scarlet flowers. 2 to 3 ft. June — Aug.

viscaria splendens — ROSE PINK CAMPION

Excellent for borders. Dense tufts of leaves with bright rose pink flowers. 12 to 18 in. June — July.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

MALVA moschata — MUSK MALLOW

Rose pink flowers. Fragrant. 1 to 2 ft. July — Sept.

MENTHA spicata — SPEARMINT

Slender spikes of purplish blooms. 1 to 2 ft. July — Aug. Used for flavoring.

MERTENSIA virginica —

VIRGINIA BLUEBELLS

One of most interesting spring flowering plants. Drooping clusters of bell-like flowers, blue and pink. 1 to 2 ft. May — June.

MONARDA didyma Cambridge Scarlet —

SCARLET BEEBALM

Brilliant red flowers. 2 ft. June — Aug.

*MYOSOTIS palustris — FORGET-ME-NOT

Bright blue blossoms. 4 to 6 in. May — July.

NEPETA cataria — CATNIP

Aromatic silvery foliage and grayish white flowers. 2 to 3 ft. July — Aug.

*NEPETA mussini — NEPETA

A broad compact mass of gray green foliage with spikes of lavender blue flowers. A continuous bloomer. 8 to 12 in. May — Sept.

Ea. \$.30 3—\$.75 10—\$2.00 100—\$18.00

OENOTHERA fraseri — FRASER SUNDROPS

Pale yellow flowers on 12 in. stems. June — Oct.

fruticosa major

A strong growing bushy plant. Profuse deep yellow flowers. 2 ft. June — Sept.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

fruticosa youngi — YOUNG'S SUNDROPS

Lemon-yellow flowers. Firm, shiny foliage. Very vigorous. 2 ft. June — Aug.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

*PAPAVER alpinum — ALPINE POPPY

Graceful blossoms in delicate tints of yellow, orange, white and pink. 6 in. May — Oct.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

*nudicaule — ICELAND POPPY

Lovely dwarf plants for sunny borders and rockeries. Flowers come on long wiry stems and have graceful crinkled petals. Lasting when cut. 1 ft. May — Sept.

*nudicaule — COONARIA PINKS

An excellent strain containing selected pink and rose tints. Very fine.

Ea. \$.40 3—\$1.00 10—\$3.00 100—\$25.00

*nudicaule — EL MONTE

Giant blossoms of deep burnt orange.

Ea. \$.40 3—\$1.00 10—\$3.00 100—\$25.00

*nudicaule — GARTREF ART SHADES

A reselected range of art shades; shell pink, creamy yellow, amber to apricot coloring and many dual tones. The beauty is accentuated by a deep contrasting border at tip of petals.

Each \$.50 3—\$1.40 10—\$4.00

orientale — ORIENTAL POPPY

One of the most striking garden plants. Unsurpassed for gorgeous display of rich and brilliant color. Large blossoms. 3 to 3½ ft. May — June. Free blooming. Valuable for cutting.

orientale — MAHONEY

Deep maroon shaded with crimson.

Each \$.50 3—\$1.40 10—\$4.00

orientale — MRS. PERRY

Delicate orange apricot with shining black blotches. The best of the "pink" poppies. 3 ft.

Ea. \$.40 3—\$1.00 10—\$3.00 100—\$25.00

orientale — QUEEN ALEXANDRA

Clear rose pink. 2 ft.

Ea. \$.40 3—\$1.00 10—\$3.00 100—\$25.00

orientale — REMBRANDT

Large orange scarlet flowers.

Each \$.50 3—\$1.40 10—\$4.00

orientale — SALMON QUEEN

Vivid shades of rich salmon pink.

PENTSTEMON torreyi — BEARD TONGUE

Tall spikes of scarlet flowers. 4 ft. June — Aug.

PHYSALIS francheti —

LANTERN GROUNDCHERRY

Chinese Lantern — Small white flowers in July — Aug. followed by bright orange-scarlet, lantern-like fruits. Excellent for cutting. 1 to 2 ft.

PHYSOSTEGIA virginiana —

FALSE DRAGONHEAD

Large clumps 3 to 4 ft. with long spikes of pink flowers. July — Sept.

virginiana grandiflora Vivid —

DWARF FALSE DRAGONHEAD

A new low growing variety, 15 to 20 in., with larger flowers. Deep pink. Lasts well when cut. Aug. — Oct.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

*PRIMULA polyantha — PRIMROSE

Pretty rosettes of green leaves with large clusters of single flowers. 6 to 12 in. May — June. Crimson, white, and yellow.

*polyantha Munstead strain

A fine strain with a wide range of beautiful colors from pure white to deep orange. 6 to 12 in. May — June.

Ea. \$.40 3—\$1.00 10—\$3.00 100—\$25.00

Similar to above but has variegated leaves.
- *stoloniferum — RUNNING STONECROP**
Evergreen leaves. Trailing habit. Pink flowers. 4 in. July — Aug.
- *stol. coccineum — SCARLET RUNNING STONECROP**
A form of above with red foliage and red flowers.
- *SEMPERVIVUM arachnoideum — SPIDERWEB HOUSELEEK**
Rosettes of thick red-pink leaves. Webbed white centers. Pink flowers. 4 to 8 in.
- *blandum (brauni)**
Bronze rosettes reddish at tips of leaves. 6 in. Flowers. Yellow.
- *globiferum — GLOBE HOUSELEEK**
Flattened rosettes of gray green leaves tipped brown. Pale yellow flowers in hairy panicles. 12 in.
- *soboliferum — HEN AND CHICKENS**
Broad rosettes of leaves. Light yellow flowers.
- *THYMUS citriodorus — LEMON THYME**
Lemon scented evergreen foliage. Pink flowers. 4 to 6 in. July — Aug.

- *citriodorus argenteus — SILVER LEMON THYME**
Dwarf, sub-shrubby. Fragrant, variegated foliage and lilac flowers. 4 to 6 in.

- *serpyllum album — WHITE THYME**
Creeping habit. Excellent for carpeting or planting between stepping stones and in rock walls. White flowers. 2 in. June — July.

- *serpyllum coccineus — CRIMSON THYME**
Foliage bronze in fall and winter. 2 in. Crimson flowers. June — July.

- *serpyllum lanuginosus — WOOLLY THYME**
Fragrant gray woolly foliage. Lavender pink flowers. 3 to 4 in. July — Aug.

- TROLLIUS asiaticus — SIBERIAN GLOBEFLOWER**

- Globular, butter-cup like flowers on long stems. Attractive glossy dark green foliage. Orange. 12 to 18 in. May — June.

- Ea. \$.40 3—\$1.00 10—\$3.00 100—\$25.00

- europaeus — GLOBEFLOWER**

- Similar to above but flowers are lemon yellow. May — Aug.

- eur. Eleanor — ELEANOR GLOBEFLOWER**
Clear yellow. 18 in. May — Aug.

- Ea. \$.40 3—\$1.00 10—\$3.00 100—\$25.00

- eur. Orange Globe**

- Beautiful orange blossoms. 1 to 2 ft. June — Aug.
Each \$.50 3—\$1.40 10—\$4.00

- TROLLIUS ledebouri — LEDEBOUR GLOBEFLOWER**

- Flowers are very deep orange. 1½ — 3 ft. July — Sept.

- Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

- led. Golden Queen**

- Extra large globular flowers of golden yellow. June — October. 2 to 3 ft.

- Each \$.50 3—\$1.40 10—\$4.00

- VALERIANA officinalis — GARDEN HELIOTROPE**

- Showy heads of rose tinted white flowers with strong heliotrope odor. 3 to 4 ft. June — July.

- *VERONICA erica — HEATHER SPEEDWELL**
Heatherlike with delicate pink flowers. 8 to 12 in. June — July.

- Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

- *longifolia subsessilis —**

- CLUMP SPEEDWELL**

- One of the finest Speedwells. Very decorative and especially hardy. Long curving full spikes of brilliant deep blue blossoms. Fine for cutting. 2 ft. July — Sept.

- Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

- *rupestris — ROCK SPEEDWELL**

- An excellent dwarf plant with thickly matted deep green foliage. Bright blue flowers in June. 3 to 4 in.

A Superior Collection of LITTLE-TREE PEONIES

Standard Peonies

The varieties listed here include some of the best of the more recent developments as well as an excellent selection of time tested favorites.

Avalanche \$1.00

Large compact crown. Ivory white with center tinged lilac white. Center petals often edged crimson. Excellent for cutting. Late.

Baroness Schroeder \$1.00

Large rose type. Flesh white fading to milk white. Very fragrant. Free blooming and vigorous. Midseason.

Couronne D'Or \$.75

Semi-rose type. Large white flowers with center petals sometimes carmine tipped. Free blooming. Late.

Edulis superba \$.75

Large loose flat crown. Bright mauve pink with a few narrow lilac petals. Fragrant and lasting. Early.

Felix Crousse \$1.00

Brilliant red globular flowers of medium to large size. Fragrant. Midseason.

Grover Cleveland \$1.50

Very large rose type. Dark crimson. A strong vigorous grower. Late.

Karl Rosenfield \$1.00

Semi-rose type, compact and globular. Dark crimson, brilliant and striking. Strong, tall grower and free bloomer. Midseason.

Loveliness \$2.00

Flat rose type with large hydrangea pink blooms changing to lilac-white. Fragrant. Midseason.

Mme. Bucquet \$.75

Semi-rose type. Large, rich, velvety crimson flowers. Free blooming. Midseason.

Mary Brand \$1.50

Large flowers. Vivid and brilliant crimson with silky sheen. Free blooming. An excellent red.

Masterpiece \$1.00

Semi-rose type. Medium sized. Brilliant Tyrian rose. Fragrant. Tall growing and free blooming. Midseason.

Peonies are among the hardiest and most easily grown of the perennials. They will thrive and bloom for twenty years without disturbance, while most of the varieties last a long time when used as cut flowers. Plant in a good moist soil that gets plenty of sunlight. Our plants are strong 3 to 5 eye divisions.

Mons. Bastien Le Page \$1.00

Large globular flowers. Pure mauve pink with silvery reflex. Very fragrant. Tall strong plants. Midseason.

Mons. Jules Elie \$1.00

Large bomb type. Glossy lilac pink with deeper shade at base of petals. Very attractive. Midseason.

Mons. Martin Cahuzac \$2.00

Semi-rose type. Medium size. Very dark purple garnet, almost black. Free blooming. Early midseason.

Sarah Bernhardt \$1.50

Compact semi-rose type. Very large full double flowers in huge clusters. Apple-blossom pink with petals silvery tipped. Very handsome. Fragrant. Late.

Offer A-24 \$2.50

Big Value Collection

10 Choice Peonies of standard types, good roots of fine varieties — not labeled.

Order by name and number, with remittance.

Planting Peonies

If you want the best flowers plant your peonies in carefully prepared soil and keep them well cultivated and fertilized. Bone Meal (see page 64) and wood ashes are excellent. Plant three feet apart, with the eyes two inches below the surface. Too deep planting may prevent flowering.

Single Peonies

This interesting group includes the exquisite single types which have become so popular during recent years. If you know these lovely flowers you'll want some. If you are not acquainted, get an introduction now.

Darkness \$1.00

Large. Very dark maroon with darker markings on lower part of petals. Golden stamens.

L'Etincelante \$1.00

Cup-shaped flowers with broad petals of rich clear carmine edged with silver. Unusually fine.

Le Jour \$2.00

Large pure white blossoms. An exceptional fine single peony.

Marguerite Dessert \$2.00

Large pure white blossoms splashed with carmine. An exquisite variety.

Maugus \$2.00

Pink petals with wide silvery borders. Beautiful.

Mrs. Key \$1.00

Bright satiny crimson. Very beautiful.

Offer A-25 \$8.25

Regal Collection

6 Choice Single Peonies
1 each of the very beautiful single peonies listed on this page. All strong healthy roots.

Order by name and number, with remittance.

Offer A-26 \$3.25

on cash orders amounting to \$10.00 or more selected from the regular listings on this page. This offer does not apply to the Special numbered offers.

*Iris makes a lovely border.**Iris Gold Bound.**Iris Loreley.**Phlox — the glory of Summer Gardens.**Little-Tree Selections of***IRIS and PHLOX****IRIS**

IRIS, the "Lilies" of France and the "Flags" of our grandmothers, are among the most satisfactory of garden plants. Very floriferous and with a wide range of colors, they combine especially well with Peonies and other perennials in long beds or borders along fences, walls or pathways. They require little care and multiply rapidly. Divide and transplant every 3 or 4 years.

In addition to the many fine German Iris a few choice Japanese and Siberian varieties are listed.

German Iris
(*Iris germanica*)

"S" signifies standards or upright petals; "F" falls or drooping petals.

Each \$.25 3—\$.60 10—\$1.60 100—\$14.00

Albert Victor

S, soft blue; F, lavender. Large and handsome. 3 ft.

Florentina

Creamy white, lavender flushed. Fragrant. Excellent for cutting. Flowers early. 2 ft.

Hiawatha

S, pale rose, lavender flushed; F, royal purple.

Loreley

S, pale yellow; F, deep blue margined creamy white. 2½ ft.

Nibelungen

S, deep olive buff; F, velvety violet with bronze margin. Rampant grower. 2½ ft.

Pallida Dalmatica

S, clear lavender-blue; F, deeper lavender, silvery blue at base. Sweetly scented.

Perfection

S, light blue with deeper flushes; F, deep violet purple with creamy orange beard. 3 ft.

Queen of May

S and F, lilac pink. Very beautiful. 2½ ft.

Rhein Nixe

S, pure white; F, deep violet blue with white margin. 3 ft.

Japanese Iris
(*Iris kaempferi*)

Narrow foliage and large flat flowers. July — 3 ft.
Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

Gold Bound

Large pure white, yellow center. Double.

Koko-no-Iro

Purple and gold. Rich violet purple, golden throat. Large double. Very brilliant.

Dwarf Iris
(*Iris pumila*)

A lovely dwarf iris which grows about 4 in. in height. April — May.

Each \$.25 3—\$.60 10—\$1.60 100—\$14.00

Mixed Purple, White and Yellow

Suitable for rock gardens and edging other plantings.

Siberian Iris
(*Iris sibirica*)

Narrow grass-like foliage. Flowers smaller than German Iris.

Each \$.25 3—\$.60 10—\$1.60 100—\$14.00

Blue King

Handsome, clear blue flowers on tall stems. June. Excellent for cutting.

Snow Queen

Large ivory white flowers with distinct orange marking on throat. Unusually beautiful. Good for cutting. June.

DWARF PHLOX

An early spring flowering plant with moss-like foliage practically evergreen. Masses of bloom in April and May. Excellent for rock gardens, borders and carpeting for graves. Varieties marked * are suitable for rock gardens.

Each \$.25 3—\$.60 10—\$1.60 100—\$14.00
except as noted

***PHLOX subulata Apple Blossom — MOSS PINK**

Pale silvery pink. Most popular. 4 in.

***Atropur purea**

One of the newer varieties. A deep purple red.

***Blue Hill**

A rich blue. Very popular 4 to 5 in.

***G. F. Wilson**

Soft lavender blue. Grows slightly taller than Blue Hill. 6 in.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

***Lilacinia**

An old favorite. Pale lilac-blue. 6 to 8 in.

***Rosea**

Bright rose pink. Fine for covering banks.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

***Rochester**

Deep red variety. Should be in every garden.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

***Vivid**

Brightest pink with fiery eye. Very choice. 3 in.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

***PHLOX amoena — AMOENA PHLOX**

Dense masses of bright pink flowers. 4 to 5 in. May — June.

divaricata — BLUE PHLOX

Lilac blue flowers on plants 1 ft. tall. May — June.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

div. ovata — MOUNTAIN PHLOX

Rosy red blooms. 1 ft. tall. June — July.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

HARDY PHLOX
(*Phlox paniculata*)

Showiest and most popular hardy perennial for late summer and early fall bloom. Easy to grow. We offer a good range of colors.

1½ to 3 ft. Aug. — Sept.

Each \$.25 3—\$.60 10—\$1.60 100—\$14.00
except as noted

Antonin Mercier

Delicate lilac blue with large white eye. Free flowering. Medium height.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

Beacon

Brilliant cherry red. Medium sized flowers in compact clusters. Excellent. 2½ ft.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

Eclairer

Large bright carmine with salmon pink eye.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

Elizabeth Campbell

Salmon pink shading lighter toward center. 2 ft.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

Mrs. Jenkins

Flowers large, pure white; one of the best white varieties. Late flowering. Medium height.

Mrs. Milly Von Hoboken

Soft pink with silvery reverse, carmine eye.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

Ea. \$.30 3—\$.75 10—\$2.00 100—\$18.00

Riverton Jewel

Mauve rose with red eye.

Thor

Ruddy salmon, aniline red eye. Large flowers. Profuse bloomer.

Each \$.30 3—\$.75 10—\$2.00 100—\$18.00

Mixed Colors, Pink and White

A good assortment

Little-Tree GLADIOLI and DAHLIAS

A Gorgeous Array of Colorful Bloom.

Gladioli

Those who want the best gladioli — of finest form and most exquisite colors, will be delighted with the excellent collection of prize winning varieties offered here. These are "cream of the crop", many of them from prize winning strains, which have won awards in England and America. Though these newer varieties represent a distinct advance over many older types, we offer you first quality blooming size bulbs of these exceptional kinds at no more than is regularly charged for ordinary varieties.

Plant bulbs 5 to 6 inches deep and 3 to 4 inches apart. For a succession of blooms all summer, plant at intervals of 10 days from mid-April to late June. Bulbs flower approximately 65 to 80 days after planting.

	Doz.	100

A Little Book of Climbing Plants

By Alfred C. Hottes. An unusually complete book on climbers, ground covers and creepers. Numerous lists of different plants for various purposes.

250 pages 5 x 7½; 80 illustrations. \$2.00

Little-Tree LAWNS

Famous for Beauty
and Permanence

LITTLE-TREE GRASS SEED MIXTURES

Insure a Splendid Lawn Almost Anywhere

Little-Tree mixtures are the products of years of ripe experience and experimentation in the production of fine lawns for every purpose. Through scientific study of the various grasses from the standpoint of virility, smoothness, color, adaptability to various soils and condi-

tions, and precise blending, we have achieved as near perfect mixtures as human skill, knowledge and experience can make possible.

Though a beautiful lawn is of inestimable value, the cost of the seed is trivial. When one considers the time and effort spent in grading and preparing the soil for a fine lawn, it is evident that a cheap mixture is poor economy and apt

to prove most expensive in the end. The prices below are very reasonable for mixtures of highest quality. We recommend them to you unreservedly, sure that you will obtain maximum satisfaction. One pound will plant 300 to 400 square feet.

Little-Tree VELVET LAWN GRASS SEED

Those who want the very finest lawn that can be made will choose this mixture. The choicest perennial varieties obtainable are blended with creeping bent and the result is a mixture that produces a surpassingly beautiful lawn of deep green closely matted turf, unusually rich and velvety. No weeds, chaff or inert matter in this highest quality, plump selected seed.

1 lb.	\$.55	5 lbs.	\$2.65
3 lbs.	1.60	25 lbs.	12.00
		50 lbs.	\$21.50

PURE CREEPING BENT (Scott's)

Not a mixture but the genuine pure seed. Particularly recommended for re-seeding established lawns to improve their texture. One pound sizes in cellophane packages. Complete directions in each package.

1 lb.	\$1.65	3 lbs.	\$4.70
		10 lbs.	\$15.00

WHITE DUTCH CLOVER (Scott's)

Imported seed of select quality. Does not contain the numerous weed seeds generally present in clover. Clover usually stays green during drought. Packaged in attractive cloth bags with directions in each.

½ lb. imported quality	\$.35
1 lb. imported quality	.60

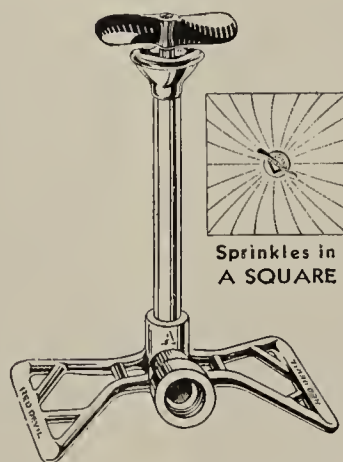

LAWN FOODS

See page 64 for descriptions of various high quality fertilizers.

For Shaded Lawns use Little-Tree Shady Mixture Spot.

RED DEVIL LAWN SPRINKLER

A sturdy sprinkler 10 inches high with solid brass head which distributes water uniformly (coverage 3 to 35 feet square) in a natural rainlike spray. ¾ inch hose connection.

Ready to use \$1.25

Little-Tree SHADY SPOT GRASS SEED

The shady spot, where the grass looks sick and sparse, may have a charming velvety green carpet. Just use the right grass seed mixture plump vigorous seeds scientifically selected from domestic and imported varieties to give satisfactory results in fairly dense shade.

This is a "sure fire" mixture for all shady spots except in the deepest shade, as under evergreens, where no grass can possibly survive.

1 lb.	\$.70	3 lbs.	\$2.00
		25 lbs.	\$15.50

SCOTT'S LAWN SEED

A fine general purpose mixture containing deep-rooting perennial grasses with Creeping Bent. Does not contain Clover. Weed free. Scott's seeds are famous for high quality. One and three pound sizes in canisters. Larger sizes in bright orange bags. Complete directions in each package.

1 lb.	\$.60	10 lbs.	\$5.25
3 lbs.	1.75	25 lbs.	12.50
5 lbs.	2.75	50 lbs.	22.50

SCOTT'S SHADE MIXTURE

A carefully prepared combination of shade tolerant grasses including three essential imported varieties. Produces lasting turf in shaded locations. Weed free. One pound sizes in canisters. Larger sizes in bright orange bags. Complete directions in each package.

1 lb.	\$.75	10 lbs.	\$6.75
3 lbs.	2.15	25 lbs.	16.25
5 lbs.	3.50	50 lbs.	30.00

GOOD BOOKS ABOUT LAWNS

INVITE THE BIRDS to YOUR GARDEN

Wren House No. B-30 (above right)

An attractive home of simple yet pleasing design. It is made entirely of southern cypress stained a soft brown. The bottom may be opened by simply loosening two brass screws. Size: $6\frac{1}{2} \times 7\frac{1}{2} \times 7\frac{1}{2}$ inches. Shipping weight, 3 lbs. \$1.00

Combination Shelter

No. B-110

This shelter serves as a feeding station in winter. Remove the wire food basket in spring and the robins will nest in the shelter. Made

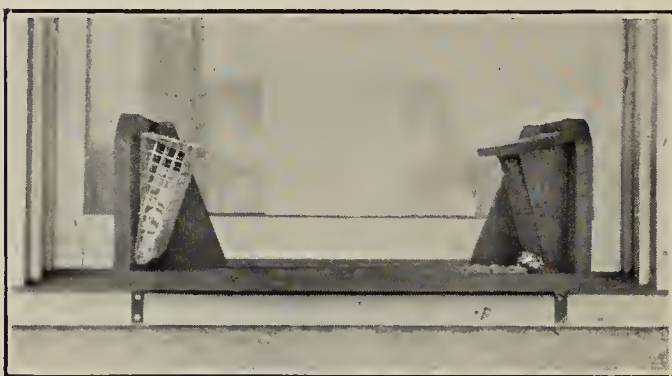

of cypress and rustic hemlock. Size: 10 x 10 x 8 inches. Shipping weight 6 lbs. \$2.25

Rustic Suet Feeder No. B-105

For feeding suet or other solid foods this rustic holder is very practical. The food is slipped into the basket through the opening under the roof. Constructed of rustic hemlock and cypress. Size 10 x 9 x 3 inches. Shipping weight 3 lbs. \$1.50

Welcome the birds to your garden and encourage them to make it their home. They will delight you with their joy of living, their constant motion, flashing colors and sweet songs. If you but furnish them with comfortable quarters, a quiet place to build or bathe or find their food, they will soon become your friends and you will look for them each day. Place these bird houses and bird baths in secluded spots free from interruption and safe from marauding cats. The birds will soon find them.

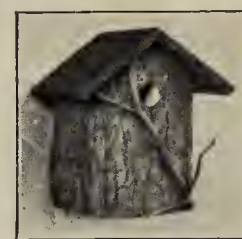

Window Feeder No. B-111

If you are already feeding birds in your garden, you will find more pleasure in attracting them to your window. This feeder is designed for mounting on the sill. The wire suet basket and the seed hopper are removable and may be taken inside to be filled. The feeder is made of durable cypress. Brackets for mounting are included. Length 22 inches. Width 8 inches. Shipping weight 10 lbs. \$3.00

Rustic Bird Houses

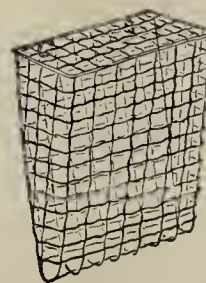

Attractive and well made rustic cedar houses — each designed especially for its prospective tenant.

No. P-62	left	Bluebird	\$1.75
No. P-60	centre	Robin	1.75
No. P-61	right	Wren	1.75
			All 3 for \$5.00

Wren House No. B-2

A rustic wren home designed to be fastened against the trunk of a tree. Three sides are of winter cut hemlock and the roof, flat back panel, and bottom are of southern cypress. An ornamental twig is attached to the front. The roof is removable. Size: $9\frac{1}{2} \times 8 \times 6$ inches. Shipping weight 4 lbs. \$2.10

Food Basket No. B-114

For feeding suet or other solid foods, this little wire basket is very convenient. It may be easily fastened to tree trunk, fence or window frame. Several placed about your grounds will prove a boon to the birds. They peck the food through the half inch meshes. Size: $6 \times 4\frac{1}{2} \times 2$ inches. Shipping weight 1 lb. 40c each — 3 for \$1.00

Bird Bath G-654

A beautiful bath of unique design which will add to the appearance of your lawn or garden. Made of stony gray terra cotta. 32 inches high, 23 inches wide; 12 inch base. \$23.50

Without festoon
\$22.50

Bird Bath G-663

One of our most popular baths. Very good looking. Gray terra cotta. 22 in. high, $19\frac{1}{2}$ in. wide. 10 in. base. \$7.50

Bird Bath G-518

A very lovely low bath. Charming in a rock garden. Gray terra cotta. 11 in. high; 23 in. wide; 14 in. base. \$14.50

Bird Bath G-372

A handsome bath of gray terra cotta. Suitable for the finest estate. 31 in. high; 23 in. wide. \$18.50

Wild Bird Cake

A balanced bird food containing many varieties of the seeds, grains and berries most attractive to and valuable for birds. These are molded with suet into appetizing cakes. The cakes fit in wire mesh in various feeders shown on this page.

30c each cake — 3 for 75c

Wild Bird Food

A superior mixture of clean whole seeds preferred by the birds. 5 lb. bag \$.65

Important

In ordering be sure to state whether bird bath is to be connected with plumbing. Otherwise bowl will be sent without hole. All birds baths shipped f.o.b. factory, (Pennsylvania).

See the complete line of bird houses and bird baths at Little Tree Farms' Garden Store in Framingham Centre, Massachusetts.

Bird Houses from \$1.00 up
Bird Baths from \$2.45 up

CANARIES

A new department in our Garden Store. A very choice collection of rare birds raised in this locality. Unusually hardy birds — all exceptional singers. Hear them sing and select your favorite. Reasonably priced according to kind.

**Starfish Child I-147**

A most intriguing little fountain for the small intimate pool. From each corner of the starfish fine streams of water play upon the central figure. In unglazed buff terra cotta, piped complete. Height 29 inches, width of base 21 inches. Crated weight 100 lbs. \$65.00

**Crane I-13**

An unusual fountain of simple lines which well suits a quiet pool. Height 24 inches, base 8 inches. Blue glazed terra cotta. \$23.50 Buff unglazed. Crated weight 20 lbs. \$15.00

**Fish Boy I-3**

This little fellow with his big catch is an interesting addition to the garden pool. Made of light gray brown terra cotta. 22 inches tall, 8 inches wide at the base. Crated weight 40 lbs. \$25.00

**Fountain Bowl G-563**

Light gray terra cotta. 37 in. wide; 17 in. high. \$65.00

Fountain Figure G-304

Laughing child holding goose. 21 in. tall. Gray terra cotta. \$25.00

Fountain G-399

Bowl G-653, illustrated above, on beautiful base (not illustrated), with festoons and fish in bas relief. Bowl and base 37 in. (Figure extra). \$100.00

WATER GARDENING — A Fascinating Hobby

The introduction of water will add life and interest to your garden and increase greatly your enjoyment. Whether it be a simple tub of Water Lilies, the sparkling motion of a fountain playing, or the reflection of Lily Pads and grasses in a quiet pool, water

has a peculiar charm of its own.

The fountains and fountain figures on this page have been selected with great care from many kinds available. You may see these and many others equally attractive at Little Tree Farms in Framingham Centre.

The Water Lilies listed below are a few of the brightest gems of this charming family. All are hardy varieties of rare loveliness. We offer dormant tubers for you to plant, or boxed Lilies all ready to set in your pool.

PINK

Morning Glory

As the name implies, the lily opens in early morning. Charming flowers of delicate pink. Robust and free flowering. Blooms for a long season.

Boxed \$3.35 Tubers \$2.35

Pink Opal

Lovely deep pink blossoms like shallow cups. Hardy and dependable.

Boxed \$2.35 Tubers \$1.50

RED

Gloriosa

A glorious lily of unrivalled beauty. Lasting deep claret red blossoms from May until fall. A profuse and constant bloomer. Ideal for cutting.

Boxed \$2.85 Tubers \$2.00

Sultan

Beautiful rose red deepening to cherry toward the heart. Large flowers are produced freely. Our biggest value.

Boxed \$2.35 Tubers \$1.50

WHITE

Gladstone

Finest and largest of white lilies. Often called "White King". Blossoms of gleaming white with yellow stamens are often 6 to 8 in. across. A good bloomer.

Boxed \$2.35 Tubers \$1.50

Gonnere

A very pure white. Free blooming. Flowers are so double they look like snowballs.

Boxed \$3.35 Tubers \$2.50

YELLOW

Chromatella

A very handsome and indispensable yellow lily. Canary yellow petals cupping deeper yellow stamens, blotched brown and maroon. Glossy green foliage.

Boxed \$2.35 Tubers \$1.50

Sunrise

Largest and earliest of the hardy lilies. Marvelous flowers of vivid yellow with lemon stamens. Exceptionally beautiful and fragrant. Foliage deep green above, red flecked brown on underside.

Boxed \$3.35 Tubers \$2.50

**Well Head I-88**

A lovely terra cotta garden piece, following the Italian style and well suited to the formal garden, patio or terrace. Height 24 inches, diameter 36 inches. Octagon base 6 inches high. Unglazed light brown terra cotta. Complete with base. Crated weight 700 lbs. \$100.00

Floral Lawn Sprinklers

Very decorative as well as useful. Made of brass and copper painted exquisite colors. Ready to attach to hose. Pointed end, not shown in illustration, to stick in ground. Spray comes from center of flower. An unusually acceptable gift for the garden lover who likes something different.

Design	Color	Price
Lily	Yellow, Pink or Violet	\$3.00 each
Tulip	Yellow or Pink	\$3.50 each
Rose	Yellow	\$4.00 each

**Wall Fountain GM-78**

Designed especially for the more elaborate garden. Glazed finish in rose pink, green or turquoise. 36 in. high. Top width 17 in. Bowl width 26 1/2 in. \$63.00

TO HELP YOU HAVE BETTER LAWNS AND GARDENS

Soil Conditioners and Plant Foods

PEAT MOSS

Adds Humus to Your Soil

Peat Moss, a highly absorbent moisture retaining material, weed and fungus free, contributes largely to the humus forming qualities in the soil. Ours is the finest quality sphagnum peat and capable of absorbing ten to fifteen times its own weight in moisture.

Soil Conditioner

As a soil conditioner Peat Moss is indispensable. It makes clay soils open and porous so that water and air can penetrate more freely, thus preventing drying and hardening, and making plant food in the soil available. It makes loose sandy soils more compact and better able to hold moisture and soluble fertilizer.

Peat Moss should be used in the planting of every evergreen. In ordinary soils use one-third peat moss and two-thirds soil by volume, mixing the soil and peat moss thoroughly. Use peat moss also in making lawns, flower beds, in planting rose bushes, shrubs and trees.

Mulch

There is no better material for mulching gardens, evergreens and other plants. It keeps out extreme heat and cold and helps the soil to hold moisture.

Mulch all evergreen plantings three inches deep with peat moss. As a mulch it conserves moisture; prevents freezing and thawing of the soil, which breaks and destroys feeding roots; keeps down weed growth; and improves the appearance of the evergreen beds. Leave the peat moss on the beds winter and summer. Bulbs come up through it.

Peat Moss is clean, odorless and easy to handle. It discourages the growth of weeds and helps root growth.

We offer fine quality imported moss, compressed in bales of approximately 180 lbs. (varies with atmospheric conditions). As a mulch one bale covers 80 sq. ft. three inches deep.

Standard bale	each \$4.00
½ bale	2.25
Large bag	.50

Lots of 5 bales or over, \$3.50 per bale.

ADSCO

Convert your farm and garden waste into real manure. Mix Adco with leaves, weeds, straw, cornstalks, etc. and obtain a weed free fertilizer, rich, sanitary, odorless. The process is very simple. Directions with each package.

25 lb. bag	\$2.25
------------	--------

Enough for 12 wheelbarrow loads of garden waste, and makes about a half ton of manure.

AGRICULTURAL LIME

Good for sweetening acid or sour soils. Apply at rate of 1 ton to the acre, or 100 lbs. to every two thousand square feet. Do not use near coniferous evergreens, rhododendrons, laurels, azaleas, blueberries or strawberries.

10 lbs.	\$.35	50 lbs.	\$.75
---------	--------	---------	--------

ALUMINUM SULPHATE

Use to create an acid soil for Rhododendrons, Azaleas and similar plants. Approximately 1 lb. to 10 sq. ft. of surface.

5 lbs.	\$.50	10 lbs.	\$.75	100 lbs.	\$ 4.50
--------	--------	---------	--------	----------	---------

BONE MEAL

Ground bone, rich in fertilizing value, safe and effective for lawns, gardens, bulbs, trees, roses, shrubs — in fact for any purpose. Becomes available slowly so benefits for a long time. Mix thoroughly with soil, one pound to 3 cu. ft. As a top dressing use at rate of 1 lb. to 25 sq. ft.

5 lbs.	\$.40	10 lbs.	\$.75
50 lbs.	2.25	100 lbs.	3.75

Special prices quoted on large quantities.

ENGLISH FORMULA

Lawn and Garden Dressing. Economical and permanently enriching. Rich in nitrogen, phosphorus and potash. A 5-7-3 formula that makes a balanced plant diet.

5 lbs.	\$.55	25 lbs.	\$ 1.60
50 lbs.	2.85	100 lbs.	4.75

PULVERIZED SHEEP MANURE

This highly concentrated fertilizer is light, dry and easy to handle. An excellent fertilizer for lawns, cemeteries, and wherever a luxuriant growth of green is needed. Also good for evergreens, trees, shrubs and other plants. Our sheep manure is the best quality obtainable.

5 lbs.	\$.40	10 lbs.	\$.75
50 lbs.	2.25	100 lbs.	3.50

SCOTT'S TURF BUILDER

A complete food prepared especially for grass. Very economical for it goes two to three times as far as many fertilizers, and lasts much longer. Clean and free from objectionable odors. Absolutely weedless. Complete directions in each package.

10 lbs.	\$ 1.25	25 lbs.	\$ 2.25
50 lbs.	3.75	100 lbs.	6.50

VIGORO

A combination of scientifically combined fertilizing elements, to help make your garden and lawn grow. Clean, odorless and easy to use. Food elements quickly available.

5 lbs.	\$.45	10 lbs.	\$.85
50 lbs.	2.75	100 lbs.	4.50

EEZY-WEAR GARDEN GLOVES

Made of pliable lambskin — all leather, dirt-proof, washable. Very satisfactory for garden and garage work. Medium size for women. Large size for men.

75c per pair

PROTECT YOUR SHRUBBERY FROM DOG NUISANCE

Garden Club Shrubbery Protectors are made of steel spring wires, rust proofed to last. Each protector has three prongs and covers a quarter circle. Four protectors will protect a shrub on all sides. Does not injure dogs or clothing of passers by.

\$1.95 per dozen

DRICONURE

A combination of about two-thirds high grade dehydrated cow manure and one-third quality Peat Moss. Free from weeds, insects, fungus and trash. Driconure is safe and easy to use. It will prepare any soil for plant growing and will improve the best growing soil. Splendid for reconditioning old lawns and gardens as well as for building new ones. Use liberally, confident of satisfactory results.

5 lb. bag	\$.50
50 lb. bag	3.00

POTTING SOIL

Especially prepared for all kinds of potted house plants. Fertilizer mixed with loam, ready for immediate use.

Peck	\$.35	Bushel	\$.50
------	--------	--------	--------

HOUSE PLANT FOODS

Fertiflora

A liquid fertilizer. Easy to use. Just mix with water and apply to your potted plants.

8 oz. bottle — 35c

Plantabbs

This very highly concentrated fertilizer is in easily handled tablet form. Instructions for use with each package.

Box of 30 tablets	— 25c
Box of 75 tablets	— 50c

WEED KILLERS

Adco Weed Killer

A powder that eradicates weeds from the lawn and at the same time stimulates the grass to richer growth. A scientific, labor-saving product, the result of years of experimentation. Clear directions with each package.

3 lb. can — \$1.00

Dandelion Killer

Draws moisture from dandelion leaves and roots until plants die. Feeds the grass so that it soon covers spot where dandelion was.

Package — \$.35

ANT POISONS

Bay State Ant Killer

Is effective for killing ants in their nests. Worker ants gather syrup from pieces of sponge, or in case of fat eating ants, from pieces of bacon rind, impregnated with poison, and distribute to the entire ant colony.

6 oz. bottle — 40c

Dolco Antrap

A small metal box, about 2 in. diameter, filled with poison. Place according to instructions on package. Attracts and destroys both sweet and grease eating ants — which carry poison back to nest.

Each	30c	4 for	\$1.00
------	-----	-------	--------

DOG REPELLENT

Dawg-Gone

Evergreens are very easily burned and disfigured by dogs. This combination of rare chemicals releases an odor distasteful to dogs. It comes in small tubes which are hung on lower branches of the evergreens. Easy to use and effective. Instructions for use on each tube.

Tube	35c	3 for	\$1.00
------	-----	-------	--------

PROTECTION FOR YOUR PLANTS

ARSENATE OF LEAD

The best poison to use against chewing and leaf-eating insects such as worms. Perfectly safe to use on tender foliage. Use on shrubs, vines, shade and ornamental trees. Use dry or mix with water. Will keep indefinitely. Does not freeze or spoil.

1 lb. \$.30 4 lbs. \$.80

BLACK LEAF 40

(Concentrated solution of Nicotine Sulphate)

An excellent material for spraying against sucking insects, spiders, aphids, etc. on evergreen, shade and fruit trees, vegetables, shrubs and flowers. Also used on evergreens as a dog repellent.

1 oz. \$.35 5 oz. \$ 1.00

BORDEAUX MIXTURE

The standard preventative and remedy for blight, mildew, rust and other diseases caused by fungus.

1 lb. 35c 4 lbs. 80c

LIME SULPHUR

A standard lime and sulphur product in powder form, effective when dissolved in water. Safe and effective for controlling scale, red spider, fungous diseases, etc. Directions with package.

1 lb. can \$.35 5 lb. can \$1.45

NEW EVERGREEN

A spray which kills both sucking and chewing insects but is non-poisonous when used as directed. Retains its strength and requires no spreader. Excellent all-round spray for the home garden.

1 oz. bottle \$.35 6 oz. can \$1.00

POMO-GREEN

With Nicotine

A fine powder of leaf green color impregnated with nicotine. Never unsightly on plants. Kills eating and sucking insects and controls mildew and fungous diseases.

1 lb. can \$.75 5 lb. can \$3.00

RED ARROW

Red Arrow is a highly concentrated pyrethrum soap spray — easily mixed and used. Non-poisonous. It kills by contact most chewing and sucking insects that would injure your gardens.

Will not injure foliage or effect fertility of soil. Perfectly safe to use on fruits and vegetables. Effective against aphids, thrips, cabbage worms, cut worms, rose bugs and other insects. Directions on package.

1 oz. bottle \$.35 4 oz. bottle \$1.00

SULPHUR (Dusting)

Use Dusting Sulphur to prevent mildew, black spot and other fungous diseases. Help roses, chrysanthemums, phlox, delphinium and other flowers develop to full beauty.

3 lb. can \$.40

SUNOCO OIL SPRAY

A self emulsifying spray oil ready for instant use, mixed with water. Kills scale, aphids, red mites, leaf hopper and many other insects. Will not deteriorate. Pleasant to use. Will not irritate skin or injure clothing. Use as directed on can.

1 gal. can \$1.25

SIGNAL DUSTER — NO. 660

The SIGNAL is a favorite for use about the home and for small garden work. Handles all insecticides in powder form very efficiently. Convenient and economical to use because of its size and compactness. The fan type tip helps to drive powders into the tiniest crevices. \$0.50

PERFECTION SPRAYER

A Perfection sprayer was designed to give the purchaser the greatest possible value for his money. It is the highest pressure compressed air sprayer made, the first choice of experienced users for spraying small orchards, truck gardens, flowers, shrubs, shade trees, etc. Every stem and leaf is completely coated by its penetrating mist. Equipped with the Nu-eez Funnel Top and the adjustable nozzle.

Tank 7½ x 21 inches. 4 gallon capacity. Seams riveted with brass rivets and heavily soldered. Made of first quality galvanized or copper sheets. Pump of seamless brass tubing, 1¾ x 15½ inches. Malleable "D" pump handle. Fitted with 27 inches of discharge hose, 24 inch brass extension rod. Weight about 13 pounds.

No. 110 GF. Perfection. Galv. Tank \$6.75

No. 110 BF. Perfection. Copper Tank 10.00

JUNIOR SPRAYER

Very similar to Perfection but has capacity of 2½ gallons. This sprayer best serves when smaller capacity is sufficient but genuine high-pressure spraying is necessary. It is particularly suited for the back-yard garden; for disinfectant and insecticide application in homes or public buildings. It is a well made, substantial sprayer, thoroughly tested under actual working conditions. Light and conveniently used by woman or child, yet sturdy enough for hardest service.

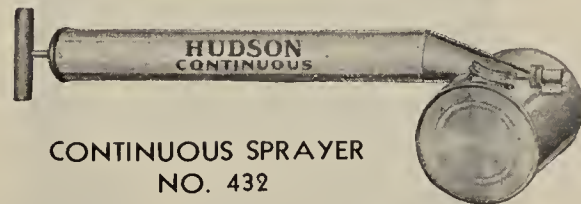

No. 140 GF. Galvanized Tank \$5.00

No. 140 BF. Copper Tank 8.00

MASTER FOG SPRAYER
NO. 403 ND

The MASTER FOG meets the need for a large capacity insecticide sprayer which will properly vaporize Insecticides, Disinfectants, and similar preparations. Capacity 1 quart. \$0.50

CONTINUOUS SPRAYER
NO. 432

The No. 432 CONTINUOUS Sprayer is an exceptionally sturdy unit. Handles all solutions which are sediment free, such as disinfectants, insecticides, etc. Produces a very finely divided, continuous spray without spitting or steaming. Fitted with double nozzle to spray ahead or up, a feature valuable in garden work. Capacity, approximately 1 quart. \$1.00

Give your flowers a chance to display their beauty. The vacuum cups hold the arranger in the bowl or vase. Green finish.

D-33 3½ in. dia. \$.75
D-32 4½ in. dia. 1.00

A strong serviceable wooden box painted green. (May be furnished in other colors on special order, \$.50 extra) Excellent for evergreens or flowers

Sun Dial Pedestal C-86
(Illustrated at right)

May be used with any of the dials or the compass indicators shown above. Stone gray terra cotta. 37 in. high. Top diameter 12 in. \$25.00

Gazing Globe Pedestal C-87

Stony gray terra cotta. Round base, (not illustrated).

30 in. high. \$10.75
10 in. globe \$8.50

Gazing Globe Pedestal C-475

High fired gray terra cotta. Octagonal base illustrated at left.

27 in. high \$11.00
10 in. globe \$8.50

Grape Jardiniere

Gray artificial stone, grape design. An excellent container for evergreens or other plants.

L-444—Height 16 in. Top dia. 20 in. \$8.00
L-444A—Height 13 in. Top dia. 16 in. \$6.00

Sun Dial Pedestal C-86

Stony gray terra cotta. Round base, (not illustrated).

33 in. high. 12 in. top. \$12.75

Sun dials priced above.

Sun Dial Pedestal C-474

Light gray terra cotta. Octagonal base illustrated at right.

31 in. high. 11¾ in. top. \$14.50

Sun dials priced above.

GARDEN TOOLS and OTHER GARDEN NECESSITIES

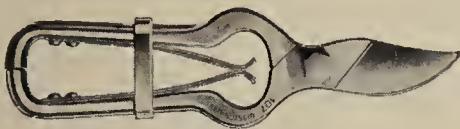

An exceptionally useful tool for home gardeners. Picks and holds flower at same time. Green enamelled handles, nickel plated blades. Packed in attractive individual box. **\$.75**

Ladies' Pruning Shears C-3489

A very convenient tool for the woman gardener. Green enamelled handles, nickel plated blades. Individually packed in attractive box. **\$.75**

Home Garden Pruner No. 107

A very fine and sturdy tool with double leaf spring of clock spring brass. Blade of extra thin, high carbon tool steel. 8 3/8 inches long. **\$1.65**

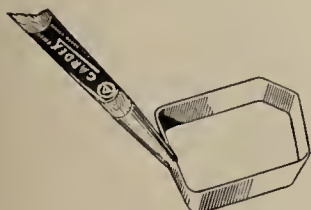

Home Garden Pruner No. 136

A strong and dependable tool. 9 inches long. Volute spring. High carbon tool steel blade. **\$1.50**

Quaker City Pruner No. 105

Malleable iron with detachable tempered blade. Volute spring. An excellent tool for a very low price. **\$.60**

Gardex Pull Hoe

End back breaking drudgery. Weed and cultivate at the same time. No weeds can escape.

No. 1004 4 1/2 in. wide. 4 ft. handle **\$.95**
No. 1005 5 1/2 in. wide. 5 ft. handle **\$1.10**

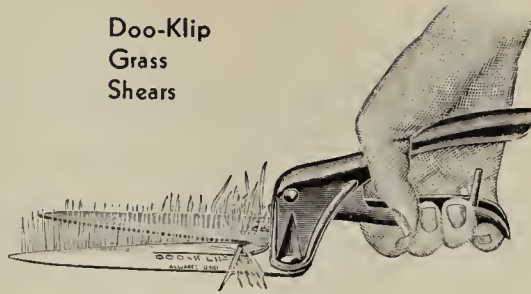

Gardex Cultivator

A 3-pronged tool for large or small gardens. Easy to use. Every home gardener needs one.

4 1/2 ft. handle **\$.75**
No. 150-3

Doo-Klip Grass Shears

An unusually handy tool, easy to use. Up-and-down movement of handles prevents blisters and tired wrists. Cuts fine or coarse grass without mechanical adjustment. Jade green handles. 11 3/8 inches long. Cutting capacity 5 1/8 inches. Absolutely guaranteed. **\$1.50**

Doo-Klip Long Handle Grass Shears

Saves
Backache
Stooping
Lifting

Very easy to operate. User stands erect. Wheels support shears at proper cutting height. Pinch proof grip on a 32 inch tubular steel handle finished in jade green enamel. **\$2.50**

Gardex Culti-Claw

A perfect tool for Flower and Rock Gardens. You can cultivate those inaccessible places without bending.

4 1/2 ft. handle **\$.95**
No. 180

Gardex Hand Plow

For hilling plants, making furrows, etc. With an easy pull it digs in light or heavy soil. A valuable tool. Made of high carbon steel.

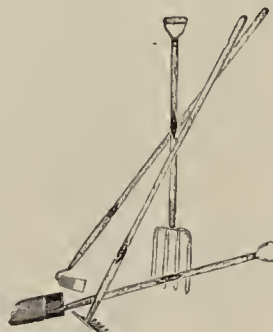

No. 2006 6 in. wide. 5 ft. handle **\$1.60**

Gardening Set

High quality tools, heavy enough to do good work but light enough for a woman to use easily. 4 pieces, all forged.

Shovel — 3 ft. **\$1.00**
Rake — 6 teeth, 4 ft. handle **.75**
Hoe — 4 in. **.90**
Spading Fork, 4 tine, 30 in. handle **1.25**

Set complete — 4 pieces — **\$3.50**

Pruning Knife No. 13B

Heavy steel blade—coco-bola handle with hole in end for ring. A handy practical knife. **\$1.50**

Lexington Trellis

An extra strong well made trellis. Standards and top are of 1 3/4 in. stock. Uprights and cross pieces are 7/8 in. x 1 3/4 in. All painted white. Very useful for climbing roses and vines.

An attractive arch can be made by setting two of these trellises several feet apart and connecting them with cross pieces at the top.

6 ft. tall **\$3.00**
7 ft. tall **3.25**
8 ft. tall **3.50**
9 ft. tall **3.75**
10 ft. tall **4.00**

Annuals

A splendid collection of sturdy annual plants including Asters, Calendulas, Marigolds, Petunias, Snapdragons, Zinnias and other choice popular varieties. These are usually ready for planting about May 10th.

House Plants

Always an excellent and seasonable selection of potted house plants of best foliage and flowering varieties at reasonable prices. Special displays for Easter, Mother's Day, Memorial Day, Christmas and for other special occasions.

Jardinieres

An exceptionally large and fine assortment of sizes, styles and colors to fit all sorts of decorative schemes. Priced **\$.50 to \$3.00**

Plant Pots

Beautiful containers for all sorts and sizes of potted plants. Many colors and styles — of both foreign and domestic manufacture. **\$.25 to \$3.50**

Garden Jars

Handsome big jars for garden decoration. Bright glazed pottery and natural terra cotta ware. **\$12.00 and up.**

Flower Vases and Bowls

Choice imported and domestic vases and bowls of glass, metal and pottery. This fascinating collection includes nearly every imaginable shape and size and a wide range of gorgeous colors. Plenty of the popular white types.

Garden Furniture

Little Tree Farms

FRAMINGHAM CENTRE

MASSACHUSETTS.

ALL ROADS LEAD TO LITTLE-TREE FARMS

We, at Little-Tree Farms, are eager to show you the hundreds and hundreds of carefully chosen, splendidly grown, and reasonably priced gems of the tree, plant and flower world that we have ready for you. If we said to you, "We have everything here that you could want for your garden or grounds, it would sound a bit like boasting, perhaps. But it is no boasting to quote to you a paragraph in the recent Florist's Review, written by an editorial visitor to Little-Tree Farms. This distinguished horticulturalist wrote of our place:

"The general stock, which embraces about everything horticultural, including sundries, is probably as fine as anything to be found at any nursery establishment in the United States."

For variety and quality that about covers the ground!

When you do come, follow your best road to Framingham Centre, where "Little-Tree Farms" signs will point the way along Pleasant Street, Route 30 — to Little-Tree Farms.

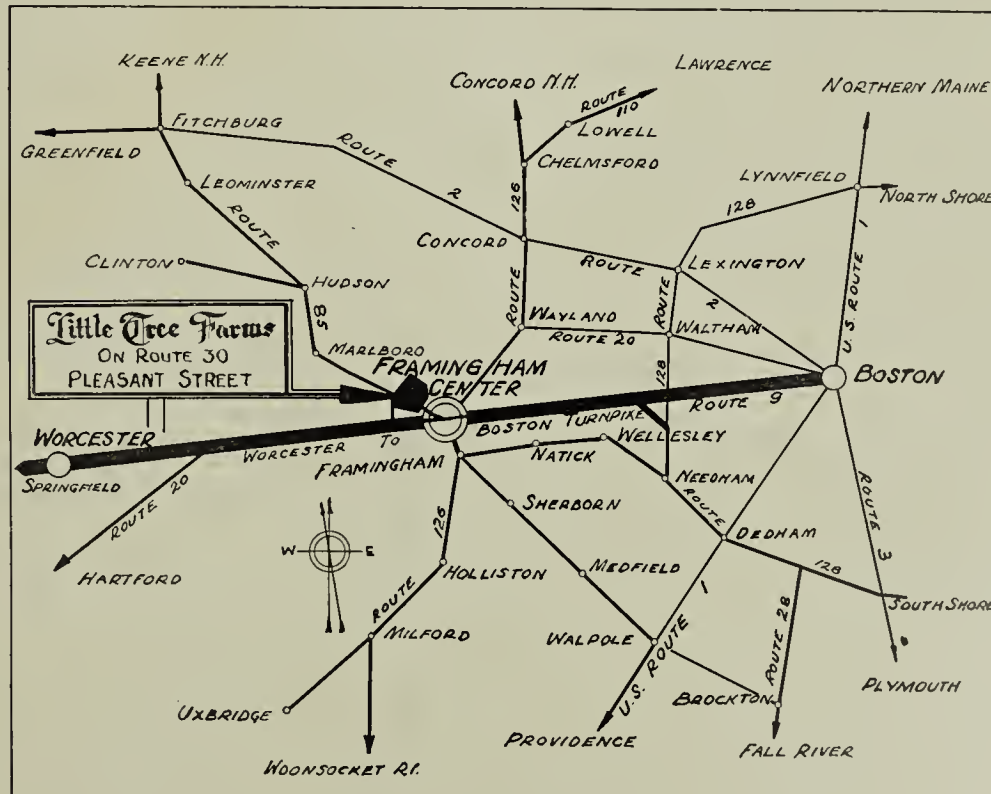

And it is true. Our evergreens and shade trees have been famous for quality for more than a quarter of a century. Our perennials, grown with expert care in our splendid soil, are extra beautiful, big, well rooted; fresh from the nursery fields. Our roses, seeds and bulbs are absolutely the finest to be had. Our stock of garden tools and accessories, flower vases and plant pots is large and very fine.

Do come to see our extensive Exhibition and Sales Grounds when you can. The key men of our organization are qualified landscape men as well as horticulturalists; our salesmen's advice is often the most valuable element of your purchase, though it costs you nothing.

In the meantime, we shall be delighted to ship you some of the timely values herein listed.

When you visit Little-Tree Farms you will find countless other interesting things for the house and garden which space does not permit listing in this catalogue.

Little-Tree Farms and the "Square Deal"

Little-Tree Farms is not a philanthropic institution. It believes in an honest profit on an honest service. But for every dollar it receives, this organization from top to bottom and from center to circumference is pledged to give a full measure of value, heaped up and running over.

Little-Tree Farms wants your business, but it also wants the business of your children and your children's children. This fact — more than any written bond or contract — is your guarantee of a "Square Deal."

Reuben D. Bost

President.
